

## 10. Communication and Network Systems

1. The Division of Communications and Network Systems (CNS) is responsible for planning, developing, managing and maintaining the University of Kentucky Communications system. For complete information on the responsibilities and services provided by Division of Communications and Network Systems go to sections Q-1-1 through Q-1-5 of the University Business Procedure Manual.
2. The Directors of Communications and Networking Systems have been charged with the responsibility for providing communication management oversight for the Lexington Campus, Chandler Medical Center and the UK Hospital. This includes all voice, data and video communications.
3. All requirements for communication services including telephone installation, expansion, or removal should be requested in accordance with University of Kentucky Business Procedures Manual Q-1 through Q-5. All requirements for other communication systems should be coordinated with the Director of Engineering and Operations for Communications and Networking Systems. Requisitions for such systems should be submitted for approval to the Director of Engineering and Operations for Communication and Networking Systems.
