

AREAS OF PARTICULAR EXPERTISE*
PH.D. DEGREE IN ENTOMOLOGY
UNIVERSITY OF KENTUCKY

Student's Name _____ SSNo. _____

Address _____

Areas of Particular Expertise

Faculty Examiner for Area

Date of approval by the Advisory Committee

Major Professor's signature _____

* The graduate program in Entomology requires that a Ph.D. student and his/her Advisory Committee identify **four** areas in which the student will develop particular expertise. These four areas will be covered on the Qualifying Examination in more depth than other areas. In addition to the 20 categories listed below, a student with the advice and consent of her/his Advisory Committee may identify one other category (this category need not be entomological) that can be used as an area of particular expertise. The remaining three areas shall be selected from the following:

Acarology
Apiculture/Social Insects
Araneology
Behavior
Biological Control
Crop/Forest Protection
Ecology
Evolution
Genetics
Medical/Veterinary

Molecular/Cell Biology
Morphology
Pathology
Physiology/Biochemistry
Plant - Insect Interactions
Stored Product
Taxonomy/Systematics
Toxicology
Urban/Structural
Vectors of Plant Pathogens
