E. Personal Service Contracts require a Request for Proposal to be issued to solicit proposals for the service desired.

III. Procedure

The Purchasing Division must be notified immediately by the department upon determining the need for using outside consultants or professional services.

The department requiring services provides purchasing complete information on the needs, scopes, time frames, special qualifications, estimated costs, source of funds and other information that may be available about requirements.

Purchasing makes a determination on how to contract for the required services.

Generally contracting occurs as follows:

A. Contracts with a total dollar scope of $10K or less are completed on the one page PSC contract form and reported to GCRC by the Purchasing Division within 30 days of contract start date. See B-4-1 Procedures for PSC $10,000 or Less.
B. Contracts exceeding $10K are contracted using the standard UK personal service contract document, following a competitive solicitation through the issuance of a Request for Proposal (RFP). See B-4-2 Procedures for PSC Exceeding $10,000.

C. The Proof of Necessity Form must be completed by the requesting department.

Contracts exceeding $10K must be processed by the GCRC prior to their effective date.
