

PRELIMINARY SURVEY FINDINGS

MyCampus Survey

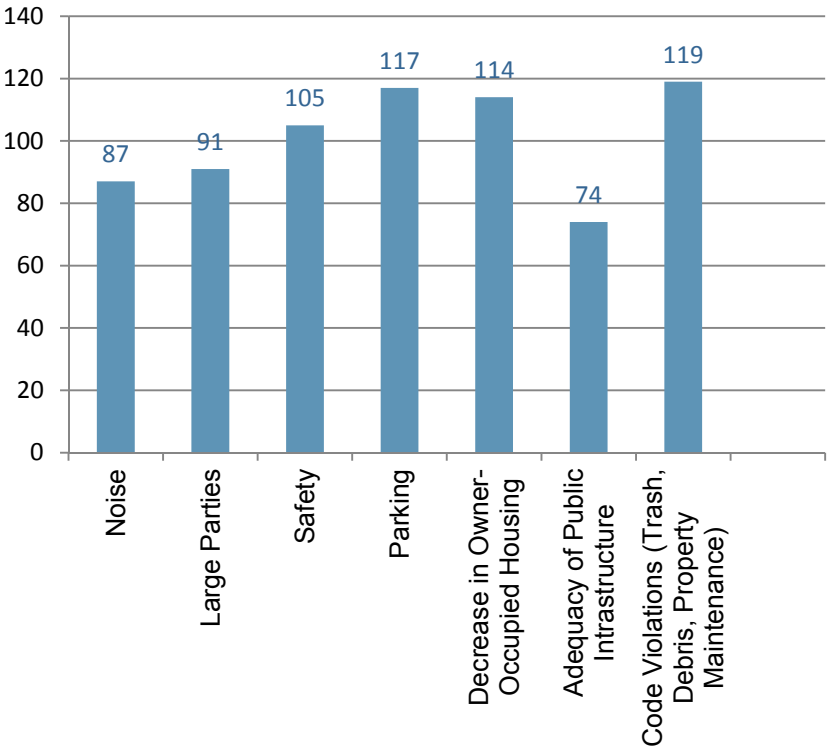

304 Respondents Live On Campus
65% of Student Respondents

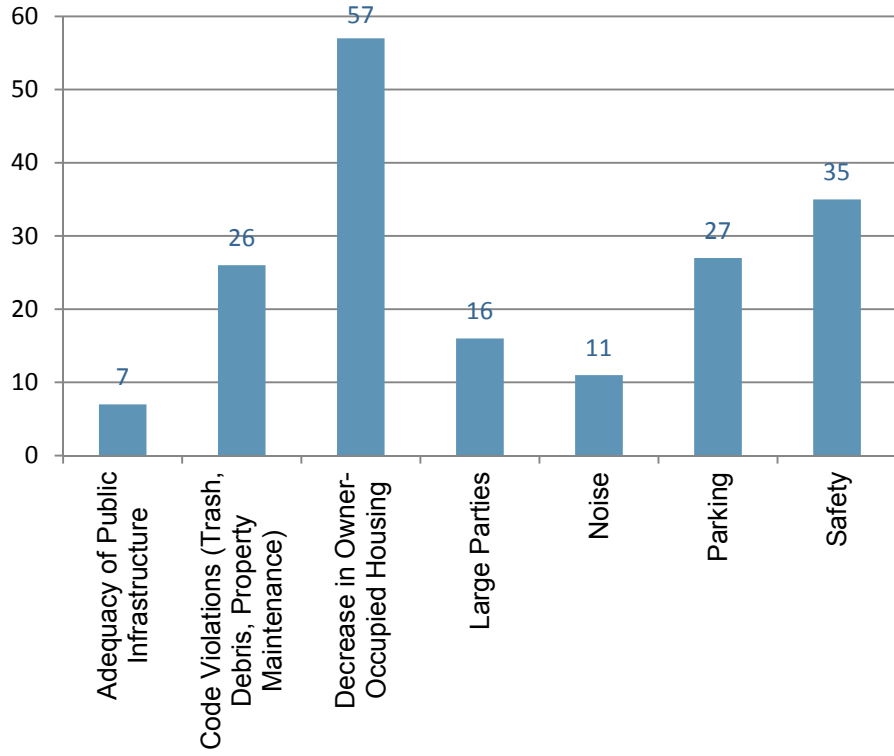

MyCampus Survey

What neighborhood issues are of concern to you?

What neighborhood issues are of greatest concern?

MyCampus Survey

Faculty and Staff Survey Comments

- Parking is stressful. People are often willing to circle for parking or choose off-campus locations to be close to their destinations
- Both WT Young and areas of the academic core are seen as the heart of the campus
- Many academic spaces need improvements
- Pedestrian safety and traffic issues are frequent concerns
- UK has good fitness amenities
- The arboretum is an asset; other outdoor spaces should be improved

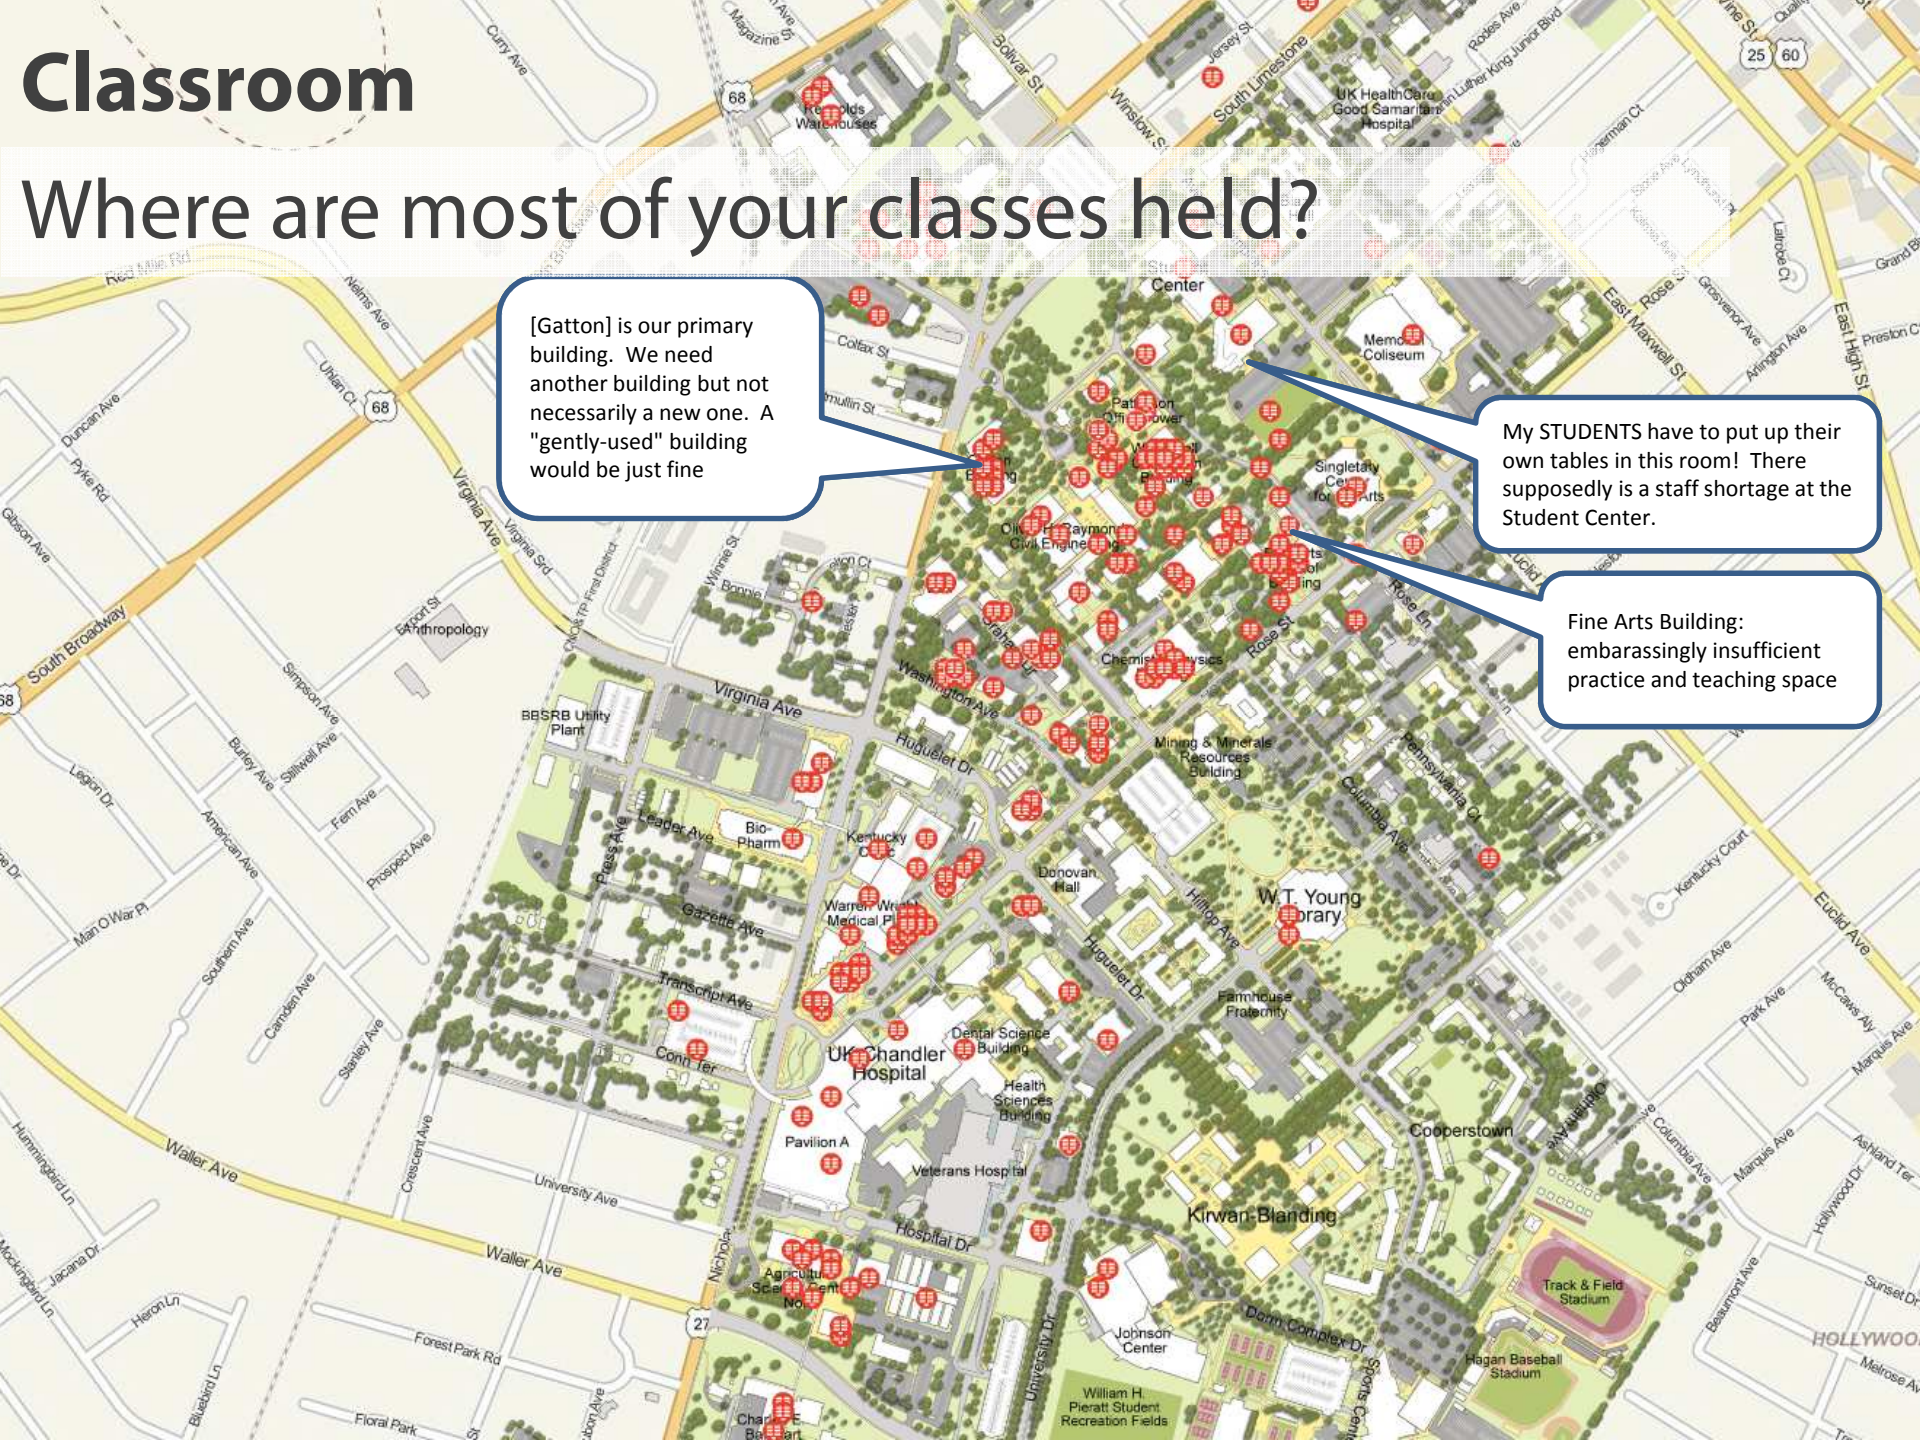

Classroom

Where are most of your classes held?

[Gatton] is our primary building. We need another building but not necessarily a new one. A "gently-used" building would be just fine

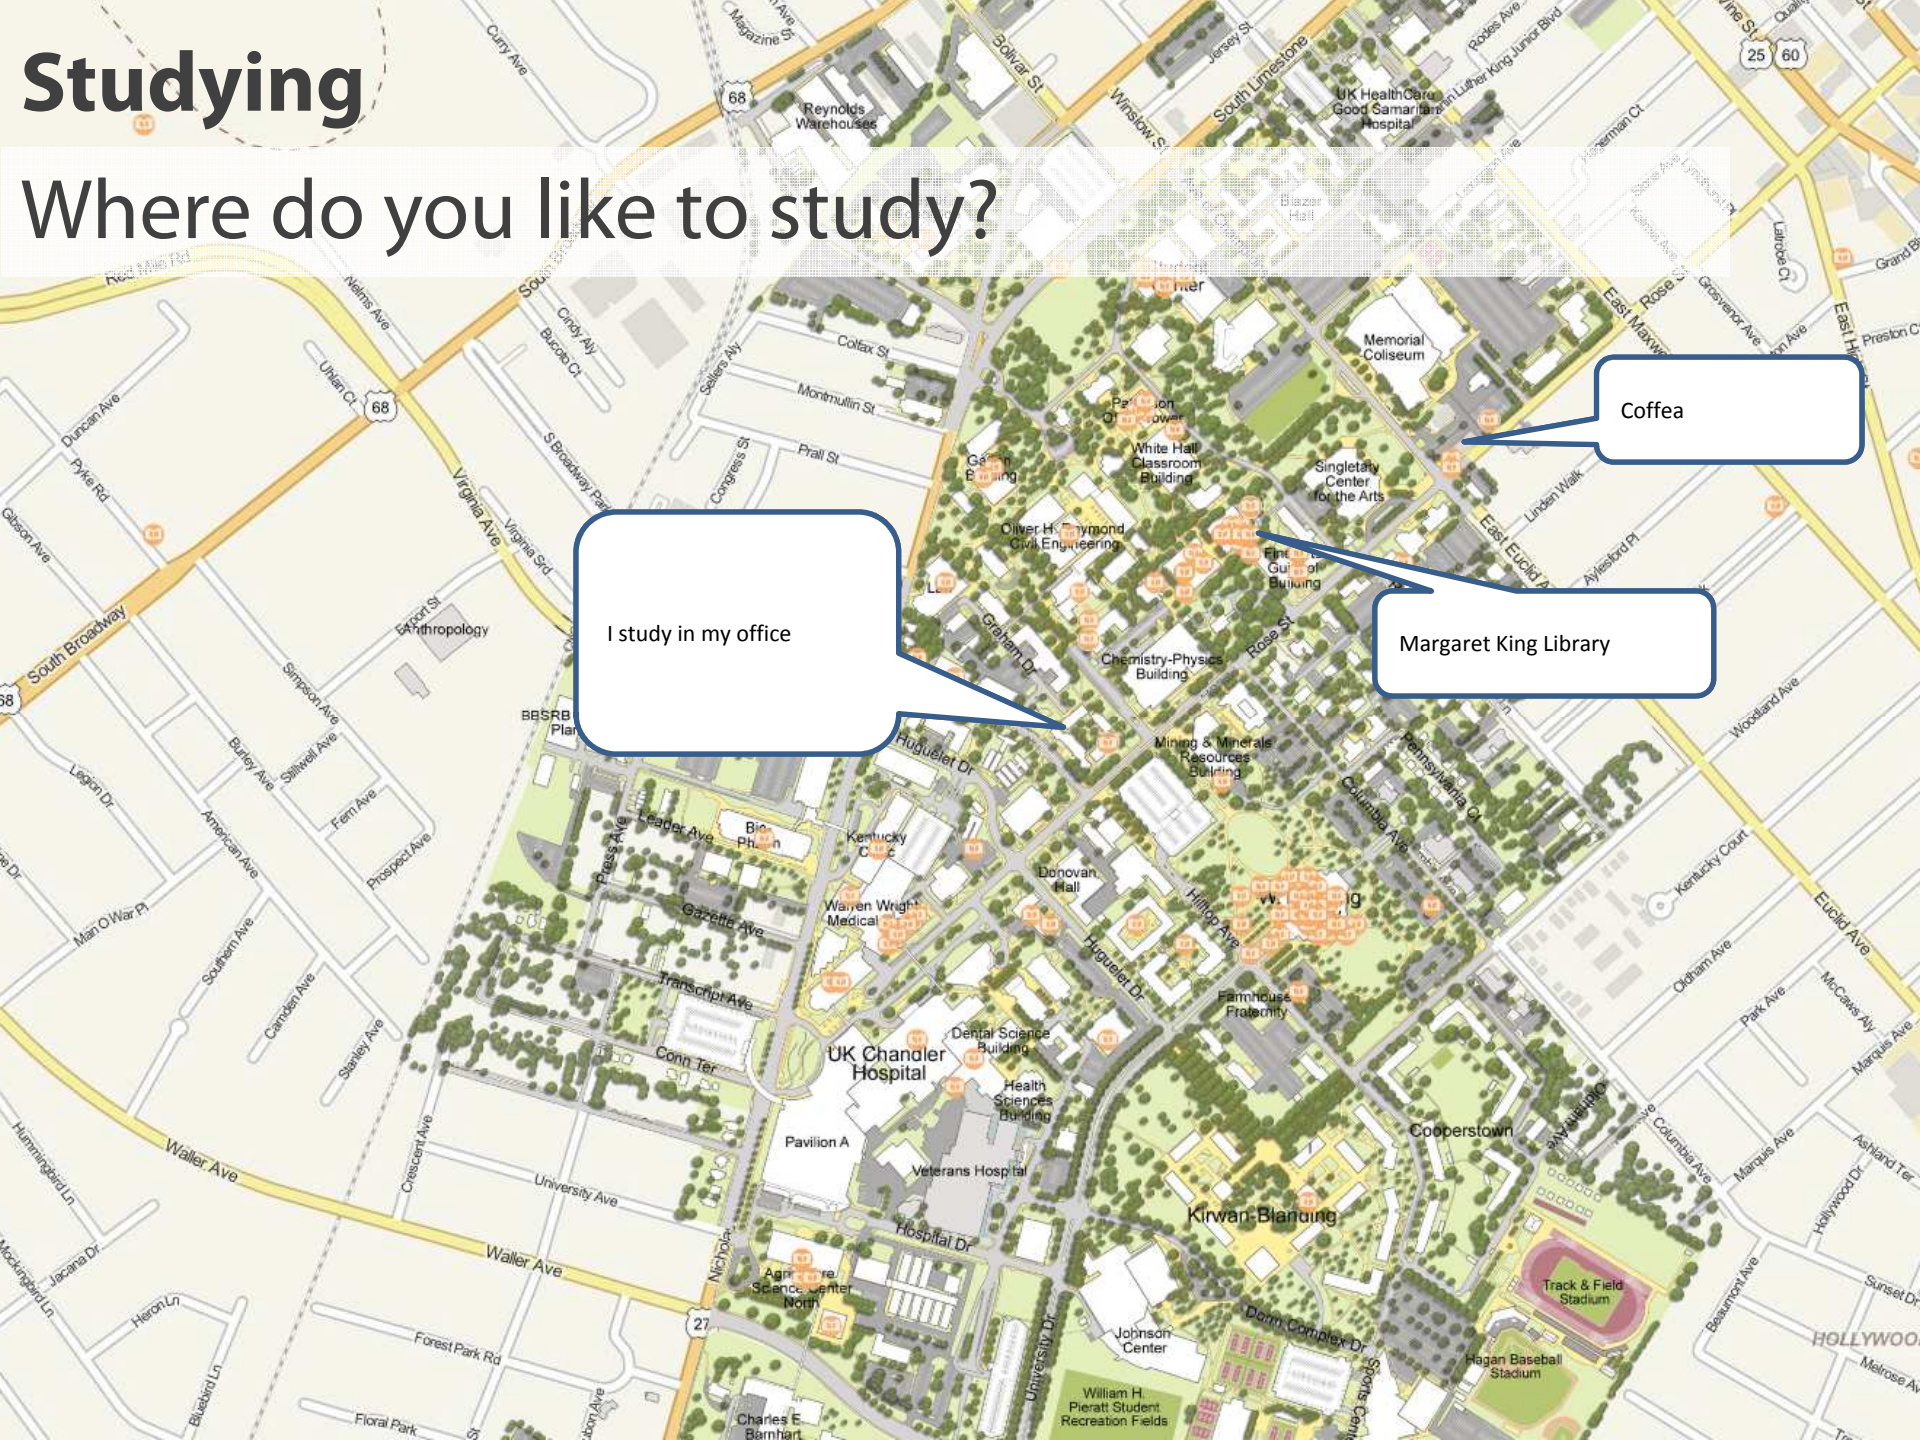

My STUDENTS have to put up their own tables in this room! There supposedly is a staff shortage at the Student Center.

Fine Arts Building: embarrassingly insufficient practice and teaching space

Studying

Where do you like to study?

