Dear Alumni & Friends:

Few experiences can match one of the world's most dramatic voyages, a cruise from the Atlantic to the Pacific through one of the greatest man-made wonders of the world, the ingenious Panama Canal. Having celebrated its centennial anniversary just three years ago and the completion of a monumental expansion doubling its capacity last year, this marvel of engineering and 50-mile passage through the narrow isthmus of Panama continues to astonish even today's most veteran traveler. During a **specially arranged daylight transit**, experience firsthand the mighty locks that raise and lower oceangoing vessels 85 feet and using no other power than the force of gravity, accomplishing in mere hours what would have taken a three-week circumnavigation of South America in years gone by.

We invite you to join us for this voyage of a lifetime featuring a narrated passage through the historic Panama Canal and to the unspoiled rainforests of Panama and Costa Rica during the best time of year. On this comprehensive itinerary, explore the heart of Panama City's UNESCO World Heritage-designated Casco Antiguo—the city's old town—and tour acclaimed architect Frank Gehry's only design in Latin America, Panama City's Biodiversity Museum. Visit Panama's ancient San Blas Islands, where the Guna Indians live much as they did centuries ago. Experience one of our planet's most pristine ecosystems in the rainforests, islands and archipelagos of Panama and Costa Rica.

This spectacular offering features the exclusively chartered, **Five-Star, all-Suite STAR BREEZE**, relaunched in 2015 by an award-winning cruise line after an expansive, \$8.5 million refurbishment. This sophisticated small ship features only 106 Suites, six with a private furnished veranda and 36 with private French-style balcony—ideal for your own secluded viewing of the daylight passage through the Panama Canal. Dock in small ports of call inaccessible to larger vessels and enjoy the advantages of Five-Star small ship cruising—casually elegant ocean-view accommodations, an exclusive itinerary carefully crafted with enriching excursions led by experienced onboard naturalists and no waiting in long lines.

This is an extraordinary travel opportunity and an excellent value, so book now while space is available!

Sincerely,

Stan Key

Director of Alumni Affairs and Executive Director of UK Alumni Association

NATURE'S WONDERS

in the Heart of the Rainforest

Called the “coast of riches” by the Spanish conquistadors who discovered it in 1502, Costa Rica offers visitors incredible beauty, ecological diversity and fascinating cultural experiences. More than 25% of this captivating country is a national park, wildlife refuge or protected rainforest, earning Costa Rica the distinction of the greenest country in the world and the leading destination for eco-tourism. Explore lush rainforests, walk along exquisite beaches and see a stunning array of wildlife, where rare and endemic species flourish, including howler monkeys, colorful tree frogs and 600 species of non-migratory birds. Costa Rica’s national motto is “Pura vida!” which translates literally as “pure life” and is expressed by the optimistic, carefree spirit and the smiling faces of the ticos (Costa Rican natives) who warmly welcome you to their spectacular landscape.

San Blas Islands, Panama

Located on the Caribbean side of Panama, the sun-drenched San Blas Islands are an extraordinary testament to Panama’s commitment to the indigenous Guna Indians, also known as the Kuna, and their centuries-old language, customs and culture. Villagers live in typical thatched-roof huts, barter or trade in fish and agricultural products and paddle dugout canoes, their main mode of transportation. Guna women continue to hand stitch traditional colorful *molos* (reverse appliqué panels) and wear *winis*, long strings of tiny beads wrapped around their forearms and legs in striking geometric patterns.

The pristine turquoise waters of Golfo de San Blas—populated with vibrant, untouched coral reefs and rich marine life—offer splendid opportunities for swimming and snorkeling.

Panama City

Central America’s most attractive capital city was founded in 1519 by Spanish explorers and rebuilt in the late 17th century. In the UNESCO World Heritage-designated “old quarter” of Casco Antiguo,

Snorkel with rich sea life in pristine waters.

discover a charming neighborhood with cobblestone streets, a stunning 16th-century cathedral and many historical architectural edifices that remain intact.

Adjacent to the Panama Canal, the Miraflores Locks Visitor Center provides an opportunity to see how the locks operate. Nearby, the new Biodiversity Museum, designed by architect Frank Gehry of Guggenheim fame, showcases the ecological significance of Panama's exotic flora and fauna.

Isla Cébaco

A winding coastline of pristine sandy beaches and towering palm trees front the dense rainforests that dominate the rarely visited gem of Isla Cébaco in the sparkling Gulf of Montijo. Snorkel in its emerald waters, where schools of vibrantly colored fish, giant manta rays and four different species of turtles swim amidst spectacular coral reefs.

Manuel Antonio National Park, Costa Rica

Experience an unparalleled diversity of wildlife in this lush tropical paradise, a captivating combination of rainforest, beaches and coral reefs, home to more than 100 species of mammals, almost 200 species of birds and various reptiles and amphibians.

Panama's Guna Indians proudly wear vibrant molas and wrap their legs with beaded winis.

THE PANAMA CANAL

Marvel of Human Engineering More than a Century of Passages

The 580-foot-long SS Kroonland was the largest passenger ship of its time to transit the Panama Canal in 1915.

During a **daylight passage**, experience firsthand the “greatest liberty man has ever taken with nature,” which cuts through the Great Continental Divide, spans 50 miles and took 33 years to complete at a cost of \$400 million. This historic engineering feat changed the world, opening up new channels of international trade and allowing ships to travel between the Atlantic and Pacific Oceans in a fraction of the time it took to circumnavigate South America.

CROSS SECTION OF THE PANAMA CANAL

After France's failed attempt to build a sea-level canal here in the 19th century and following the U.S. involvement in Panama's independence, the project was turned over to the U.S. in 1903, and construction began during the presidency of Theodore Roosevelt. Among the 100,000 workers involved in the construction was French Post-Impressionist artist Paul Gauguin. When completed in 1914, the Panama Canal was considered one of the seven wonders of the modern world. Now, more than a century later, the Panama Canal has undergone a \$5.25 billion expansion, adding a wider third lane that accommodates more than twice the cargo of the original lanes, maintaining its status as the “gateway to the world.”

Tens of thousands of workers labored and sacrificed to complete the largest engineering endeavor of the early 20th century.
