

Availability of Forestry Technician position in June. Brief description follows:

Location description: Fort Campbell, KY, Army military installation. Forests consist of approximately 40,000 acres upland and bottomland hardwoods, 10,000 acres loblolly pine plantations managed for sustainable production while meeting military training objectives.

Duties: Work independently and as crew member in timber cruise and inventory, prescribed burning, wildland fire fighting, TSI, laying out sale boundaries for timber sales, identifying tree species, etc. Knowledge and skill with GPS/GIS databases and with electronic data recorders to inventory timber is desired. Ability to pass the arduous pack test required.

GS-7 starting salary of ~ \$34,000 for new hire-ins

Permanent, federal government position.

Job requires specialized experience in standard forestry methods and practices.

Job should be announced in USA Jobs and Department of Army web sites; open to qualified candidates - current government employees and the public. Or call the number below for information.