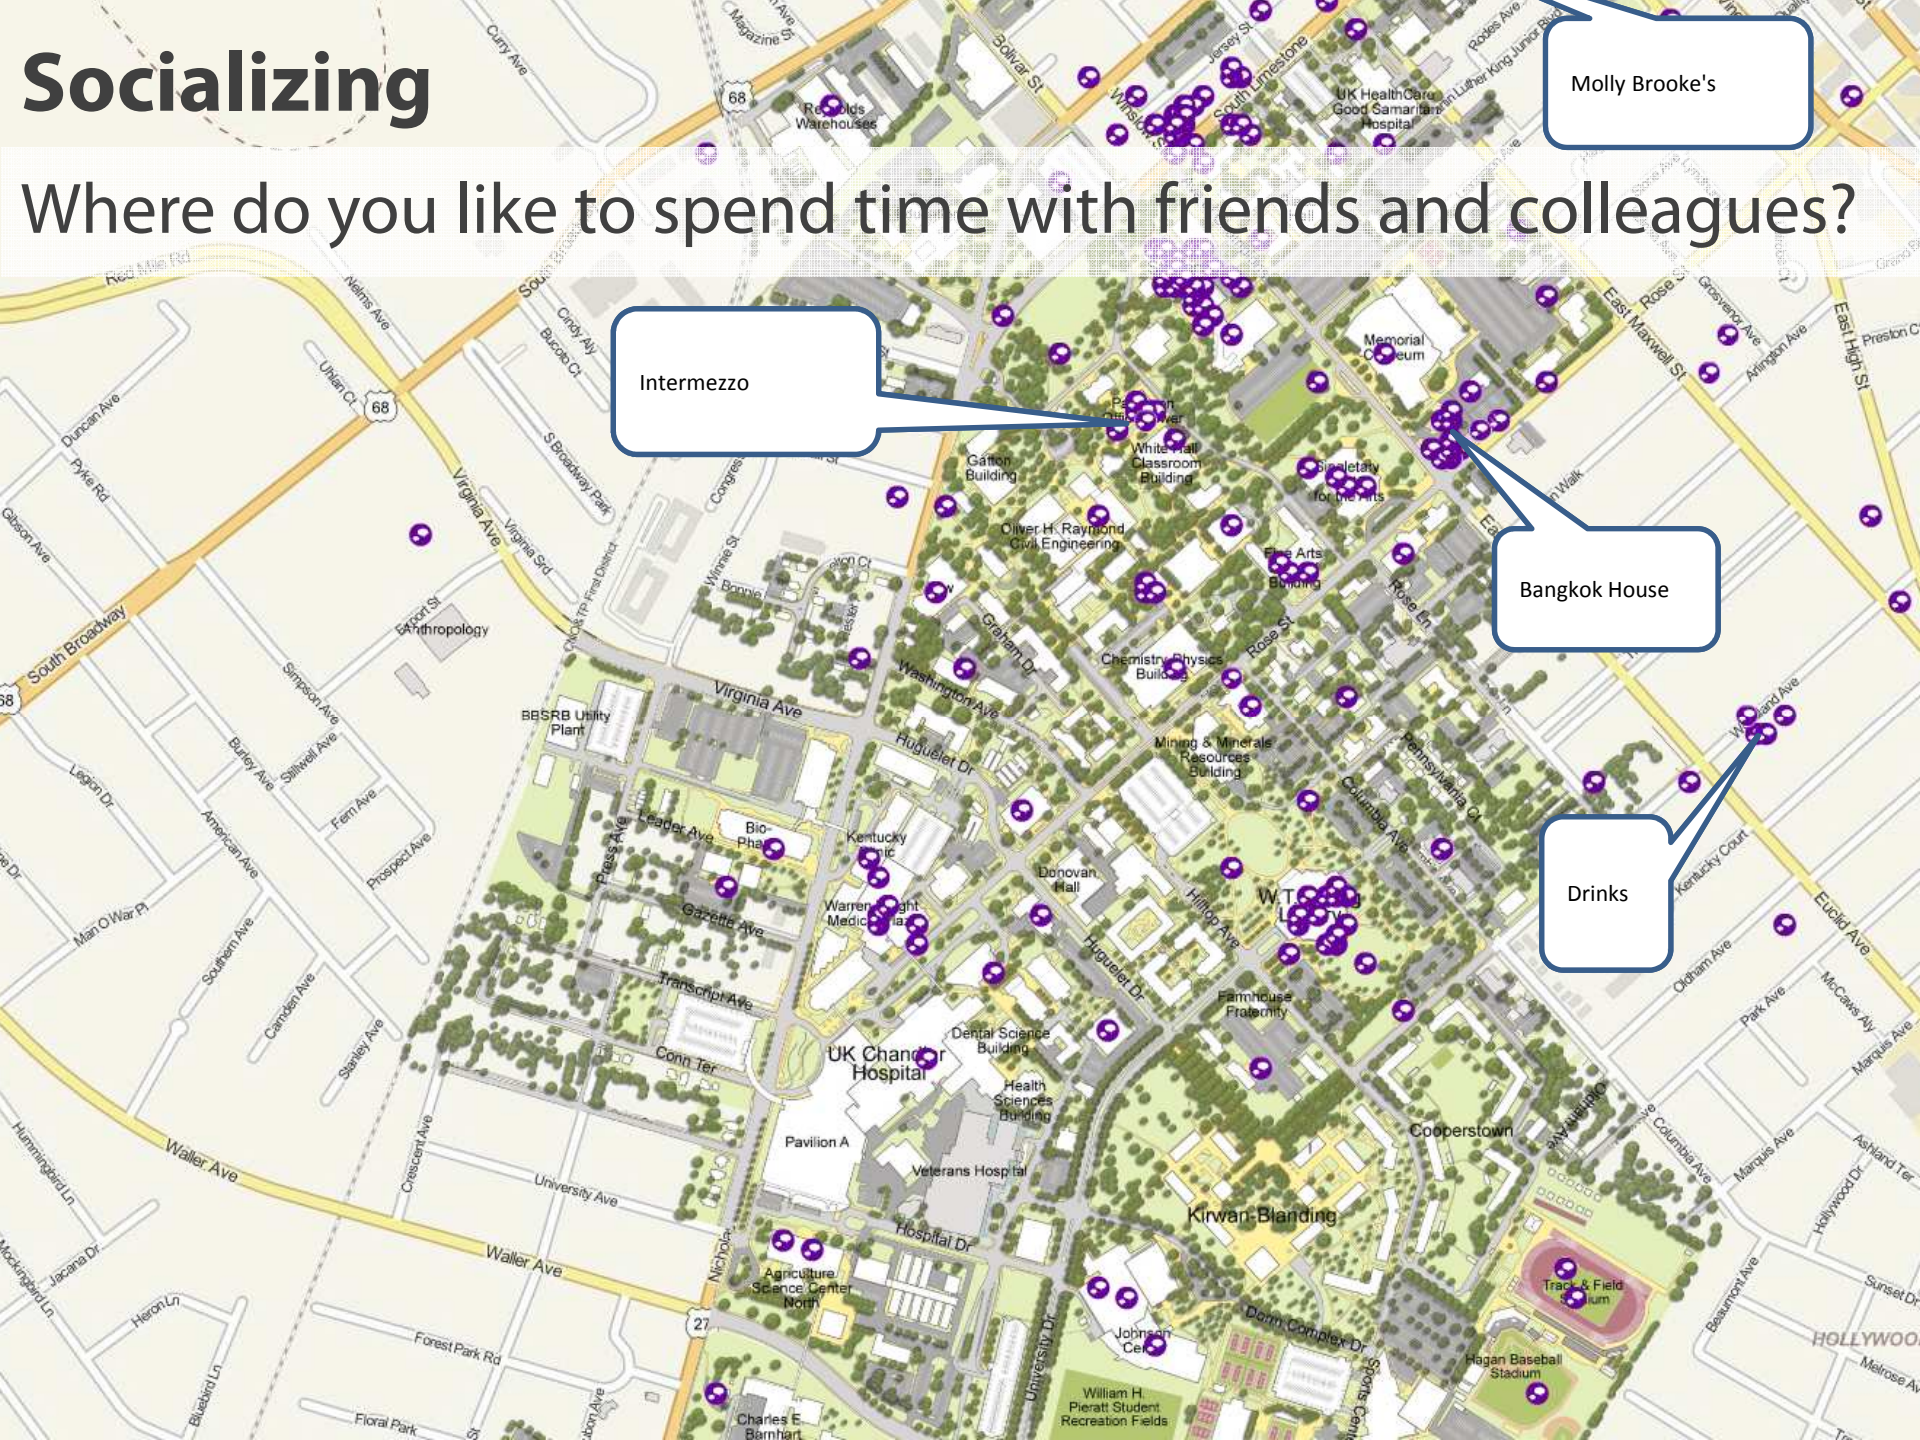

Coffea

I study in my office

Margaret King Library

Socializing

Where do you like to spend time with friends and colleagues?

Molly Brooke's

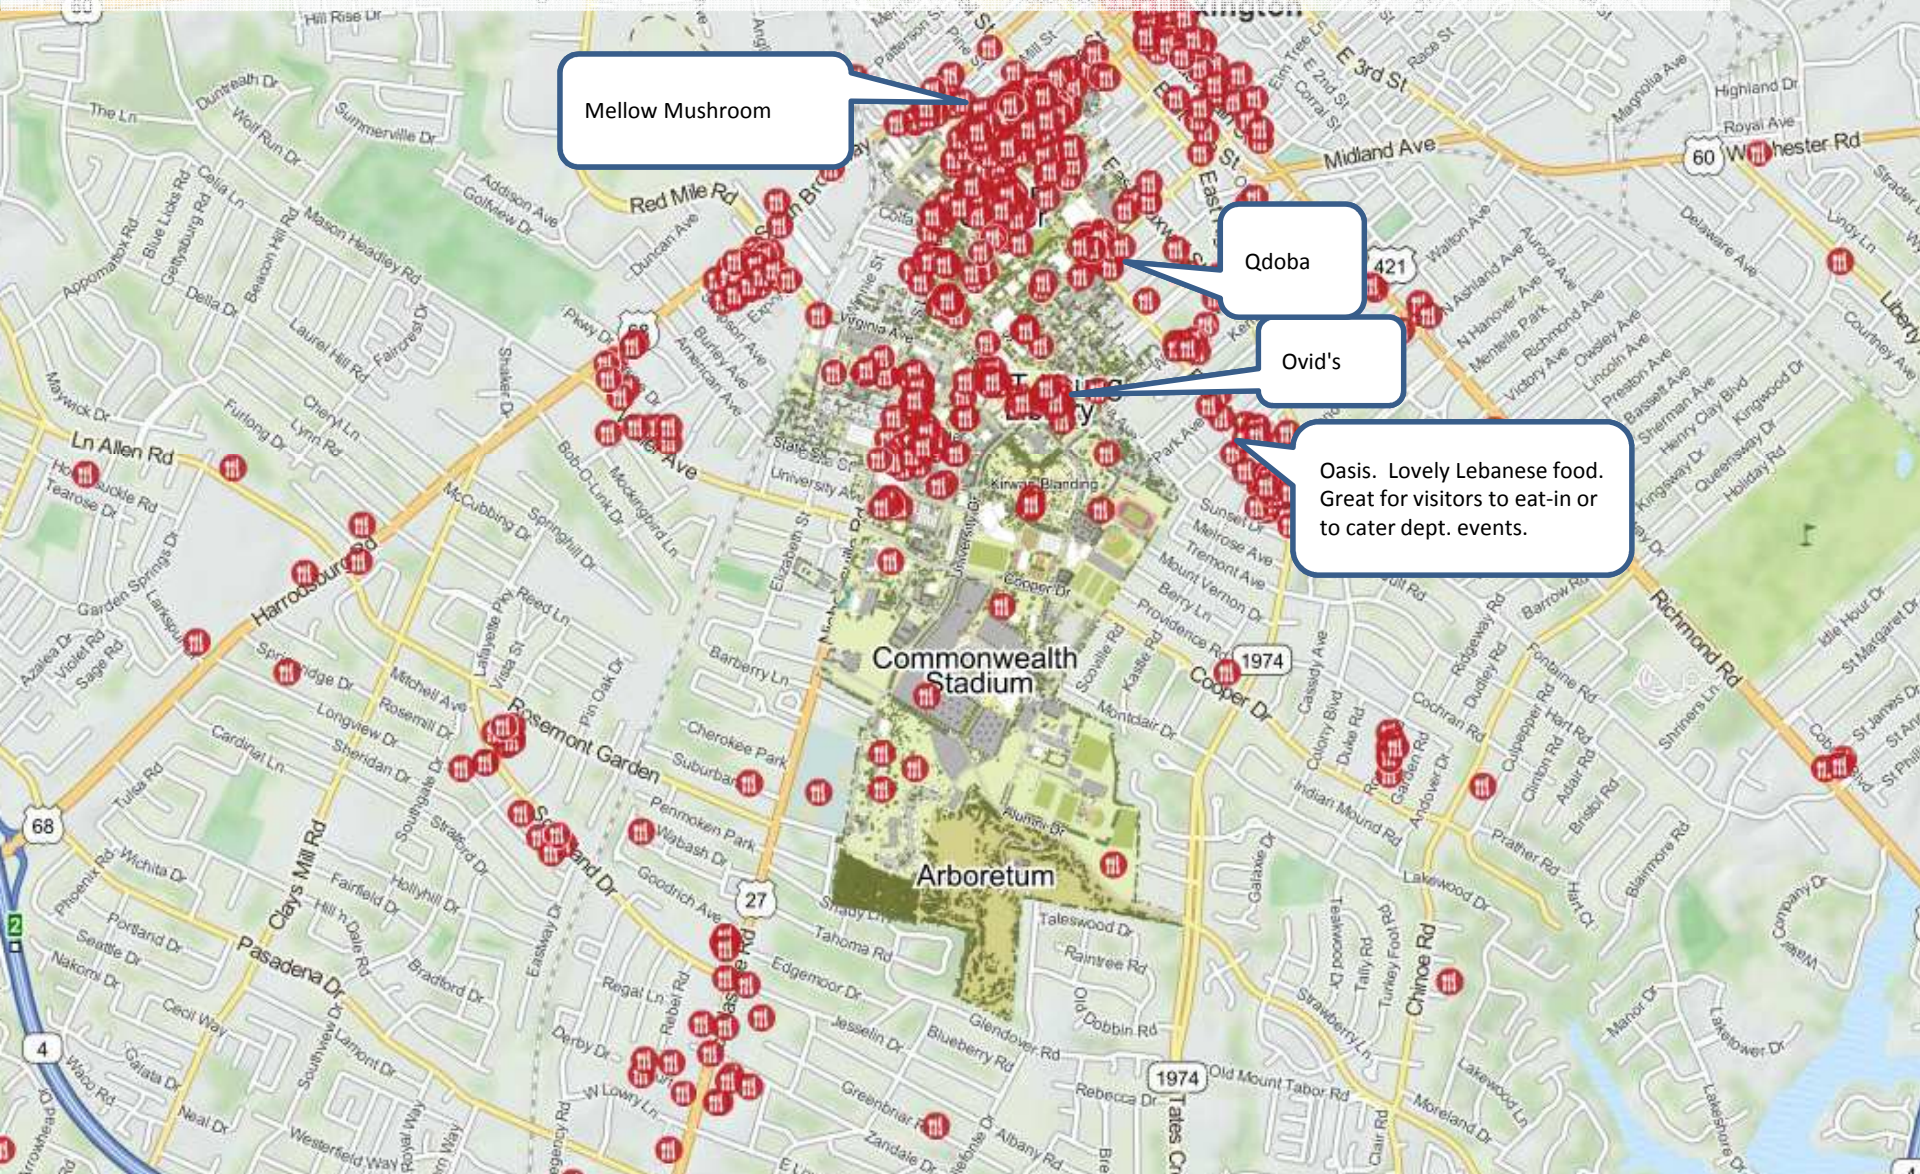

Intermezzo

Bangkok House

Drinks

Dining

Where do you like to eat?

Mellow Mushroom

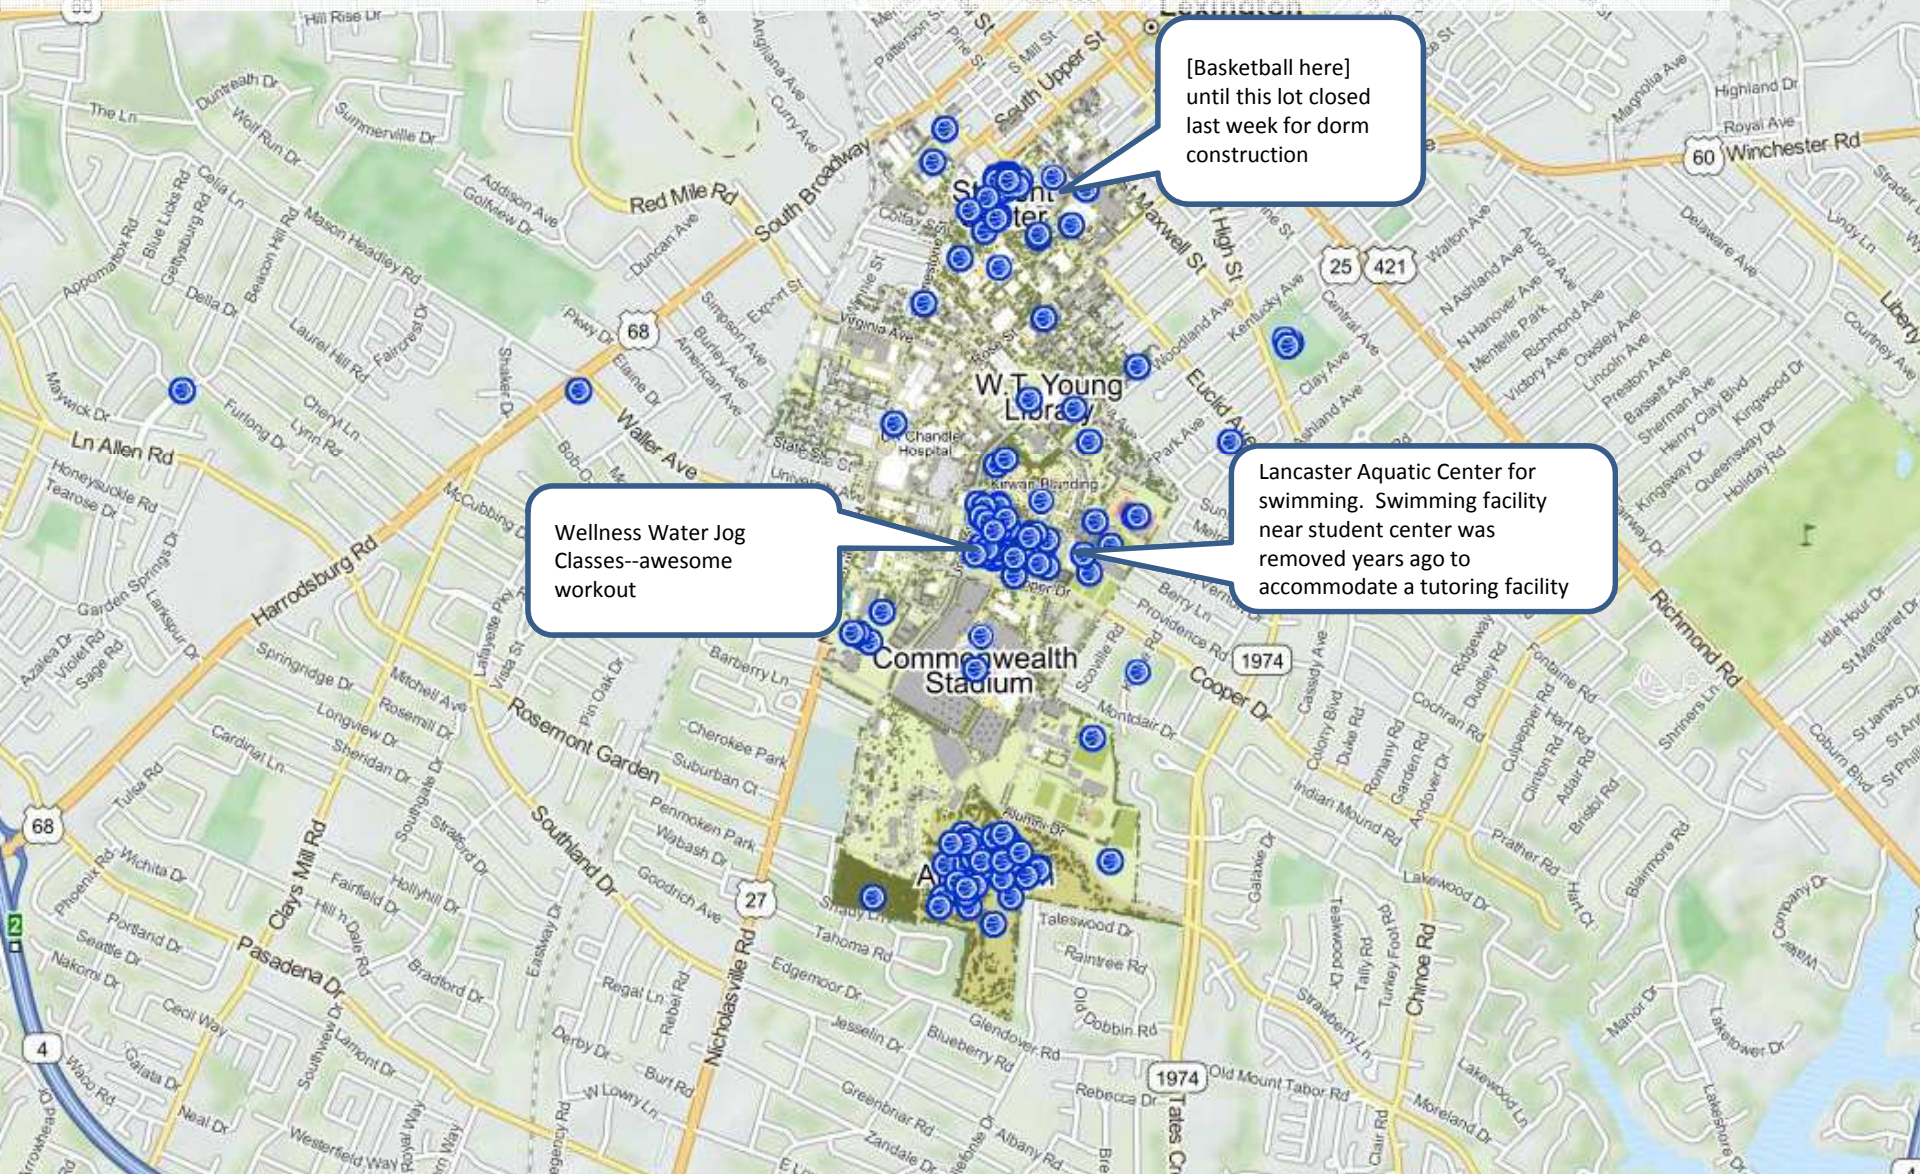

Qdoba

Ovid's

Oasis. Lovely Lebanese food. Great for visitors to eat-in or to cater dept. events.

