

**2001 Kentucky Produce Marketing Practices Survey  
Initial Data Summary - Question 3  
March 8, 2002**

**Matt Ernst and Tim Woods  
Department of Agricultural Economics**

This document summarizes the acreage data collected in Question 3 of the 2001 Kentucky Produce Marketing Practices Survey conducted in November/December 2001. The response rate was 33 percent (316 surveys returned of 955 mailed). These data reflect slightly less than half of Kentucky's total produce acreage.
