

## **FOR 100 Worksheet: Chapter 22 – Urban Forestry**

**(Extra Credit if you Complete and Submit Page 2 on or before Tuesday, 20 November)**

**Circle T if the statement is true. Circle F if the statement is false.**

1. **T F** According to Lexington's Street Tree Ordinance, when a homeowner replaces a street tree, s/he may plant any species of tree that s/he desires.
2. **T F** Lexington's Tree Protection Ordinance requires that developers must provide at least 30% tree canopy cover in new residential developments.

**MULTIPLE CHOICE: Circle the ONE best response.**

3. Who is legally responsible in Lexington for the care, removal, and replacement of street trees in front of a home?
  - A. the urban county government
  - B. the homeowner
  - C. a contractor hired each year by the urban county government
  - D. Mr. Tim Queary, Lexington's Urban Forester
  - E. none of the above
4. Describe the difference between an urban forester and an arborist.
5. **Get your Bonus Point here!!!!** If you complete the questionnaire on the next page and submit it (in legible hard copy) at or before class time on Tuesday, 20 November, you will receive 1 extra credit percentage point during determination of your overall course grade. After I record your extra credit point, I will remove your name from your questionnaire before I give it to Mr. Tim Queary, Lexington's urban forester, who will be our guest lecturer on Tuesday, 4 December.