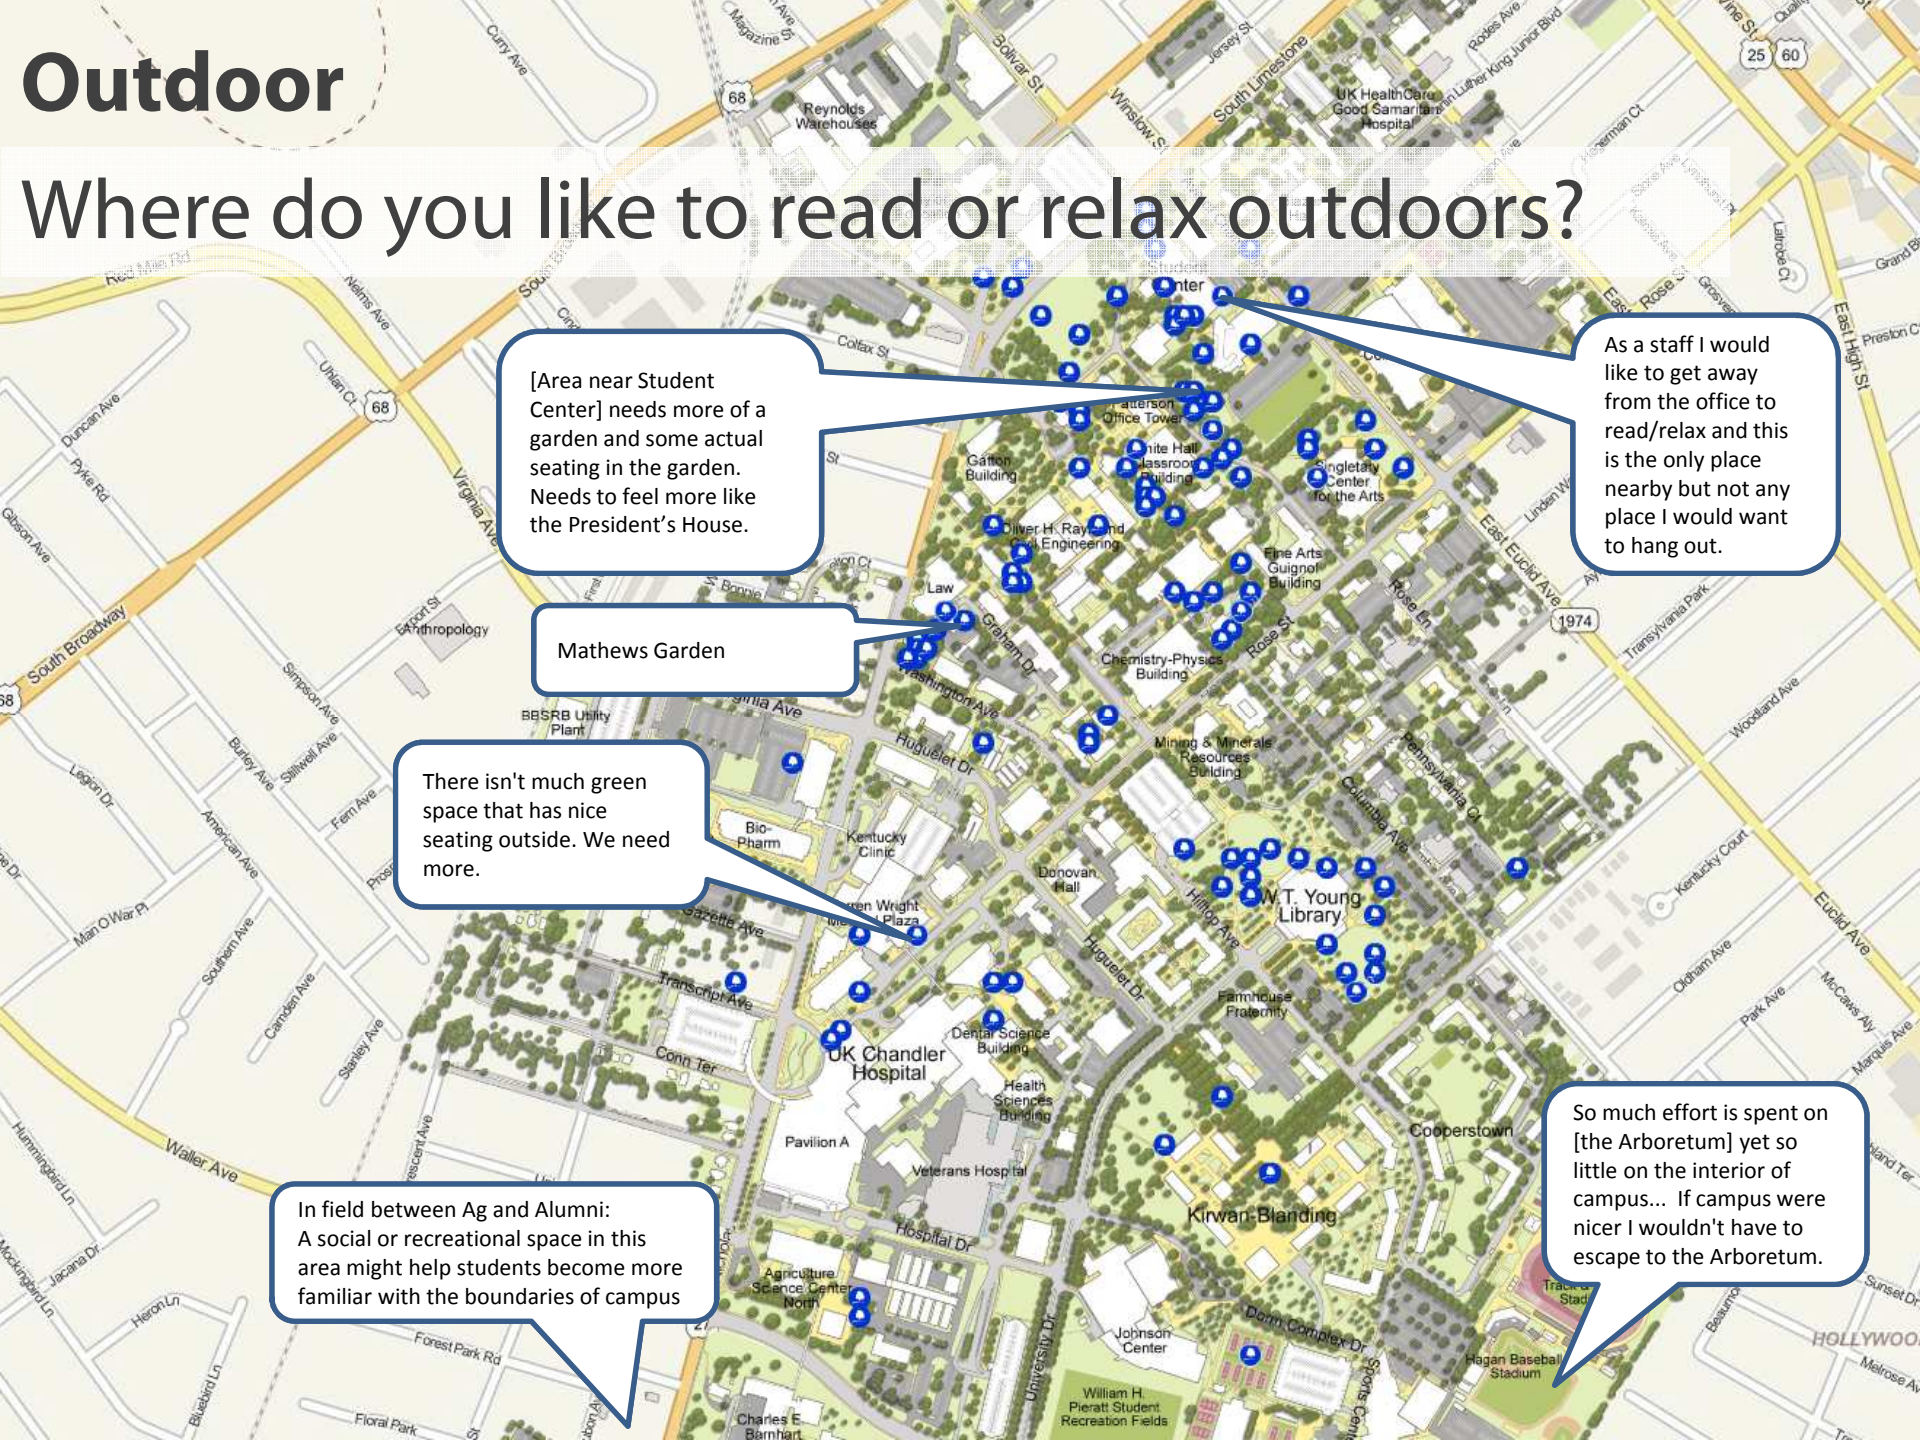

Recreation

Where do you like to play sports or exercise ?

Outdoor

Where do you like to read or relax outdoors?

[Area near Student Center] needs more of a garden and some actual seating in the garden. Needs to feel more like the President's House.

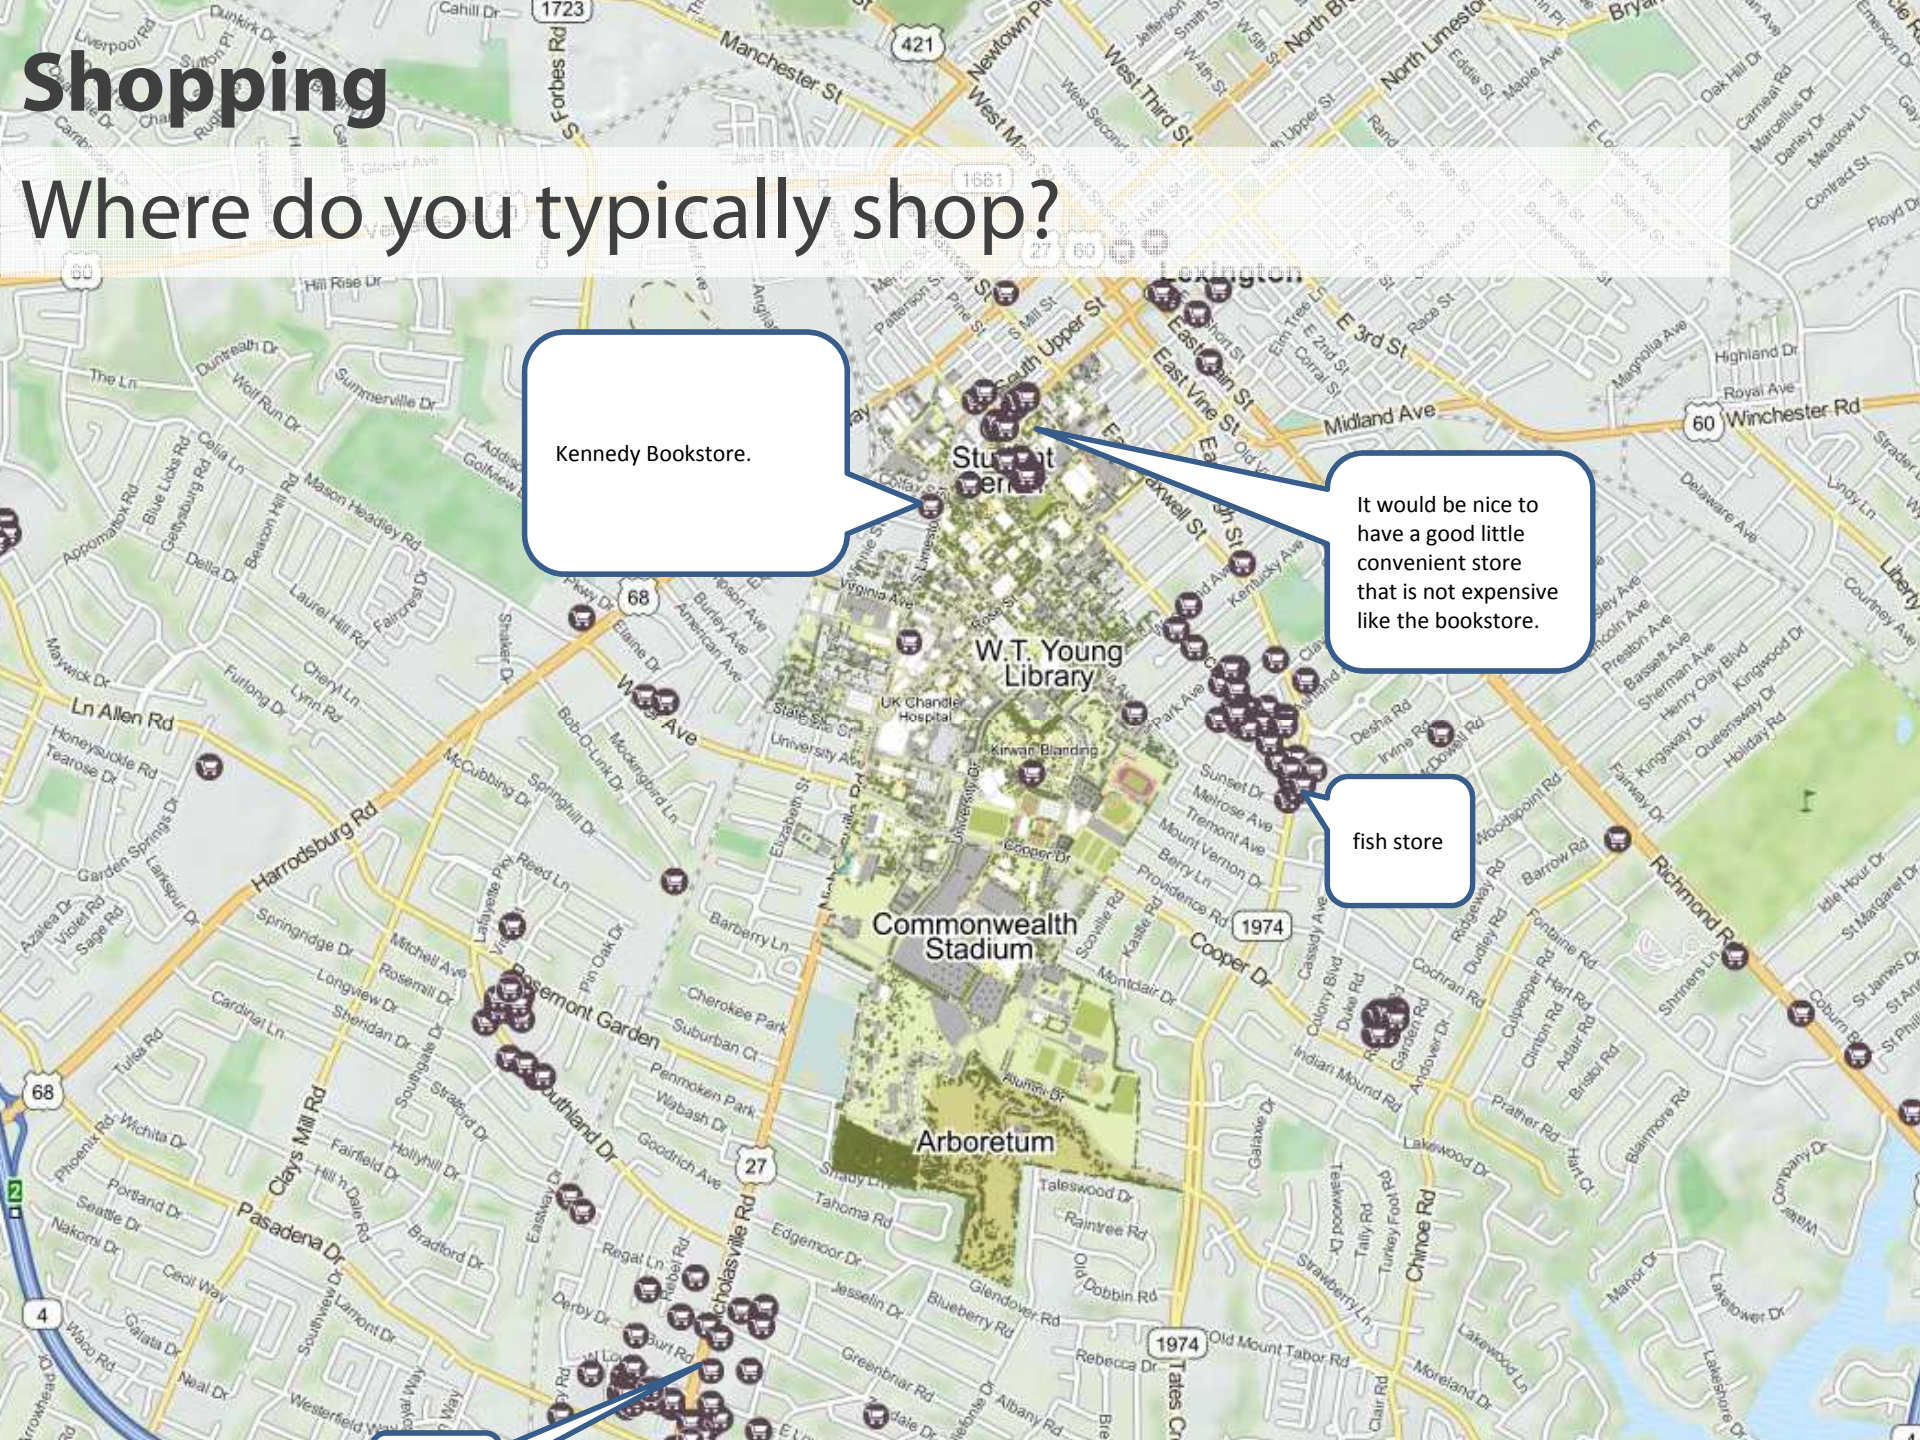

As a staff I would like to get away from the office to read/relax and this is the only place nearby but not any place I would want to hang out.

Mathews Garden

There isn't much green space that has nice seating outside. We need more.

In field between Ag and Alumni: A social or recreational space in this area might help students become more familiar with the boundaries of campus

So much effort is spent on [the Arboretum] yet so little on the interior of campus... If campus were nicer I wouldn't have to escape to the Arboretum.

Shopping

Where do you typically shop?

Kennedy Bookstore.

It would be nice to have a good little convenient store that is not expensive like the bookstore.

fish store

Rosemont Garden

Commonwealth Stadium

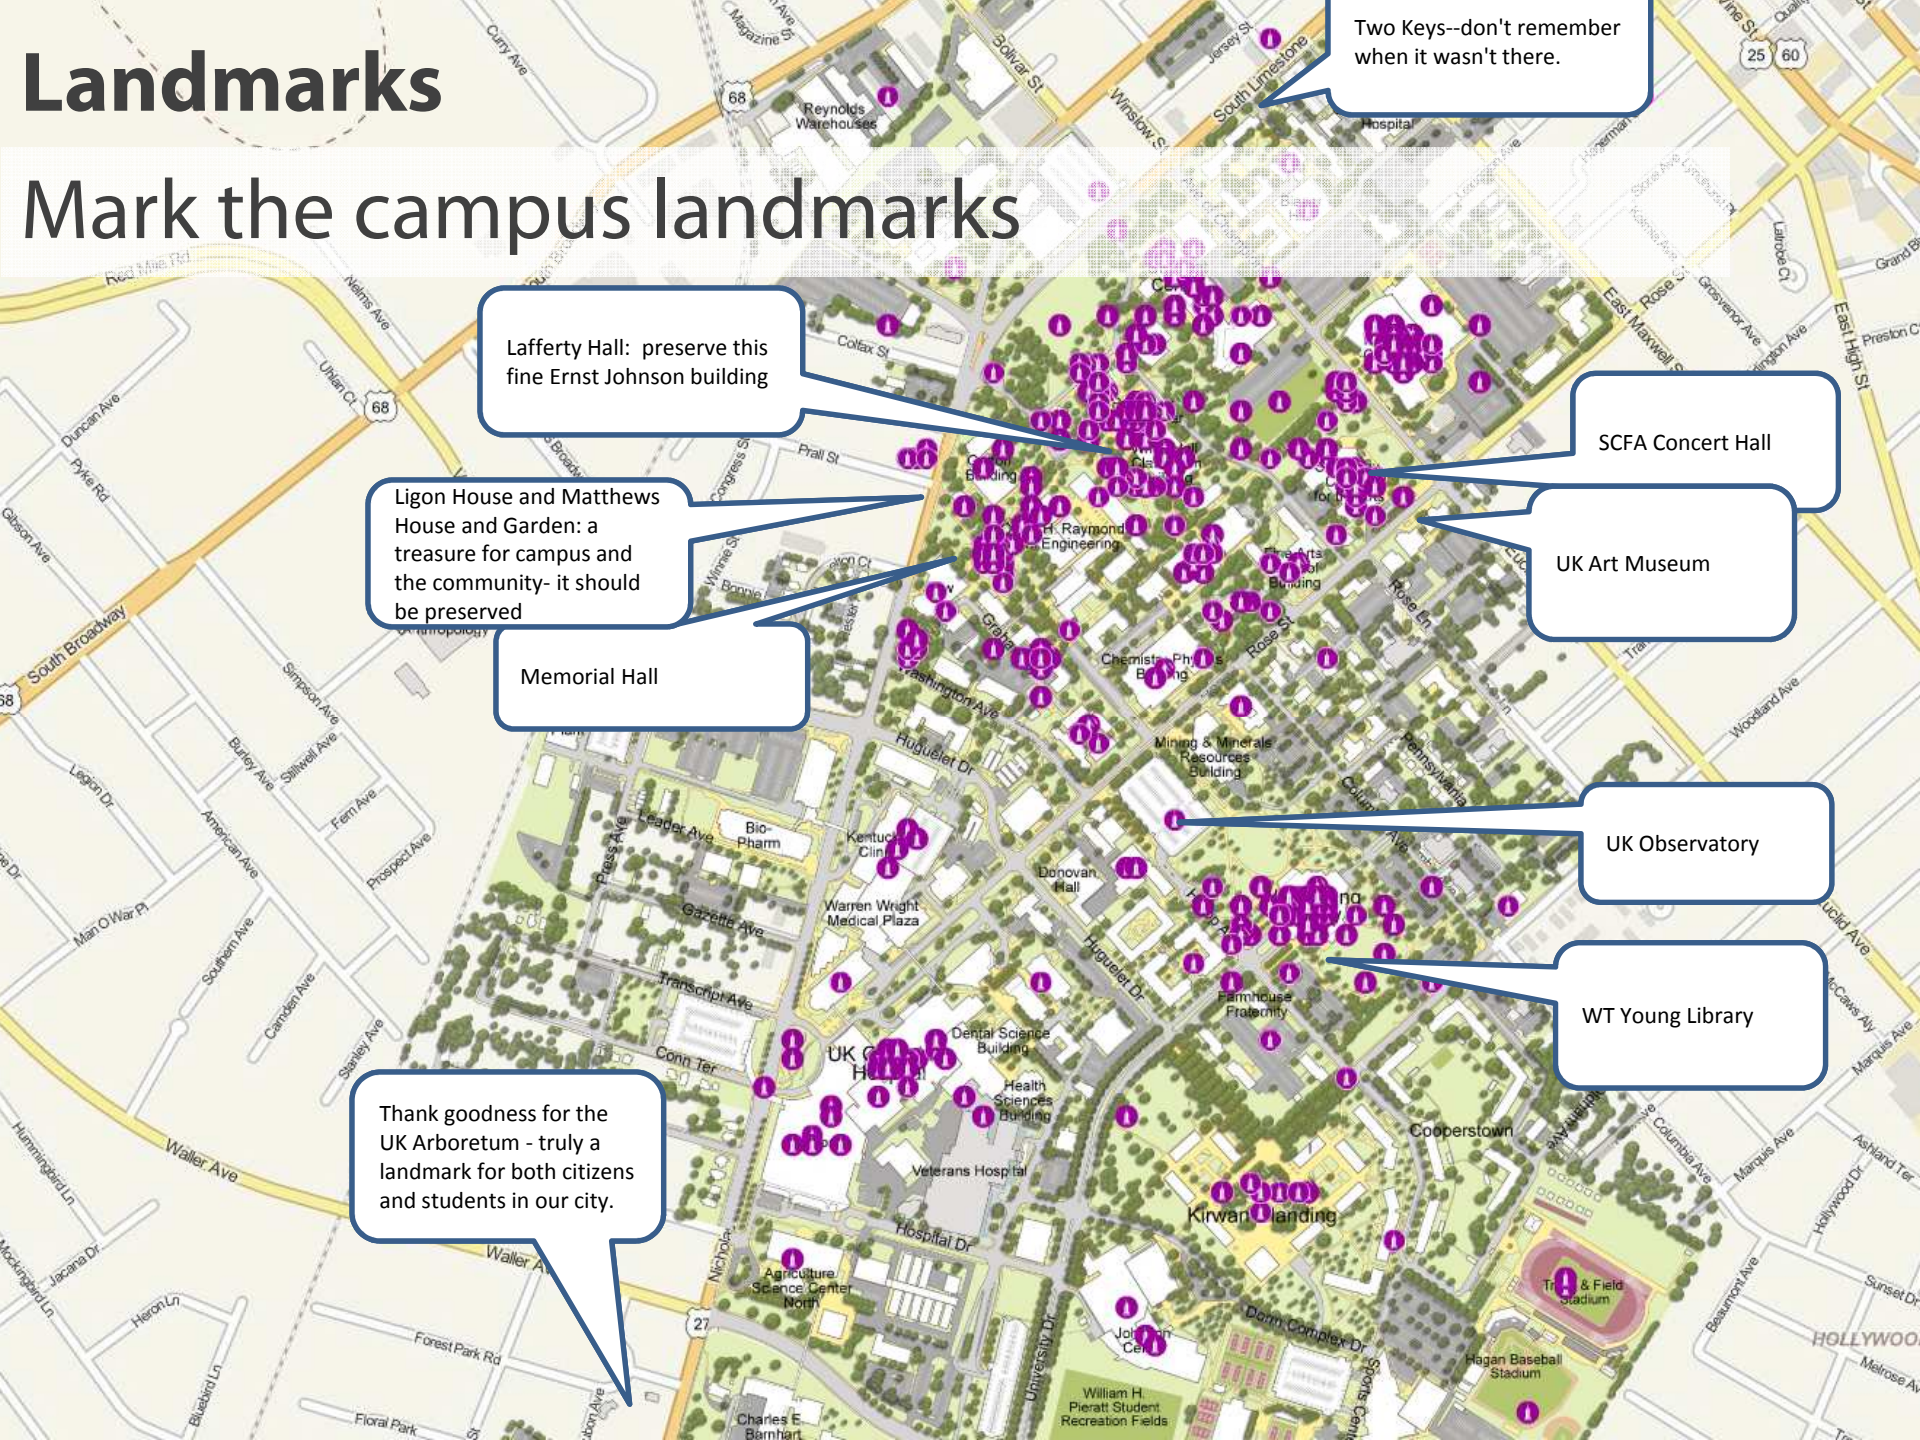

Arboretum

W.T. Young Library

Student Center

Landmarks

Mark the campus landmarks

Two Keys--don't remember when it wasn't there.

