

Position:

Assistant Professor, Land Use Planning and Ecological Change  
Warnell School of Forest Resources  
University of Georgia

Description:

This is a twelve-month tenure-track position at the rank of assistant professor. Duties will be 50% teaching and 50% research. Extensive training and experience in GIS, spatial analysis, land use change, climate change or wildland urban interface modeling, with applications to landscape-scale silvicultural, watershed management, climate change, or forest health issues, such as invasive species is required. Position requires teaching an undergraduate course in spatial information systems, a graduate-level course, and one other course in the candidate's area of expertise.

Position Available:

Application Deadline:

December 15, 2005

Application:

The candidate must have a Ph.D. At least one degree should be from a natural resources management field. Submit curriculum vitae, statement of teaching and research interests, official transcripts of all college-level work, names and contact information of three references, and reprints of selected publications to: Dr. Pete Bettinger, Warnell School of Forest Resources, University of Georgia, Athens, GA 30602-2152. Please e-mail Dr. Bettinger ([pbettinger@forestry.uga.edu](mailto:pbettinger@forestry.uga.edu)) for a copy of the full announcement.

Removal Date:

December 15, 2005
