

# **Decisions, Decisions, Decisions**

Every sheep producer has to make a 'bucket-full' of decisions every year, every month, every day. Some decisions have to be made quickly; others can be made more slowly, after thought and deliberation. Some decisions are flock-changing. All have the potential to affect flock profitability.

This year's **Sheepprofit Day** will focus on the shepherd's decision-making process. We'll address decisions about breeding and genetics, nutrition, flock health, fencing and predator protection, and marketing.

**Make the decision! Come join us!**

**41<sup>st</sup> Annual Sheepprofit Day**

**Thursday, May 20<sup>th</sup>**

**3:00 pm**

**UK Animal Research Center**

**Sheep Unit**

**Versailles, KY**