Lafferty Hall: preserve this fine Ernst Johnson building

Ligon House and Matthews House and Garden: a treasure for campus and the community- it should be preserved

Memorial Hall

SCFA Concert Hall

UK Art Museum

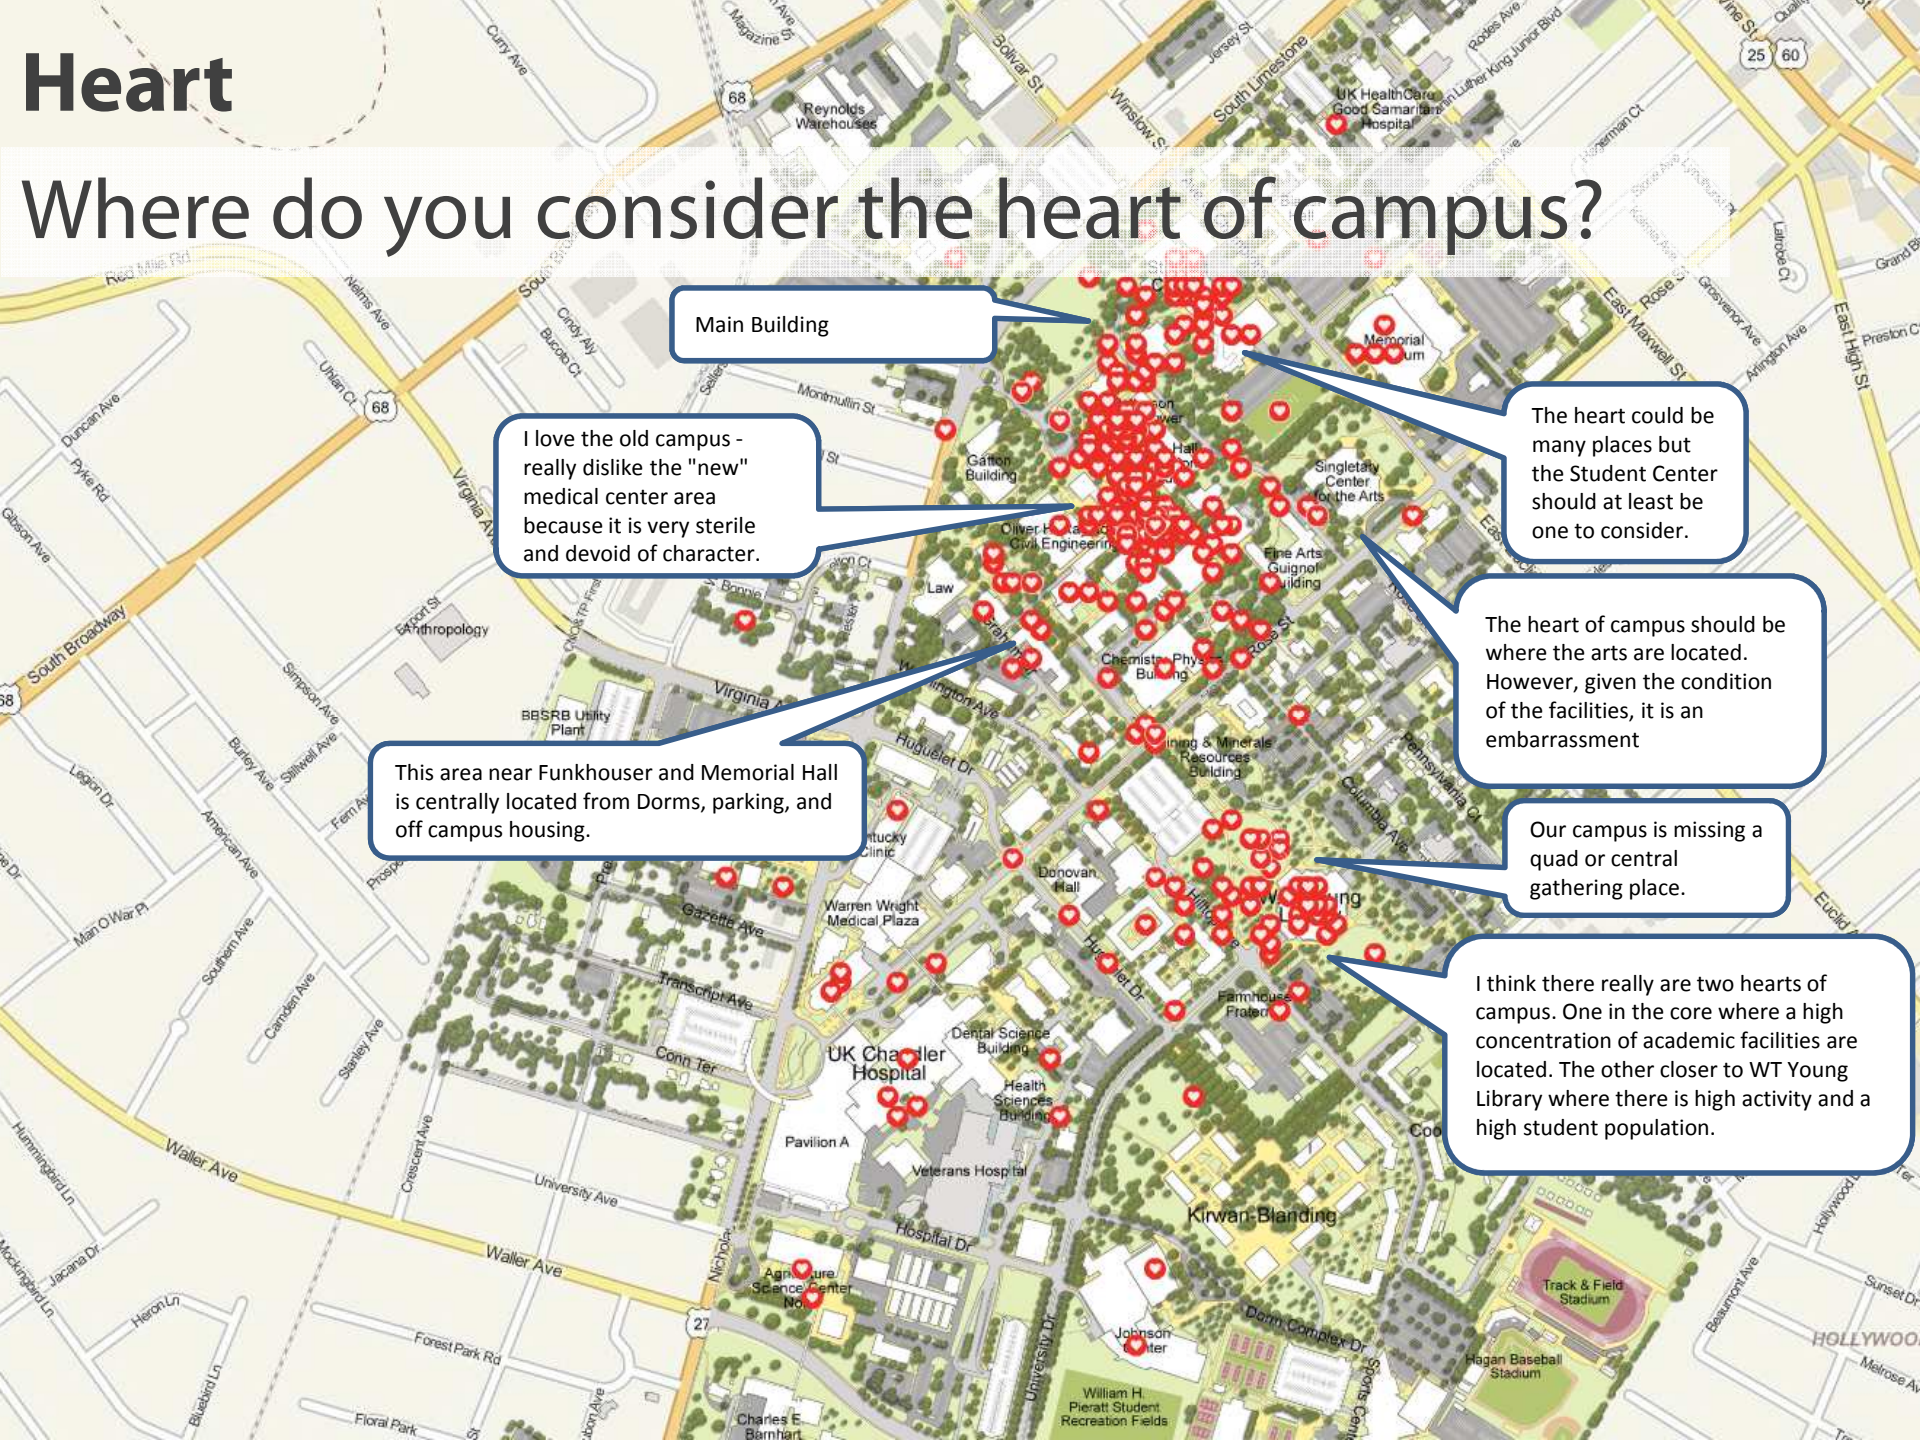

UK Observatory

WT Young Library

Thank goodness for the UK Arboretum - truly a landmark for both citizens and students in our city.

Heart

Where do you consider the heart of campus?

Main Building

I love the old campus - really dislike the "new" medical center area because it is very sterile and devoid of character.

The heart could be many places but the Student Center should at least be one to consider.

The heart of campus should be where the arts are located. However, given the condition of the facilities, it is an embarrassment

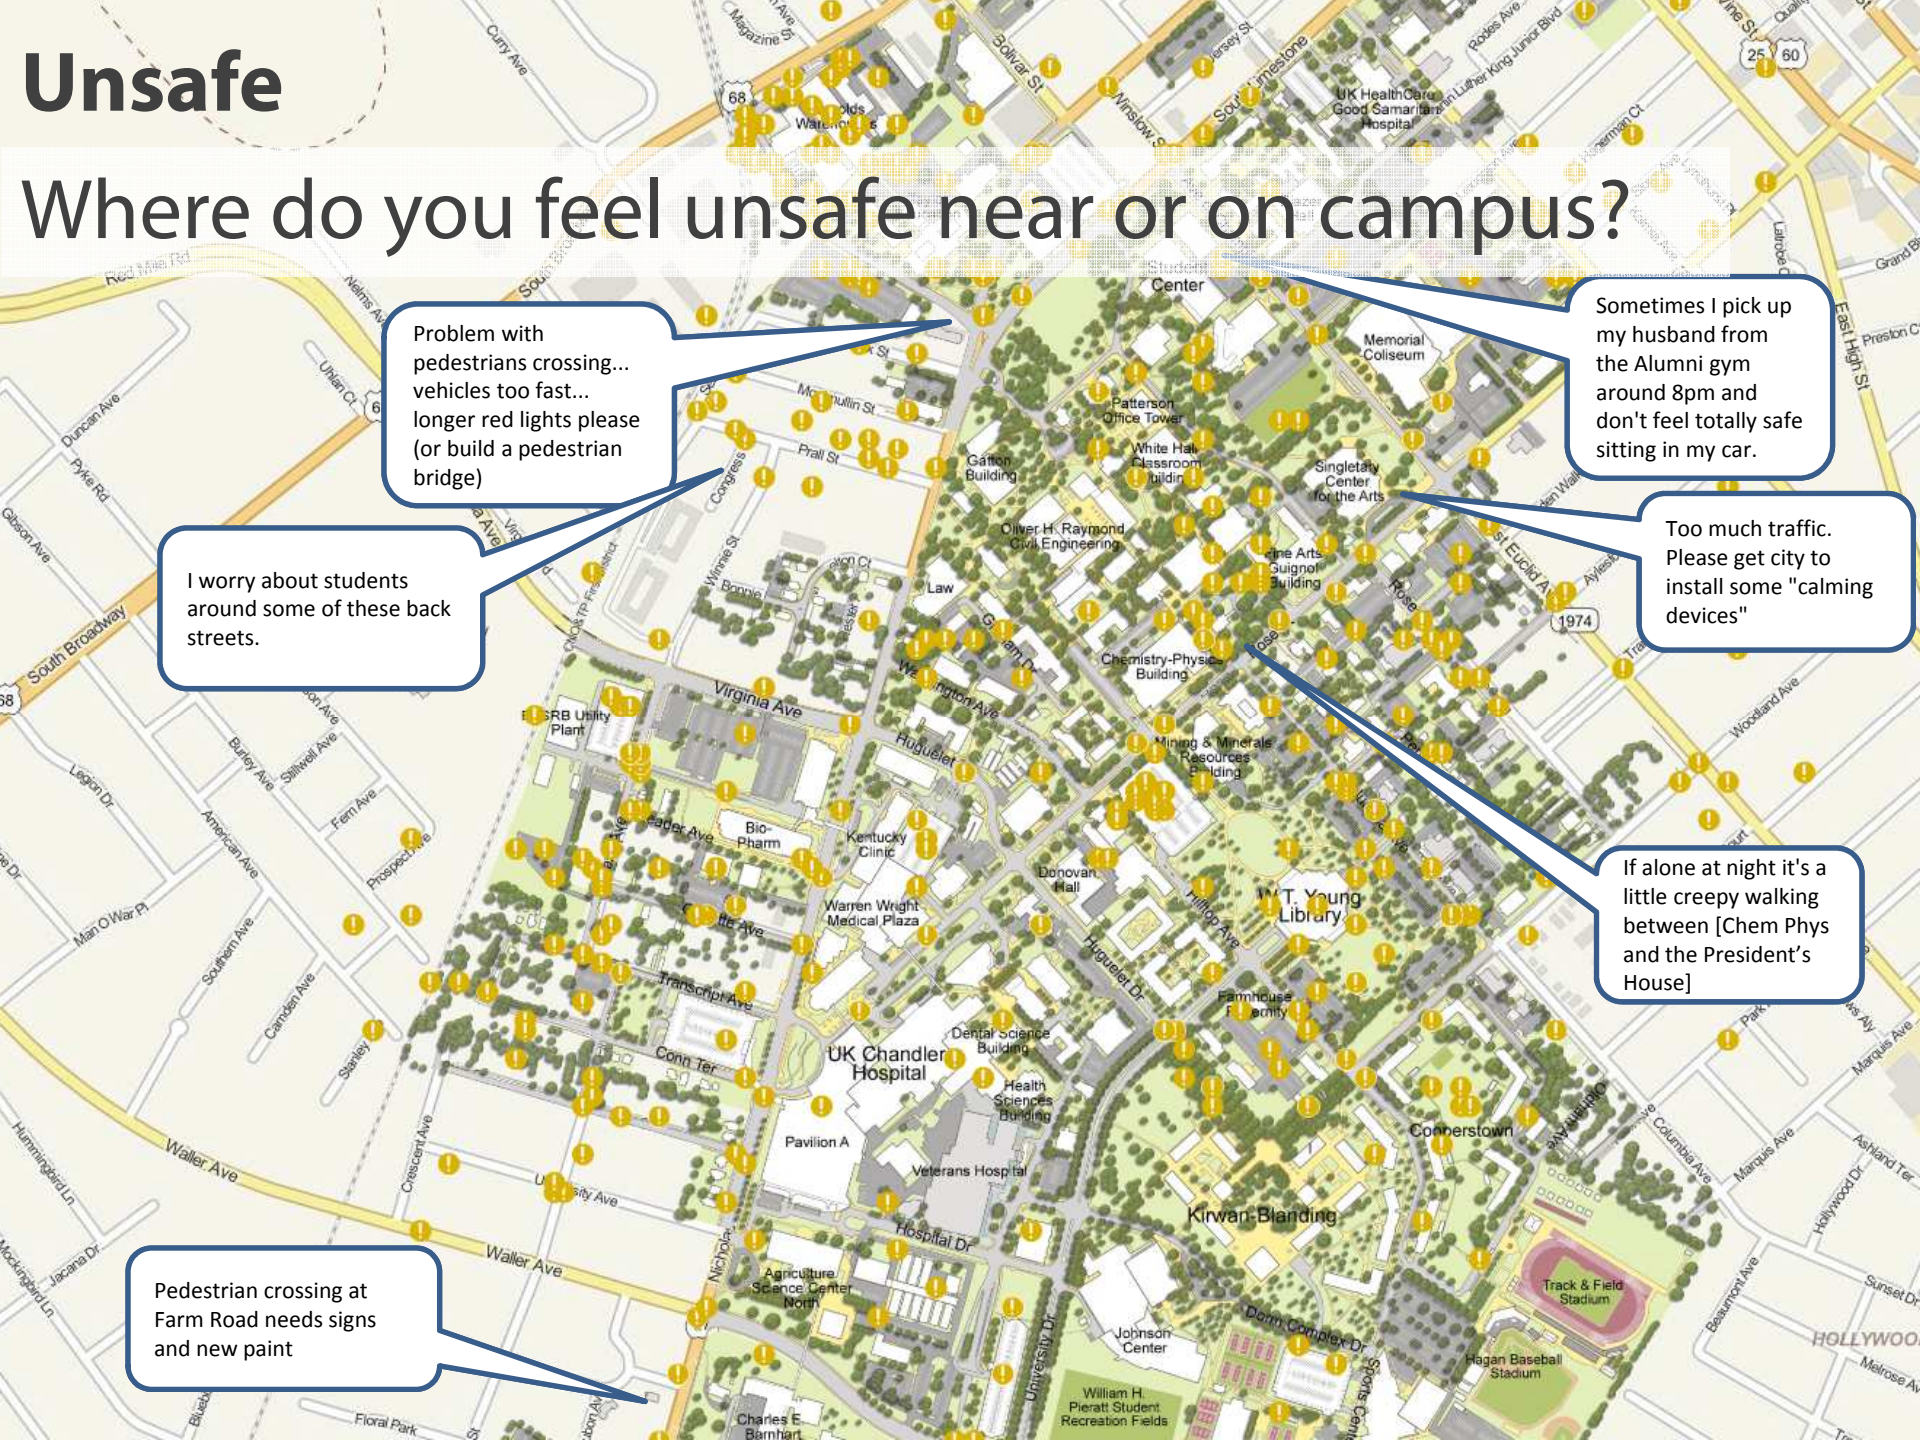

This area near Funkhouser and Memorial Hall is centrally located from Dorms, parking, and off campus housing.

Our campus is missing a quad or central gathering place.

I think there really are two hearts of campus. One in the core where a high concentration of academic facilities are located. The other closer to WT Young Library where there is high activity and a high student population.

Unsafe

Where do you feel unsafe near or on campus?

Problem with pedestrians crossing... vehicles too fast... longer red lights please (or build a pedestrian bridge)

I worry about students around some of these back streets.

Sometimes I pick up my husband from the Alumni gym around 8pm and don't feel totally safe sitting in my car.

Too much traffic. Please get city to install some "calming devices"

If alone at night it's a little creepy walking between [Chem Phys and the President's House]

Pedestrian crossing at Farm Road needs signs and new paint

Parking

Where do you typically park?

Private lot.

