

Crop & Pest Management Field School

Agronomy Research Farm (Spindletop) *
Lexington, Kentucky

June 30, 2005
8:30 AM - 4:00 PM

A field school designed to provide a hands-on learning experience with crop, soil, and pest management issues in corn, soybeans, and other crops. Crop & pest management topics will be discussed by University of Kentucky faculty in Plant & Soil Sciences, Entomology, Plant Pathology, and Horticulture.

TOPICS TO BE COVERED:

- Herbicide Symptomology on Grain & Horticultural Crops
- Weed Identification
- Insect Problems, Identification, & Management
- Corn Growth and Development Stages
- Soybean Production, Soybean Rust, & Other Foliar Diseases
- Phosphorus Losses in Agricultural Soils

Preregistration of \$10.00 requested by June 17 to participate in this training program. This educational training session has been submitted for Certified Crop Advisers CEU credits (3 hrs Pest Management, 2 hrs Crop Management, and 1 hr Soil & Water) plus CEU credits for Pesticide Applicator Training recertification.

* The UK Agronomy Research Farm (Spindletop) is located at 3250 Ironworks Pike (Hwy 1973) on the north side of Lexington between Newtown Pike (Hwy 922) and the Kentucky Horse Park.
