

PRUNING DEMONSTRATION FOR GRAPE VINES

For Agents and Growers

TUESDAY FEBRUARY 28, 2012

EDDY GROVE VINEYARD

@ 1:30 PM

UNIVERSITY OF KENTUCKY EXTENSION SPECIALIST-
VITICULTURE, PATSY WILSON

Pruning is the single most important vineyard management practice. It provides the foundation for improved vine health and the production of a profitable and high quality grape crop. We will discuss the proper pruning techniques and how this varies between training systems.

Improve Quality

Reduce Disease