This is a very popular lot that has now been taken away

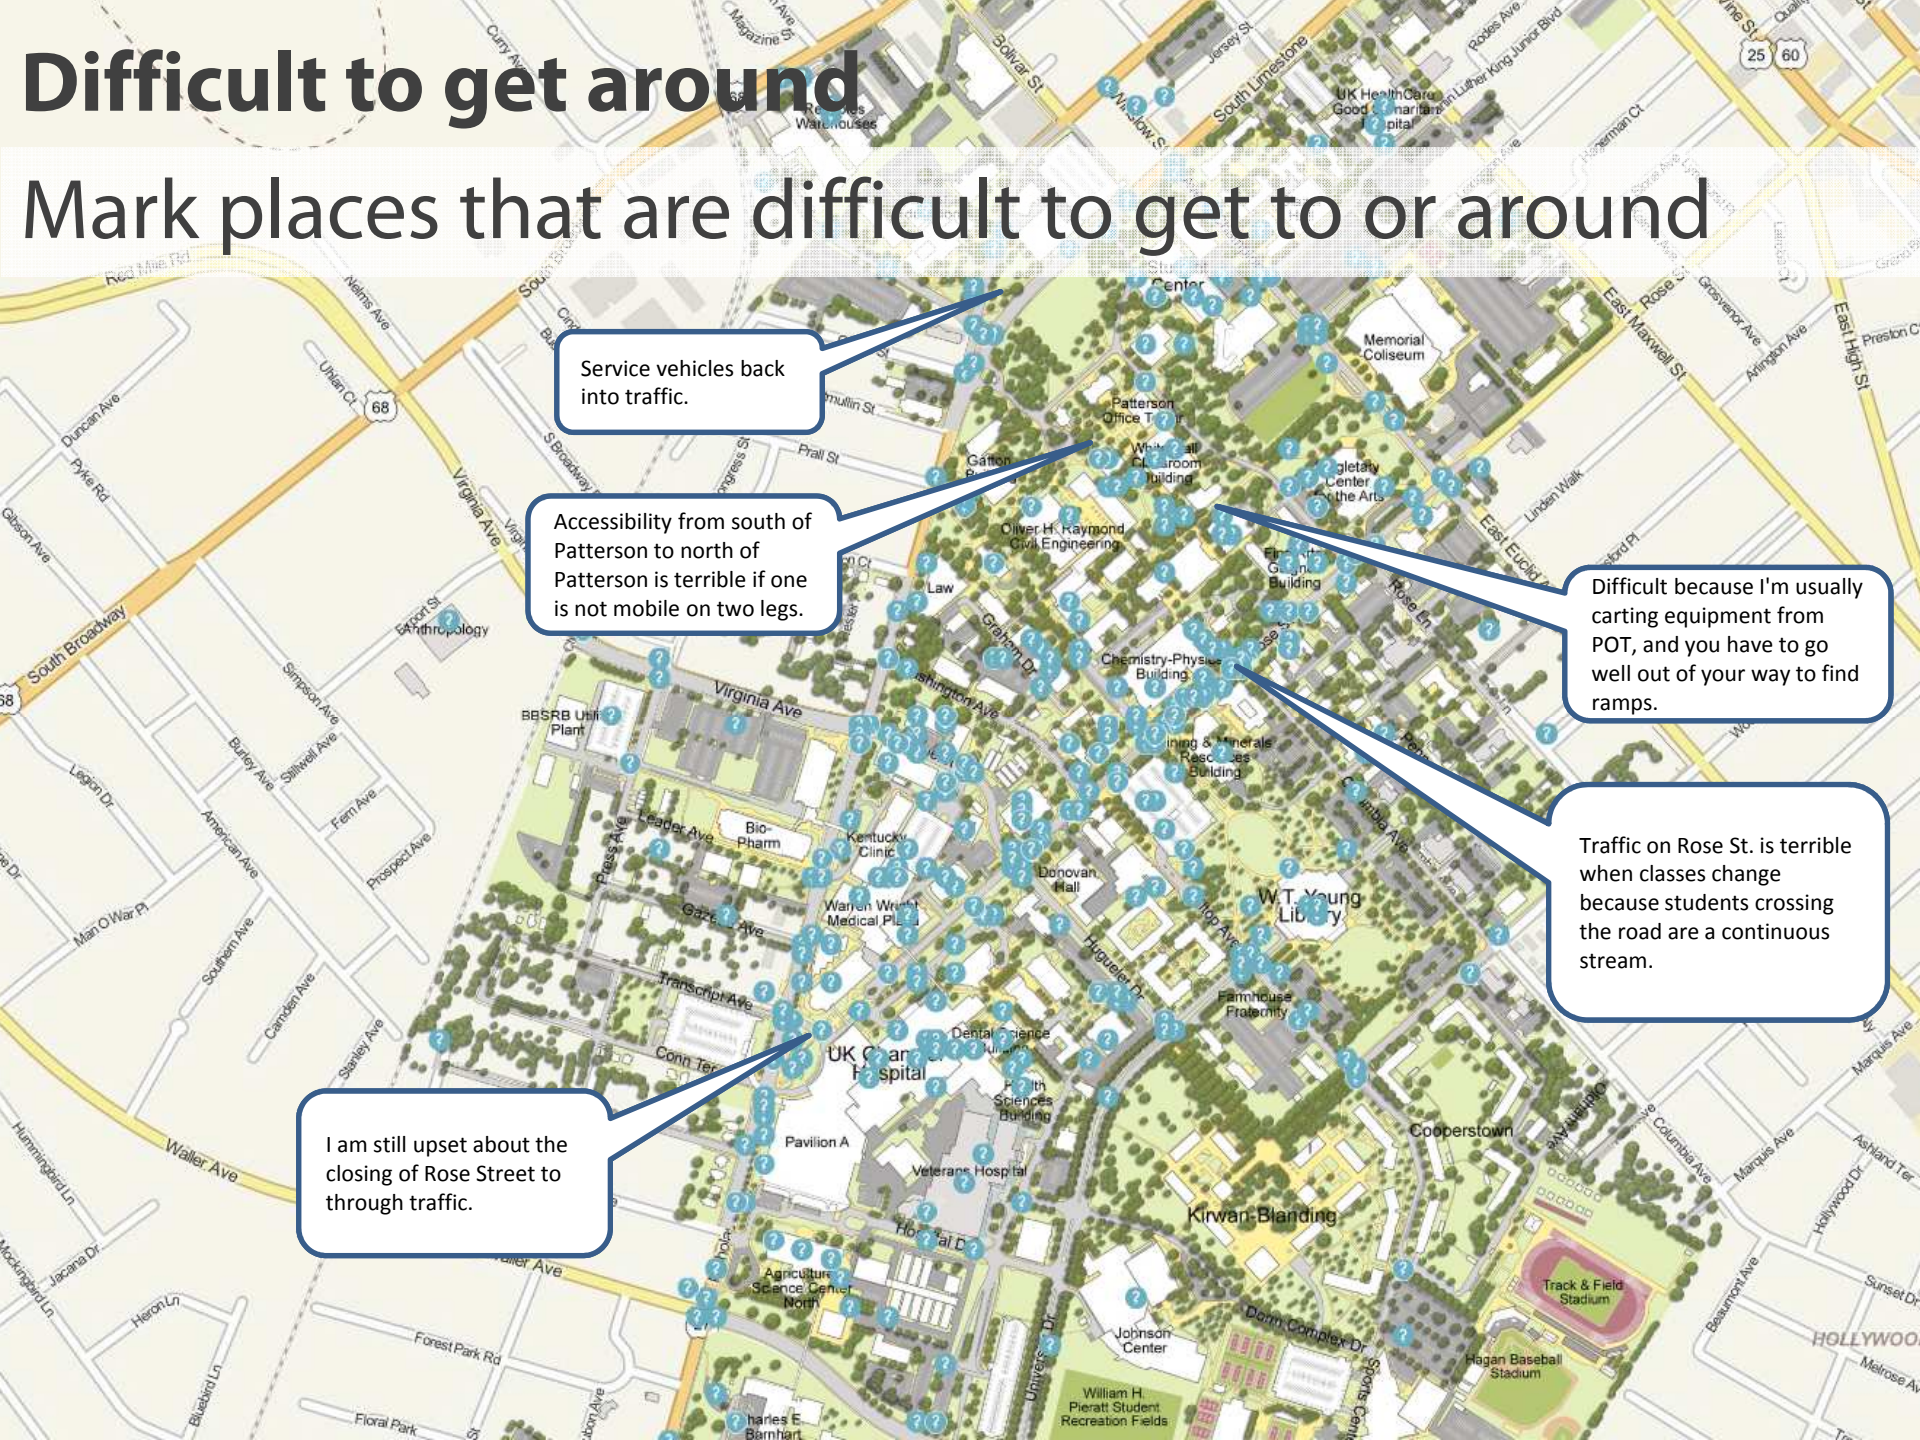

I bought my house at this location because of the parking and traffic congestion on campus. It wasn't worth the struggle.

Occasionally park here to load and unload materials for workshops, meetings, etc.

I would like to see one of these parking lots which surround the library be "library use only" as many of the employees parking in these lots are hospital employees.

Difficult to get around

Mark places that are difficult to get to or around

Service vehicles back into traffic.

Accessibility from south of Patterson to north of Patterson is terrible if one is not mobile on two legs.

Difficult because I'm usually carting equipment from POT, and you have to go well out of your way to find ramps.

Traffic on Rose St. is terrible when classes change because students crossing the road are a continuous stream.

I am still upset about the closing of Rose Street to through traffic.

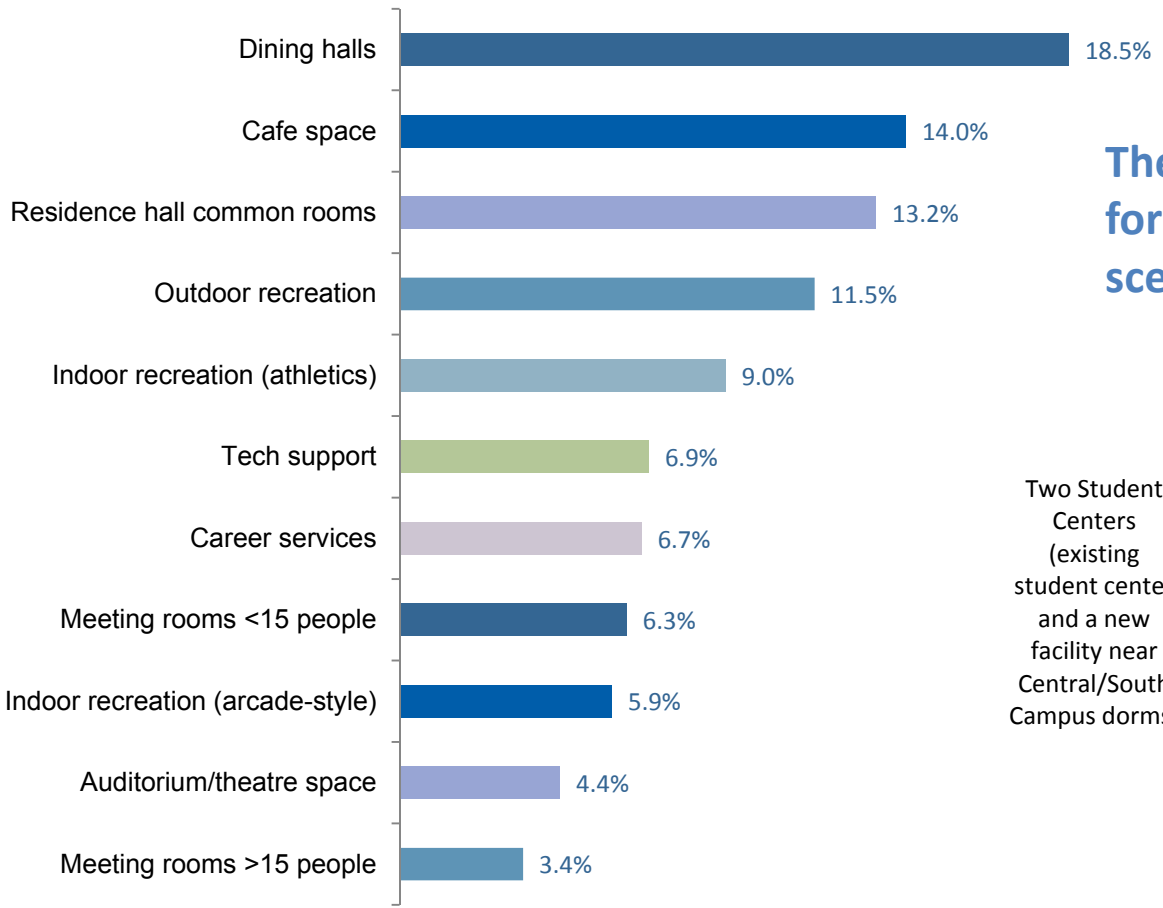

MyCampus Survey

Student Survey Comments

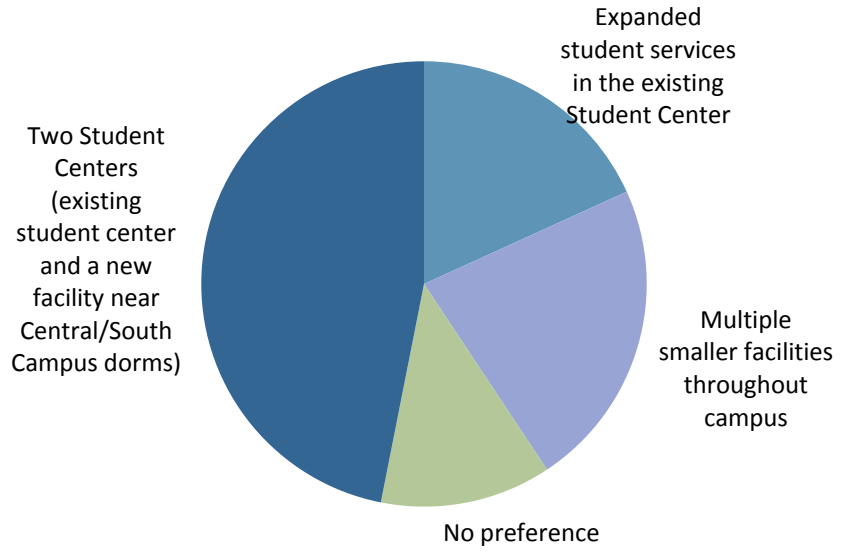

- There is not a single clear campus heart
- WT Young Library and the Johnson Center are well-loved campus life centers for many students
- There is a desire for better connections between K-Lot and destinations on South Campus, especially for safety
- Improvements are needed in many dorms and academic buildings
- Dining and café space are top student life amenities that students want expanded
- North Campus and South Campus have different student life needs.
- The academic core lacks informal study and hangout spaces – ones in Whitehall and POT are in high demand
- UK athletics is an important piece of campus life for many students

MyCampus Survey

What student life amenities should be expanded?

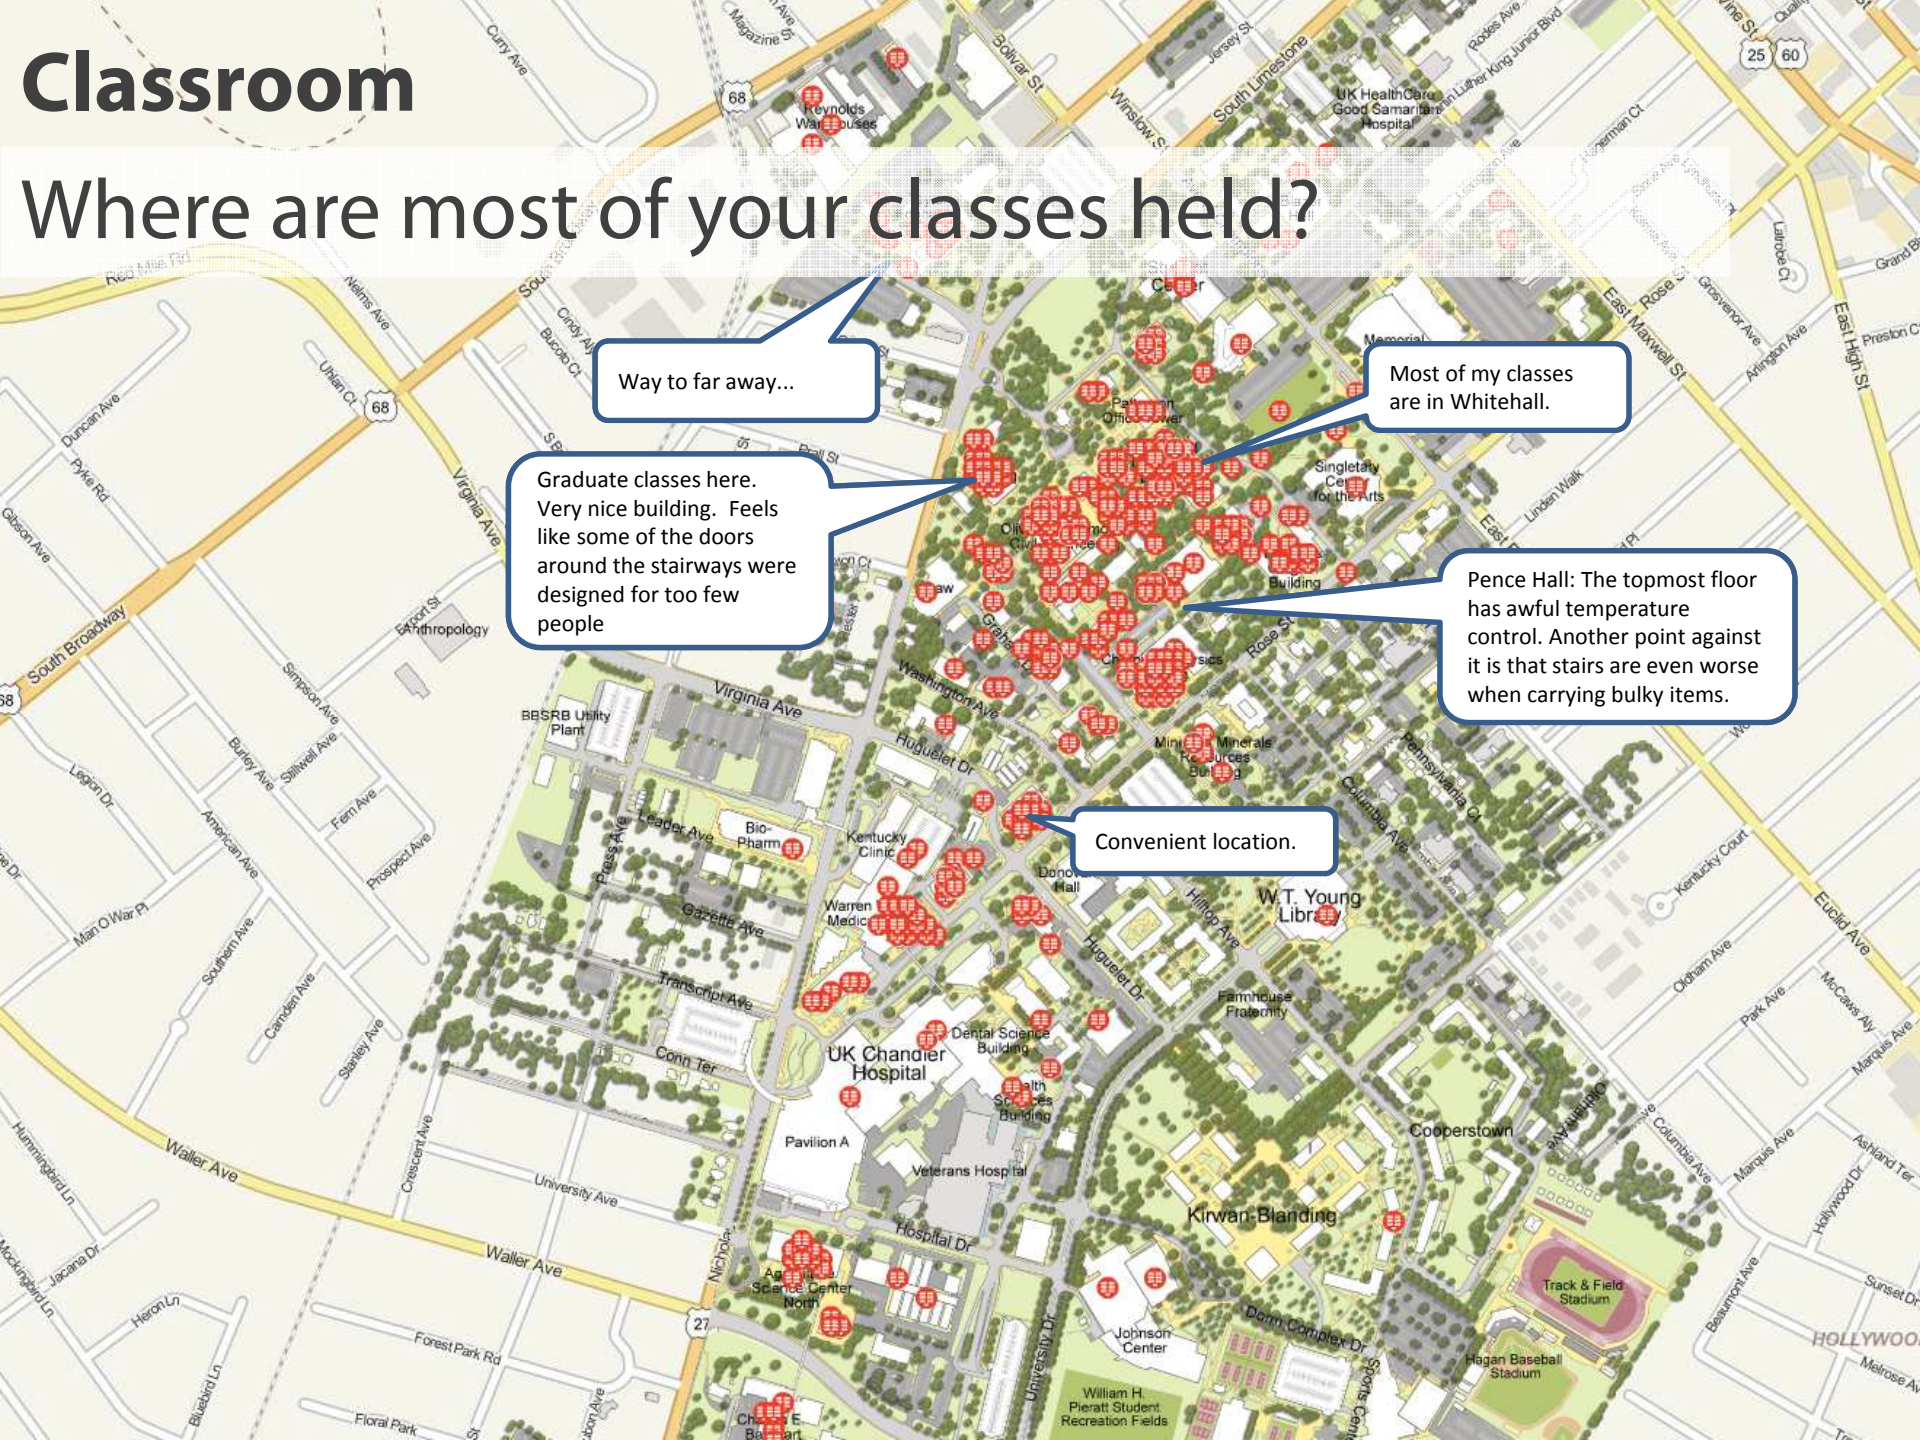

The master plan will include planning for student services. Which potential scenario would you prefer?

Classroom

Where are most of your classes held?

Way to far away...

Most of my classes are in Whitehall.

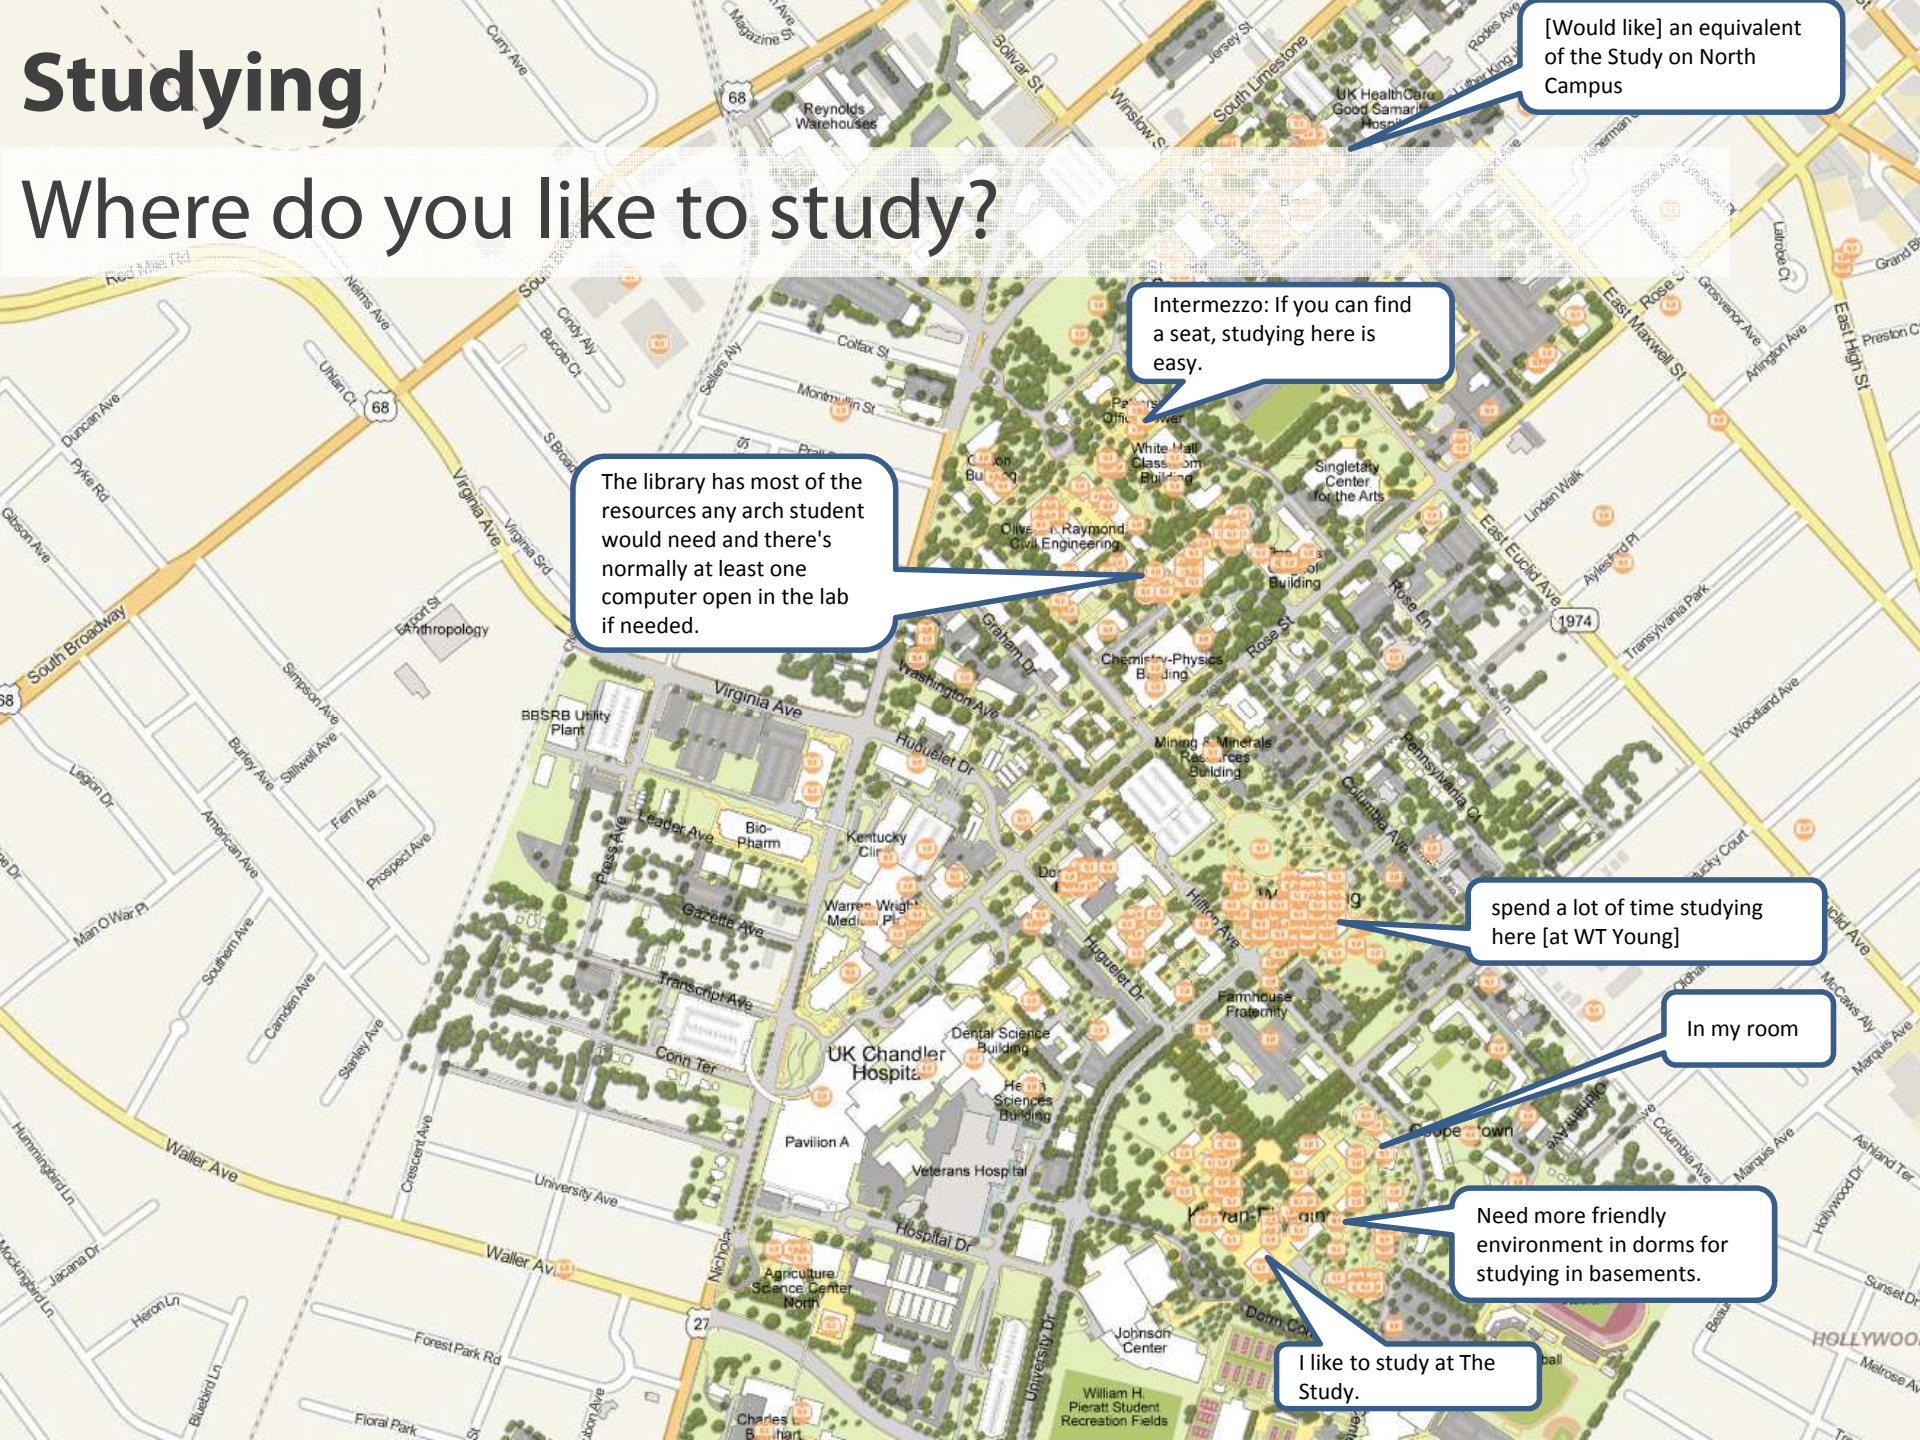

Graduate classes here. Very nice building. Feels like some of the doors around the stairways were designed for too few people

Pence Hall: The topmost floor has awful temperature control. Another point against it is that stairs are even worse when carrying bulky items.

Convenient location.

Studying

Where do you like to study?

[Would like] an equivalent of the Study on North Campus

Intermezzo: If you can find a seat, studying here is easy.

The library has most of the resources any arch student would need and there's normally at least one computer open in the lab if needed.

spend a lot of time studying here [at WT Young]

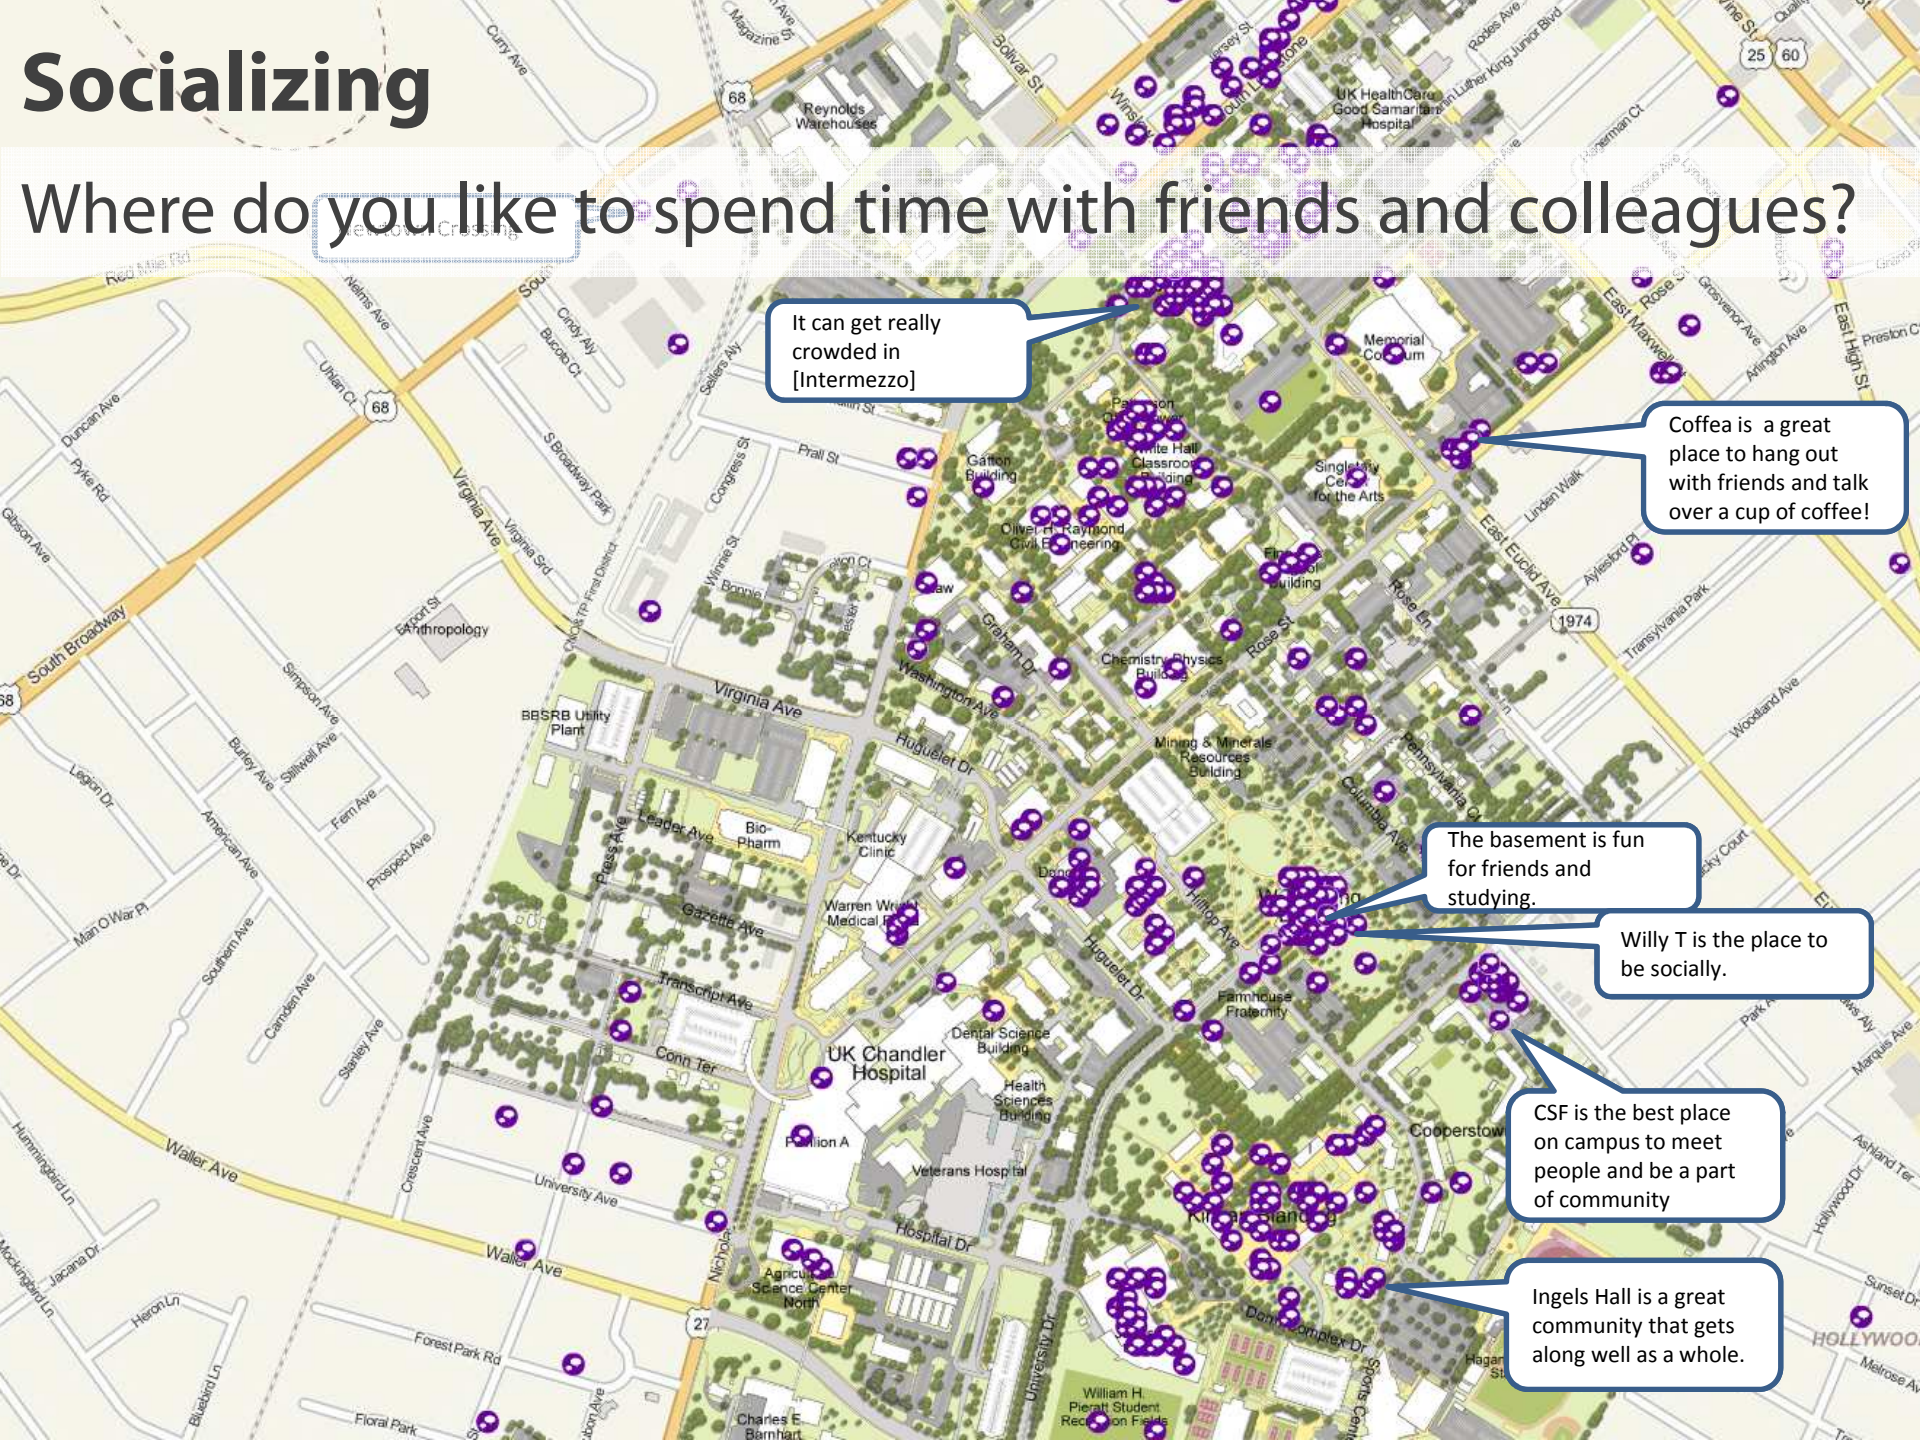

In my room

Need more friendly environment in dorms for studying in basements.

I like to study at The Study.

Socializing

Where do you like to spend time with friends and colleagues?

It can get really crowded in [Intermezzo]

Coffea is a great place to hang out with friends and talk over a cup of coffee!

The basement is fun for friends and studying.

Willy T is the place to be socially.

CSF is the best place on campus to meet people and be a part of community

Ingels Hall is a great community that gets along well as a whole.

Dining

Where do you like to eat?

Sav's!

Blazer!

Chick Fil A and Panda Express.

really good chili at blue chips cafe.

I enjoy the Blanding Burger and the Maxwell Frisco Melt every week

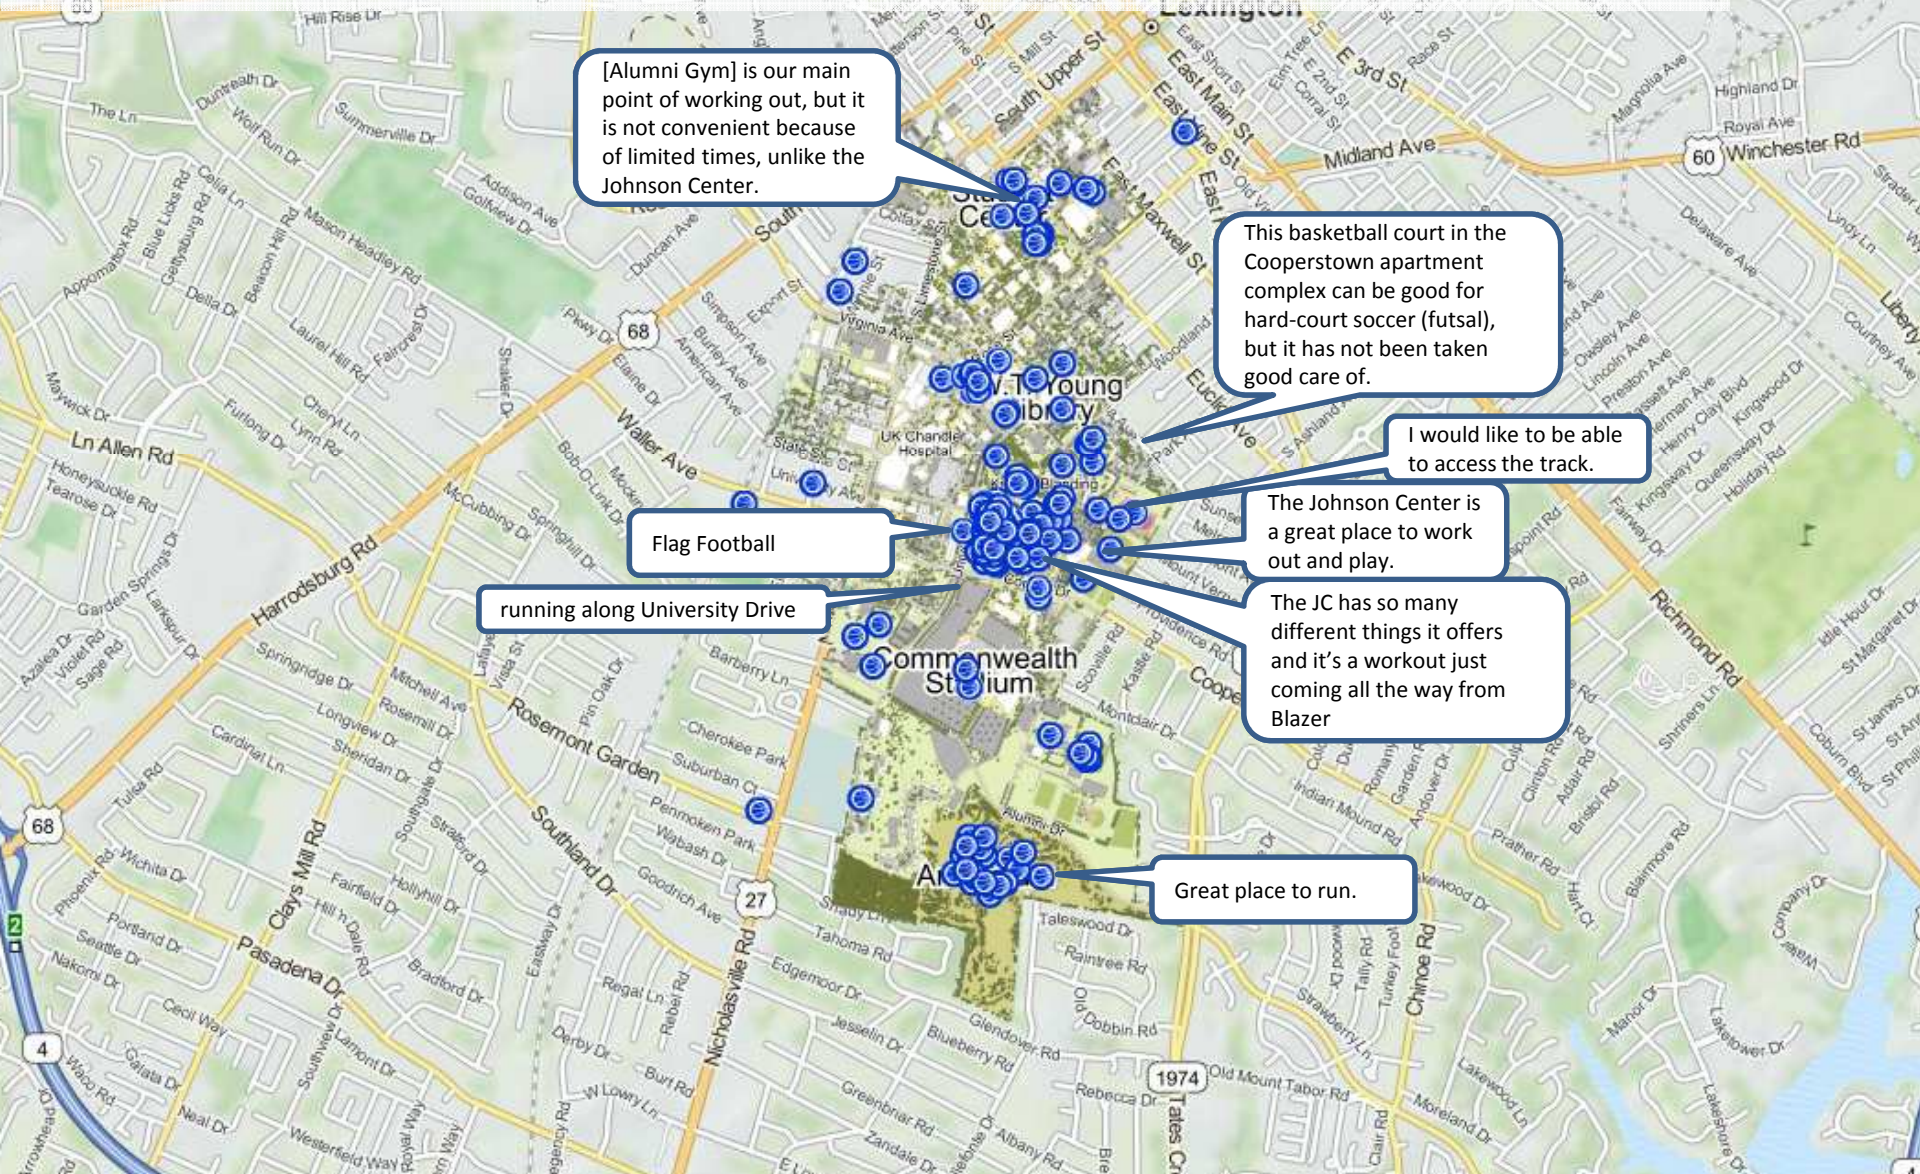

ovids is da bomb

I either eat in the cafeteria in the hospital or I bring food from home because there are not good food places around my lab (animal pathology building)

a very long walk if you aren't on south campus. but the food selection is very good

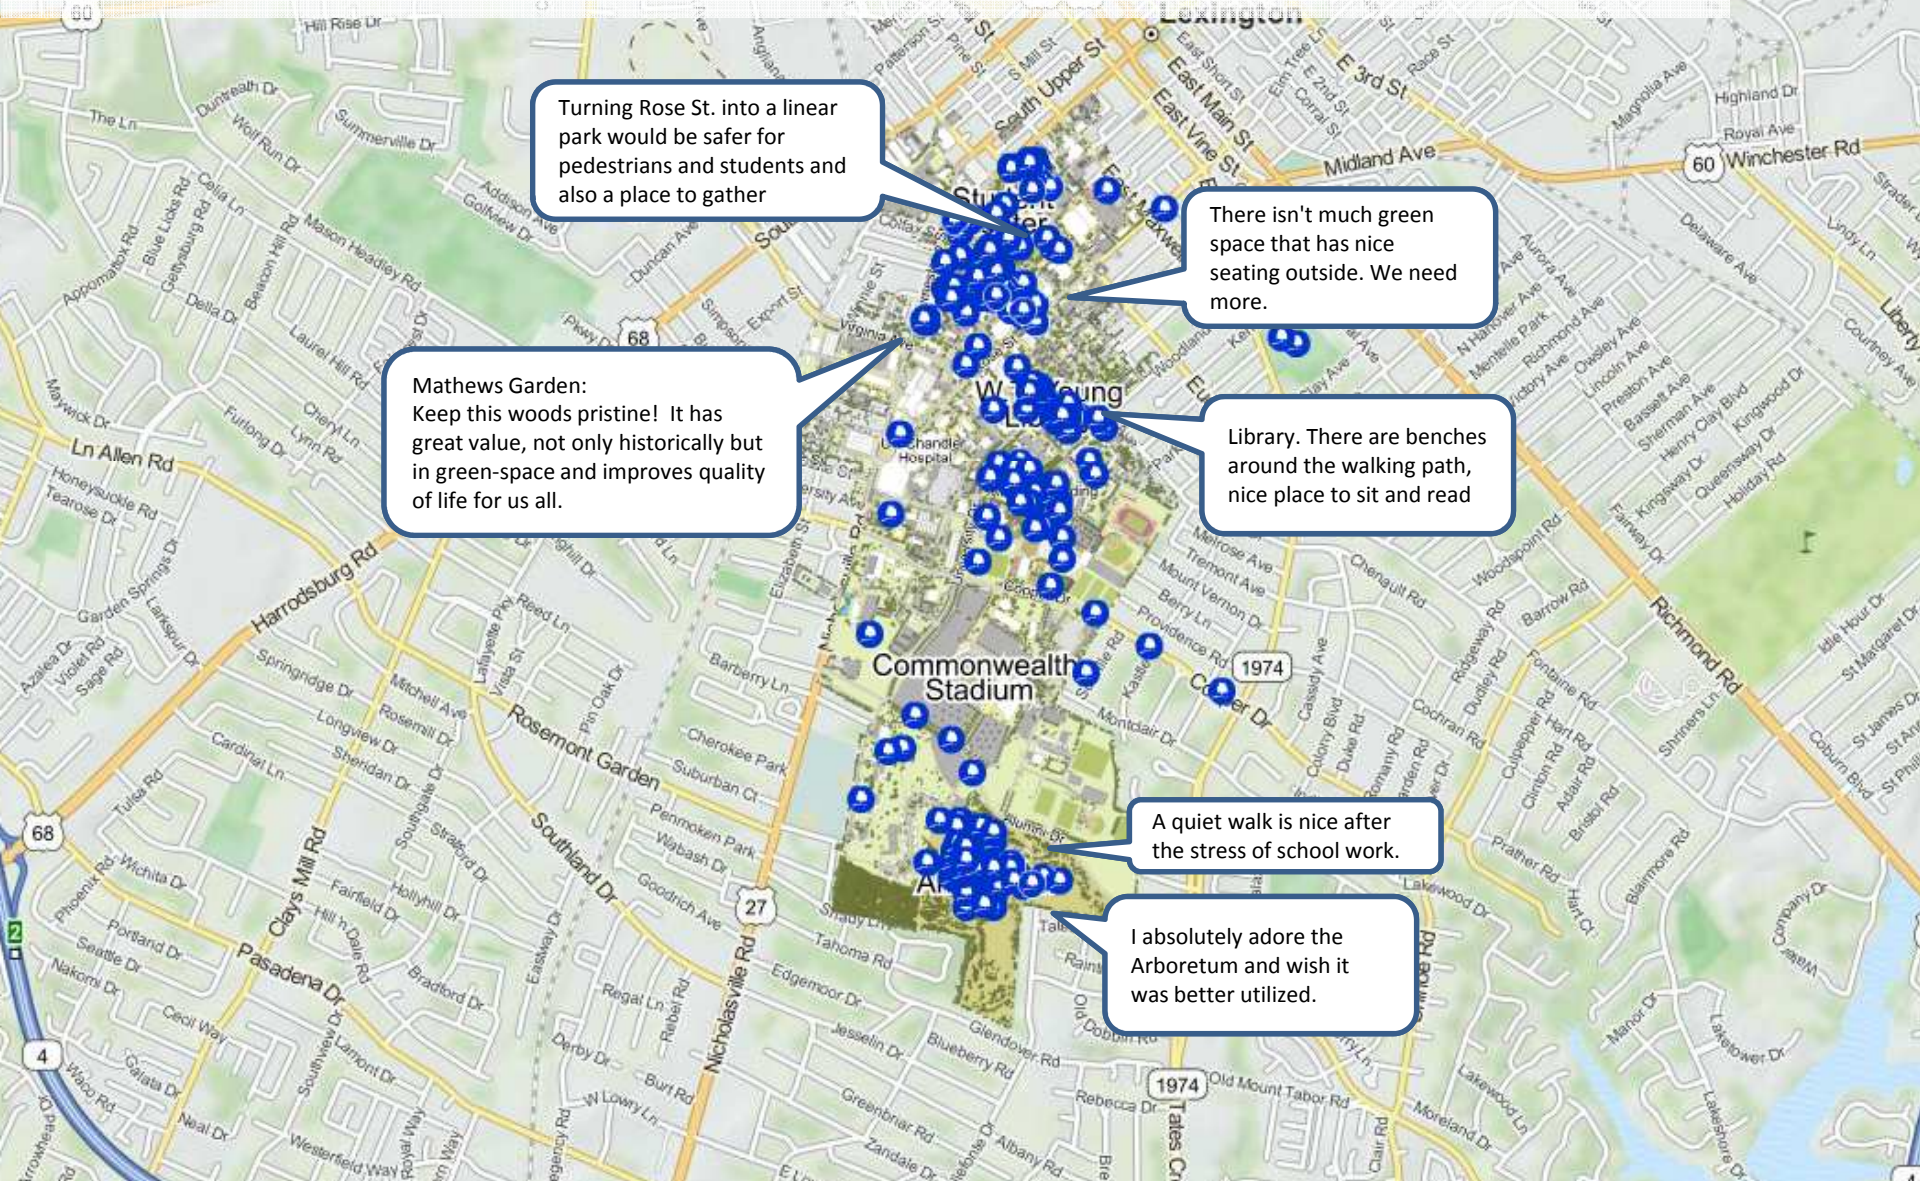

Recreation

Where do you like to play sports or exercise ?

Outdoor

Where do you like to read or relax outdoors?

Turning Rose St. into a linear park would be safer for pedestrians and students and also a place to gather

There isn't much green space that has nice seating outside. We need more.

Mathews Garden: Keep this woods pristine! It has great value, not only historically but in green-space and improves quality of life for us all.

Library. There are benches around the walking path, nice place to sit and read

A quiet walk is nice after the stress of school work.

I absolutely adore the Arboretum and wish it was better utilized.

Outdoor

Where do you like to read or relax outdoors?

Roselle's Kitchen, Courtyard

Something needs to be done with this lawn. It is just a vast space. Turn it into a park, provide benches to sit on, etc.

It's calm and nice here, though there seems to be some sort of emergency vehicle going by at least once per day

On our front porch is the only comfortable place on campus (outside of South Campus) to read and/or relax outdoors.

I hope this area does not get developed. There is something beautiful about a grassy field in an otherwise urban area

I love this pathway for the squirrels that live there.

Love coming to the Arboretum to relax and read.

Living

Where do you live?

Haggin: Poor. Needs renovation badly. Bathrooms are nasty. I have actually seen a cockroach or two.

Donovan Hall: I like the all girl aspect and feel that that should be available in the future somehow

I like Living in Donovan, but everything feels outdated and shabby

UK housing offers a great service. I am 99% satisfied. Only issue: Wifi is downsized

Wonderful place, very silent with warm and shiny apartment.

Shawneetown: Very noisy because of machine of Central Baptist Hospital ... By the way, beautiful environment.

Boyd's RAs and Hall Director are really nice. The laundry room sucks and the dryers make my clothing smell weird.

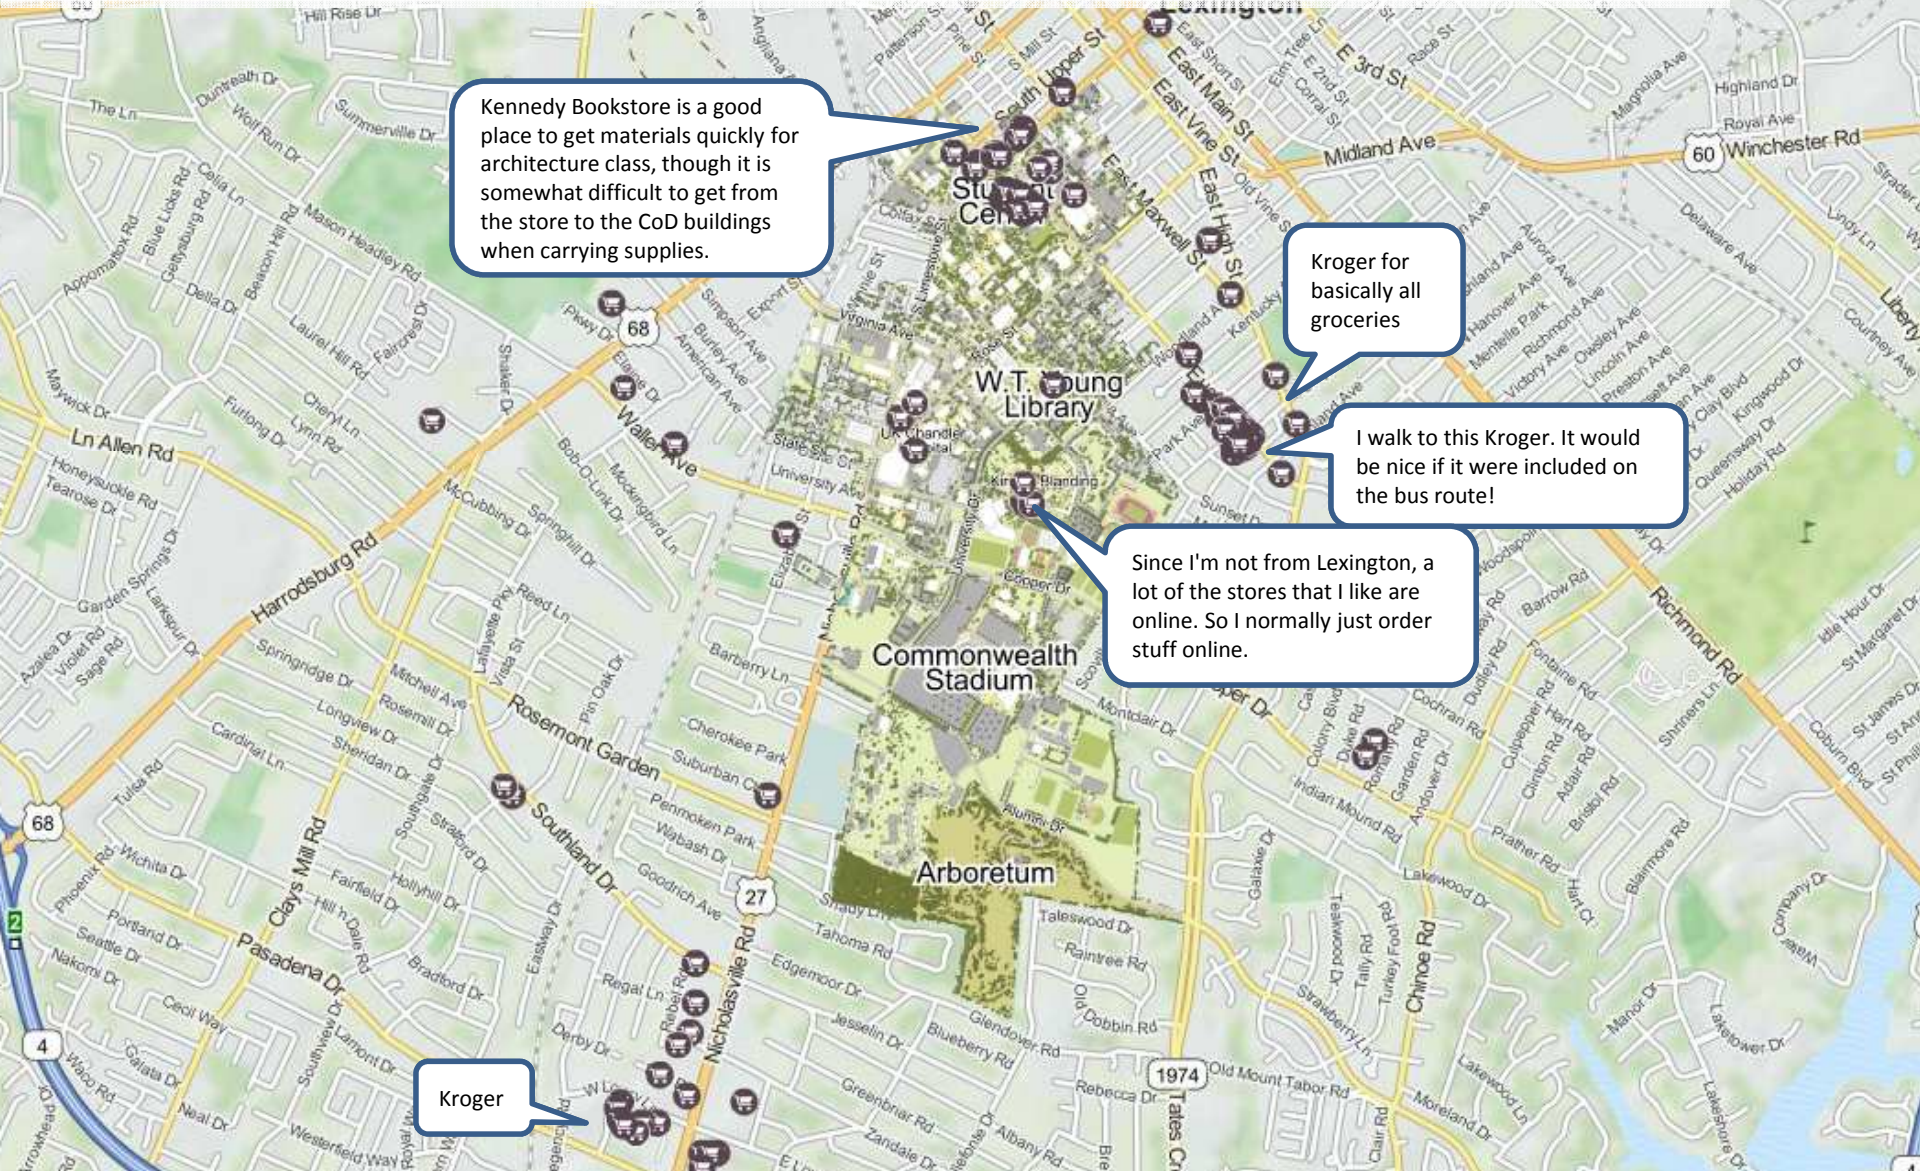

Heaters don't work in Cooperstown C

Blanding Tower: I like everything besides the elevators. The view is nice

Housing is too old. Needs to be upgraded.

Shopping

Where do you typically shop?

Kennedy Bookstore is a good place to get materials quickly for architecture class, though it is somewhat difficult to get from the store to the CoD buildings when carrying supplies.

Kroger for basically all groceries

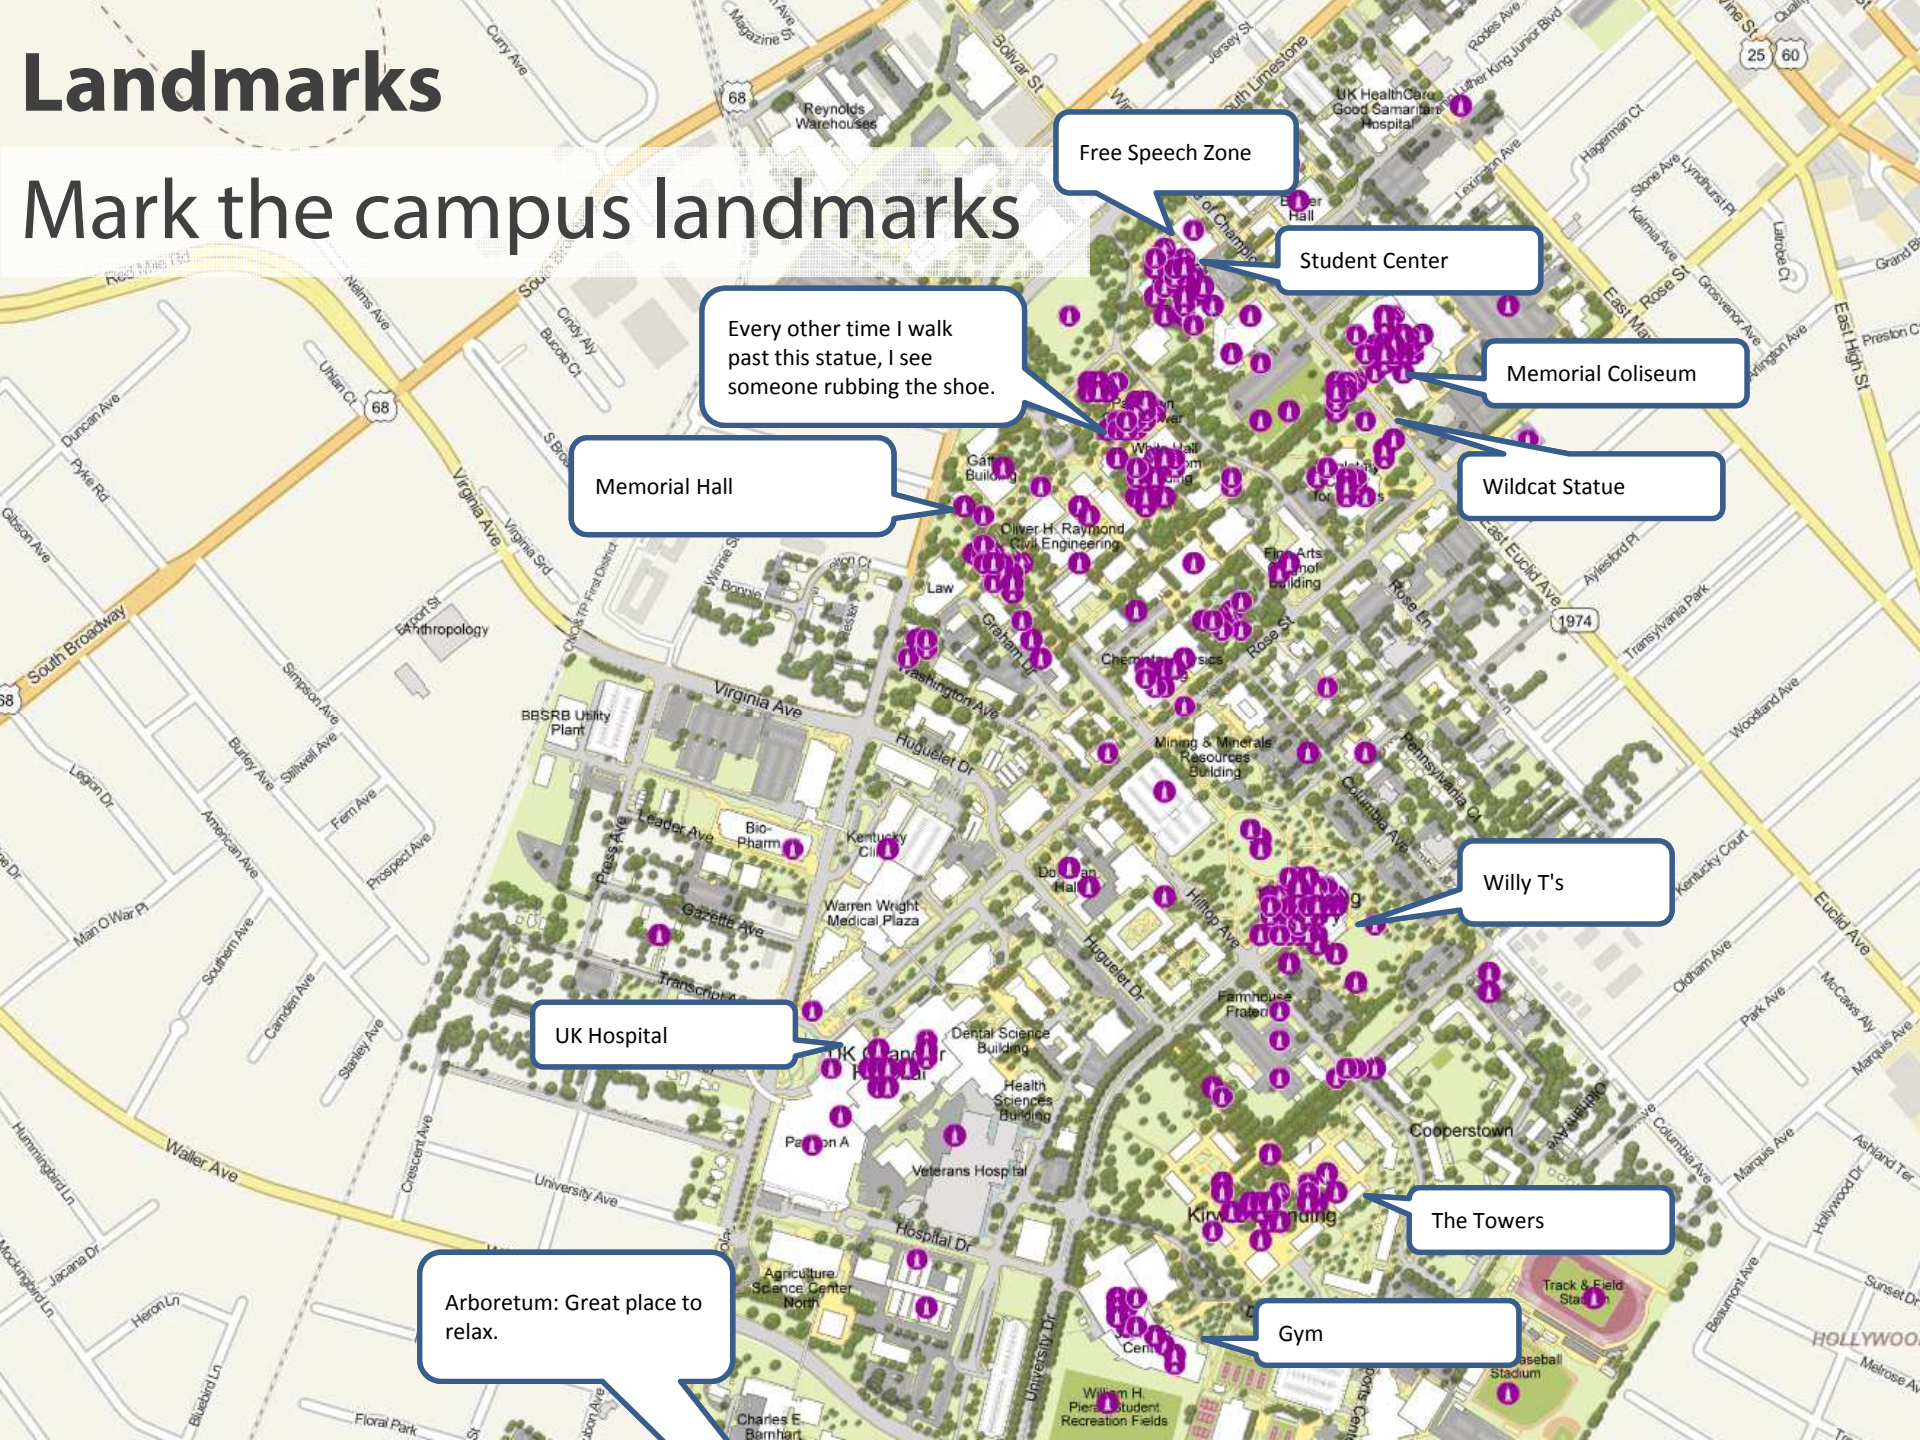

I walk to this Kroger. It would be nice if it were included on the bus route!

Since I'm not from Lexington, a lot of the stores that I like are online. So I normally just order stuff online.

Kroger

Landmarks

Mark the campus landmarks

Free Speech Zone

Student Center

Every other time I walk past this statue, I see someone rubbing the shoe.

Memorial Coliseum

Memorial Hall

Wildcat Statue

Willy T's

UK Hospital

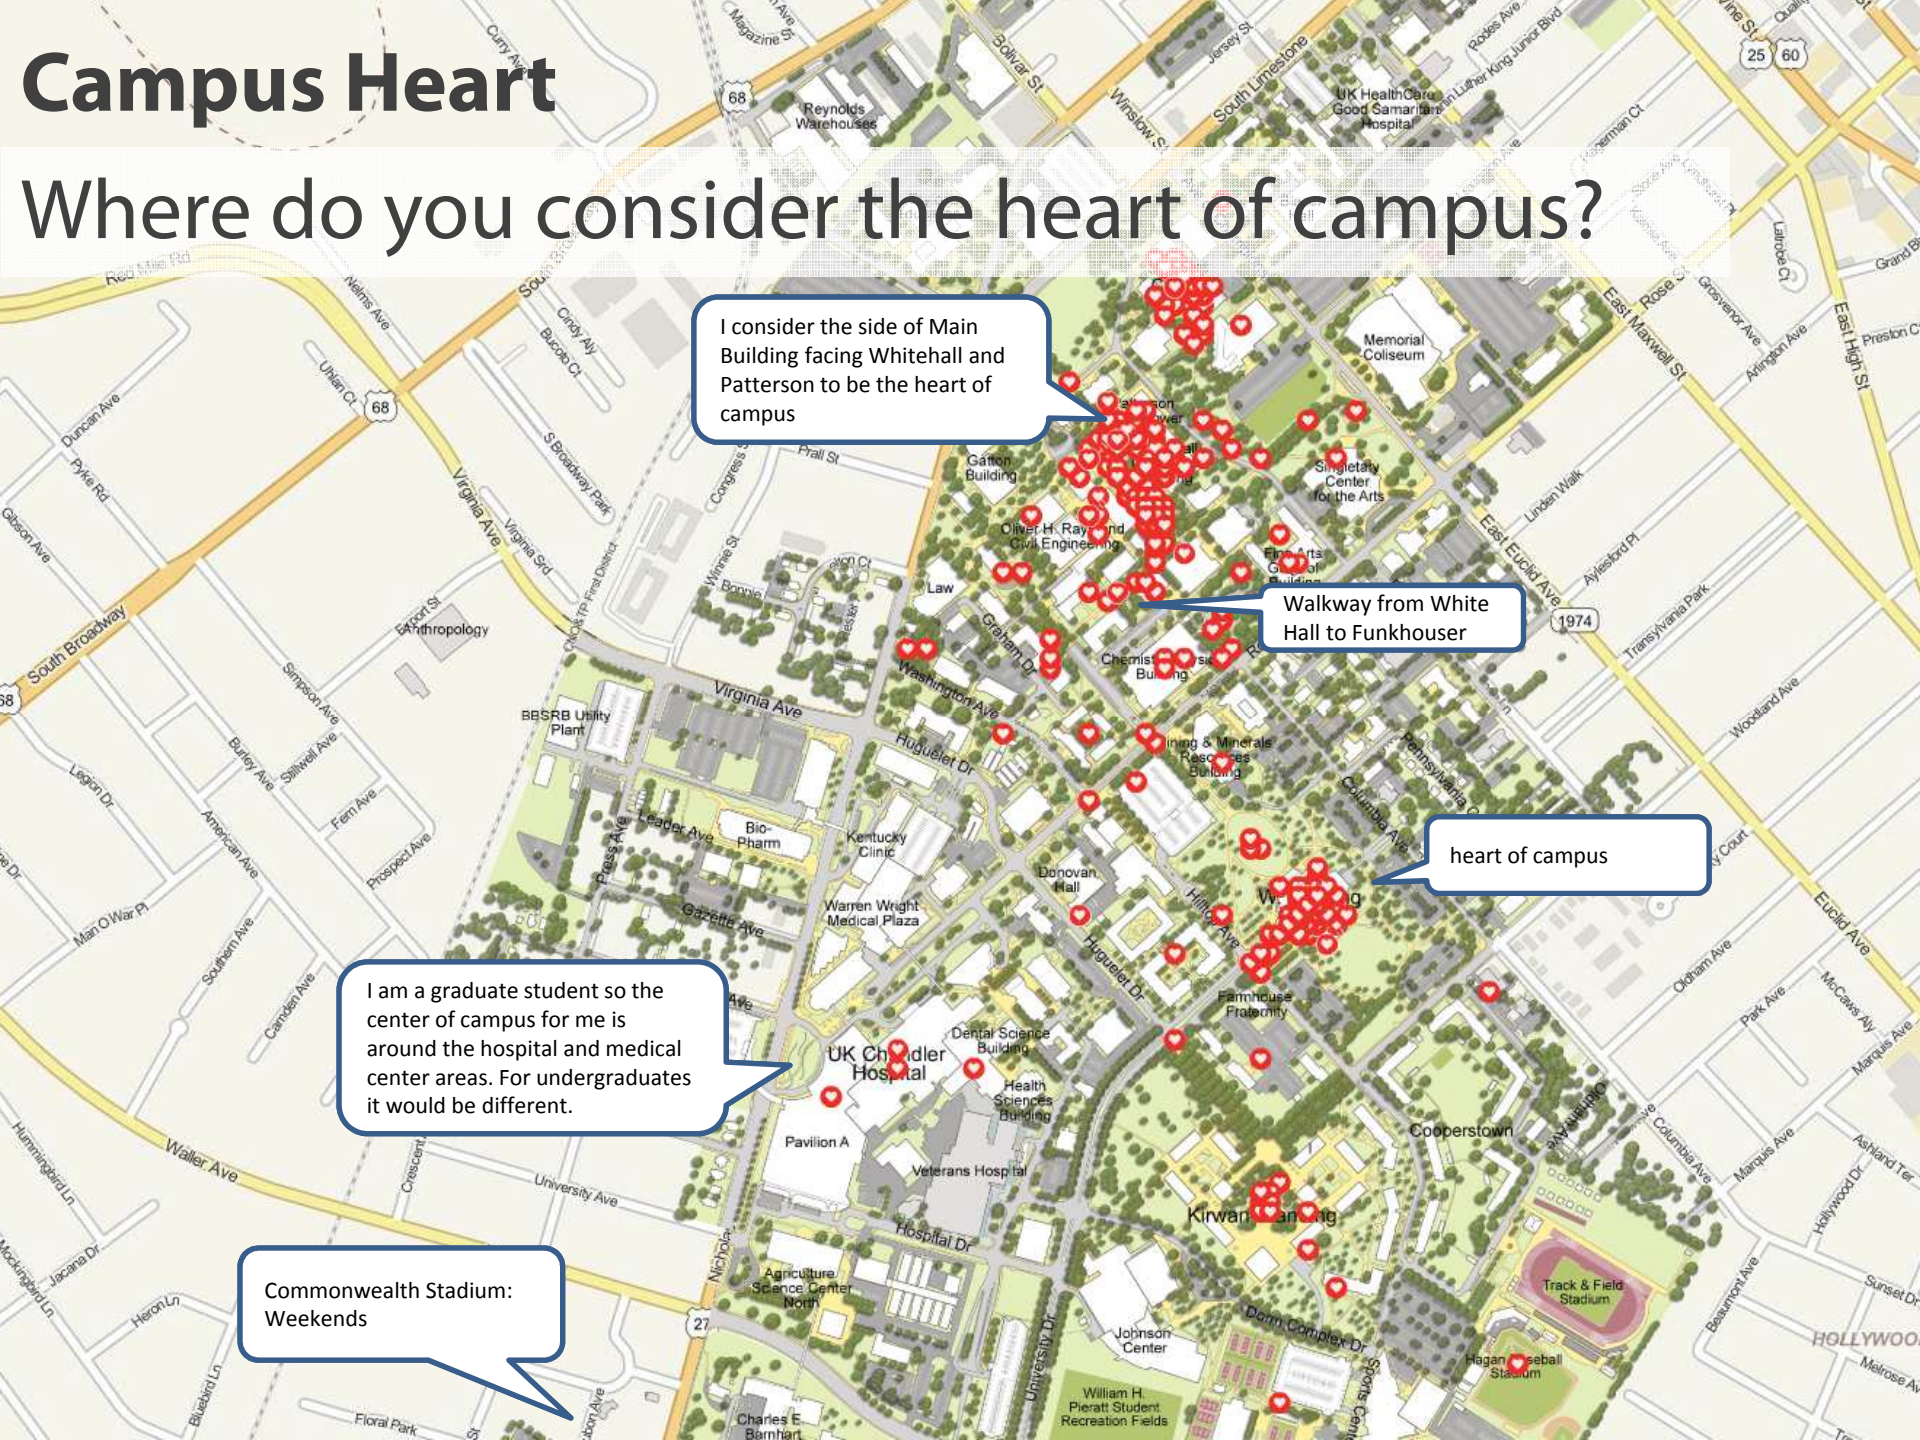

Arboretum: Great place to relax.

The Towers

Gym

Campus Heart

Where do you consider the heart of campus?

I consider the side of Main Building facing Whitehall and Patterson to be the heart of campus

Walkway from White Hall to Funkhouser

heart of campus

I am a graduate student so the center of campus for me is around the hospital and medical center areas. For undergraduates it would be different.

Commonwealth Stadium: Weekends

Unsafe

Where do you feel unsafe near or on campus?

The buildings need major renovation and the patrols and safety features are too inconsistent for students working and engaging in this area.

There is good lighting directly next to the library, but all of the paths you have to walk to get there are very dark.

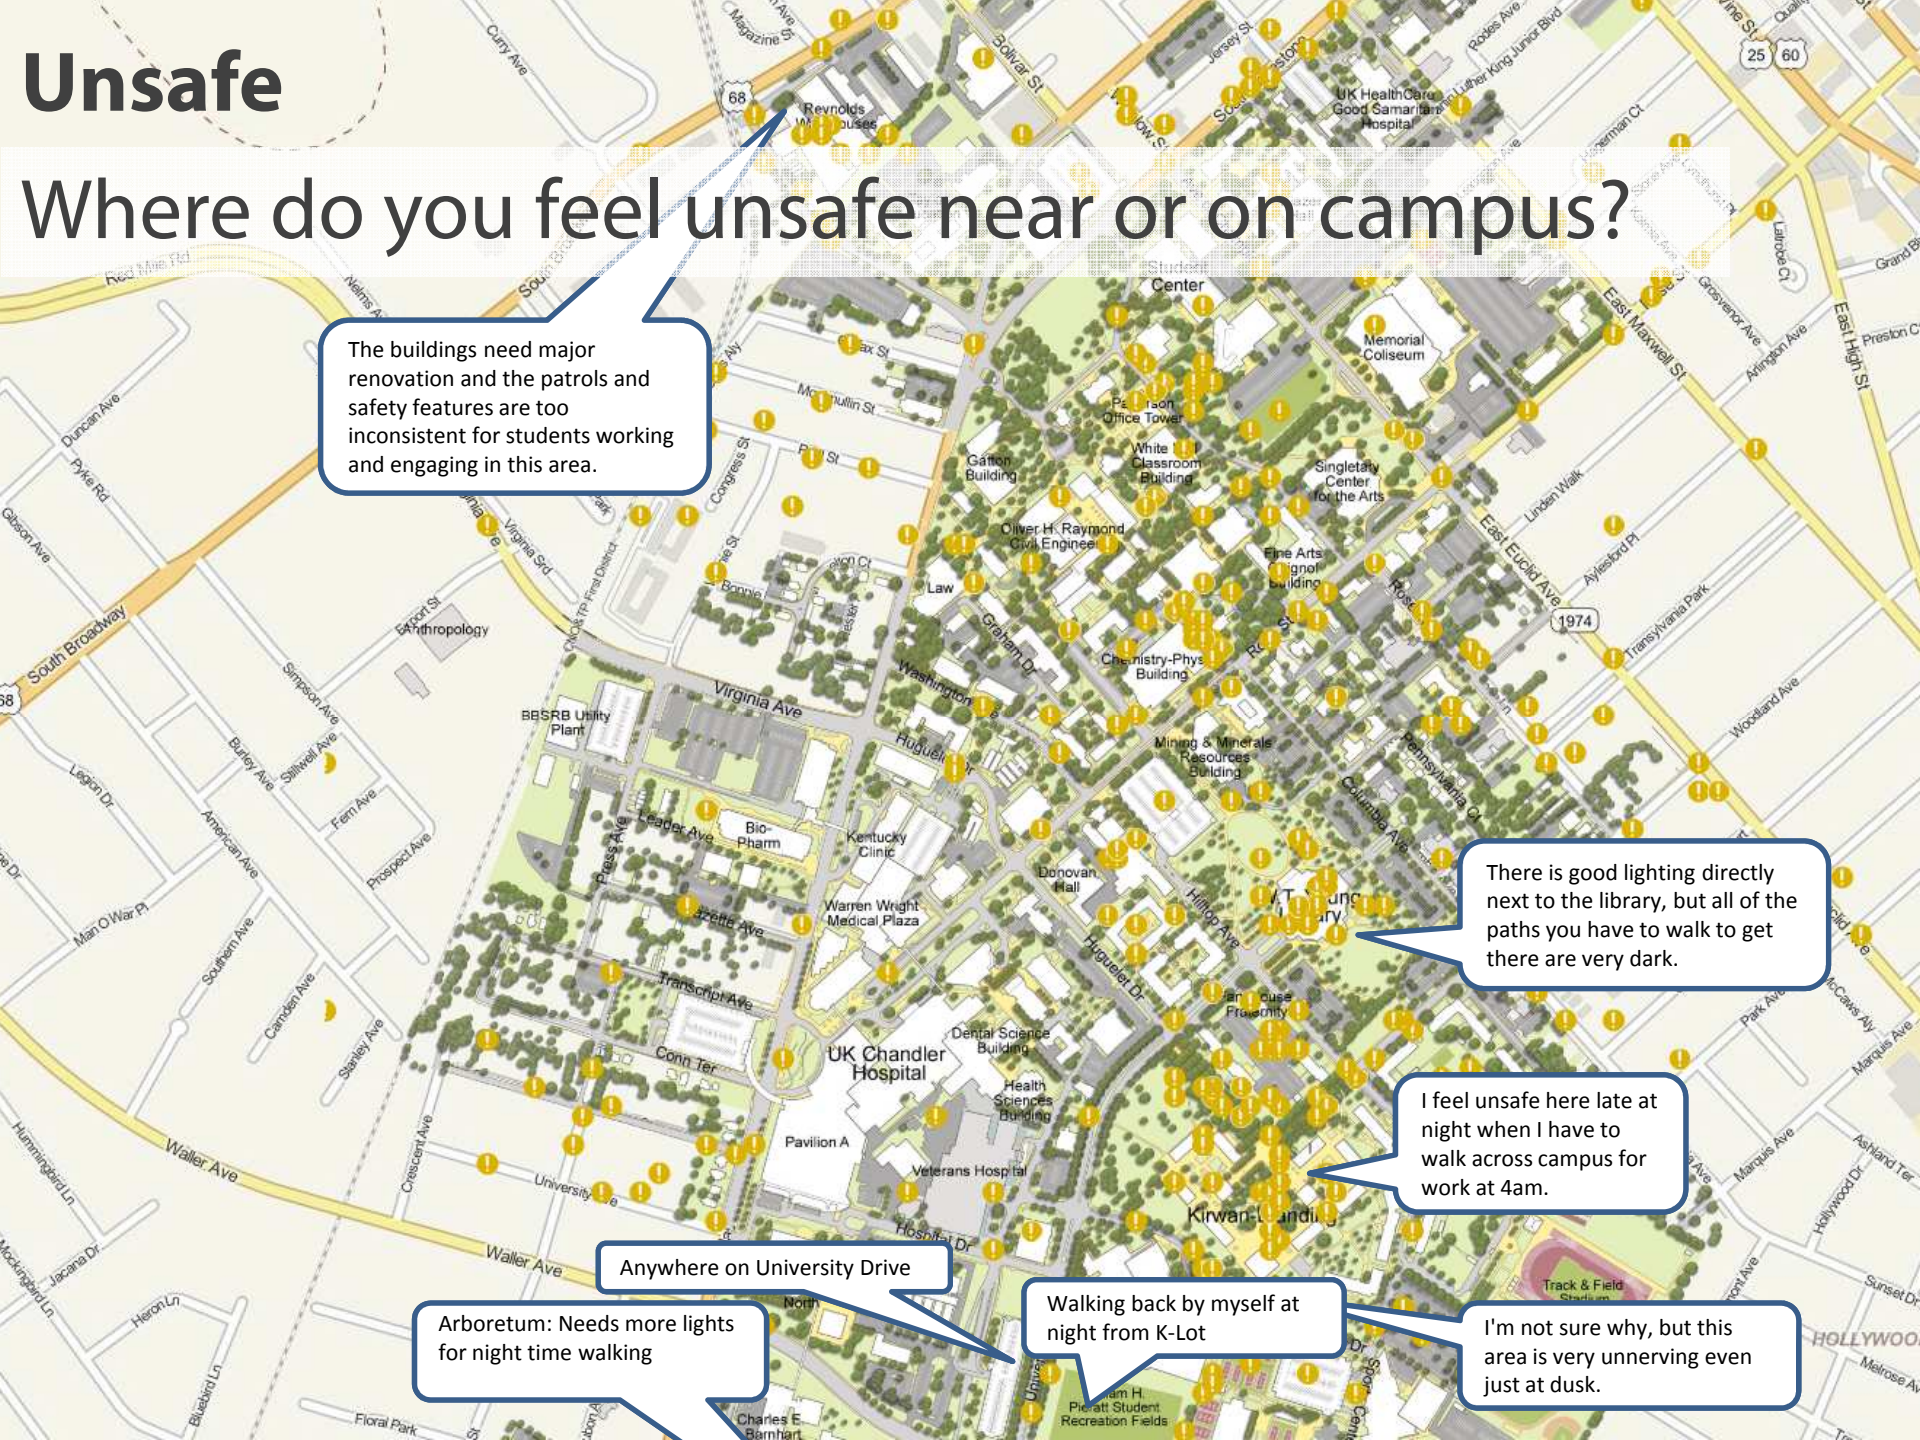

I feel unsafe here late at night when I have to walk across campus for work at 4am.

Anywhere on University Drive

Arboretum: Needs more lights for night time walking

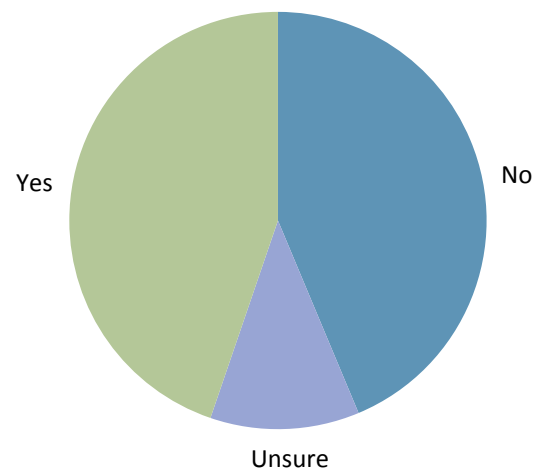

Walking back by myself at night from K-Lot

I'm not sure why, but this area is very unnerving even just at dusk.

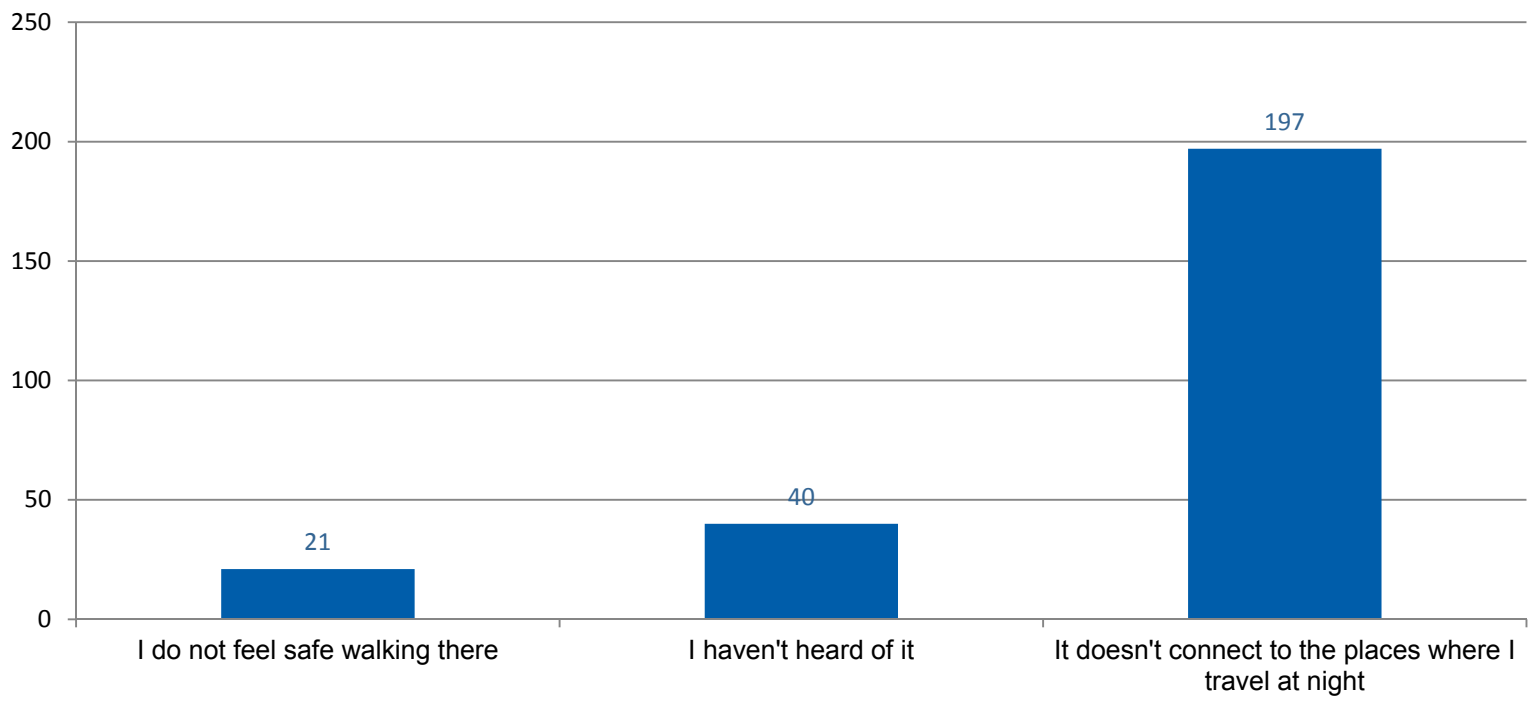

Cat's Path

When traveling at night, do you use the Cats Walk?

If not, why not?

Parking

Where do you typically park?

When I have late nights, I park here

Parked here until they decided to build a dorm. Now all R1 permit holders lost their parking.

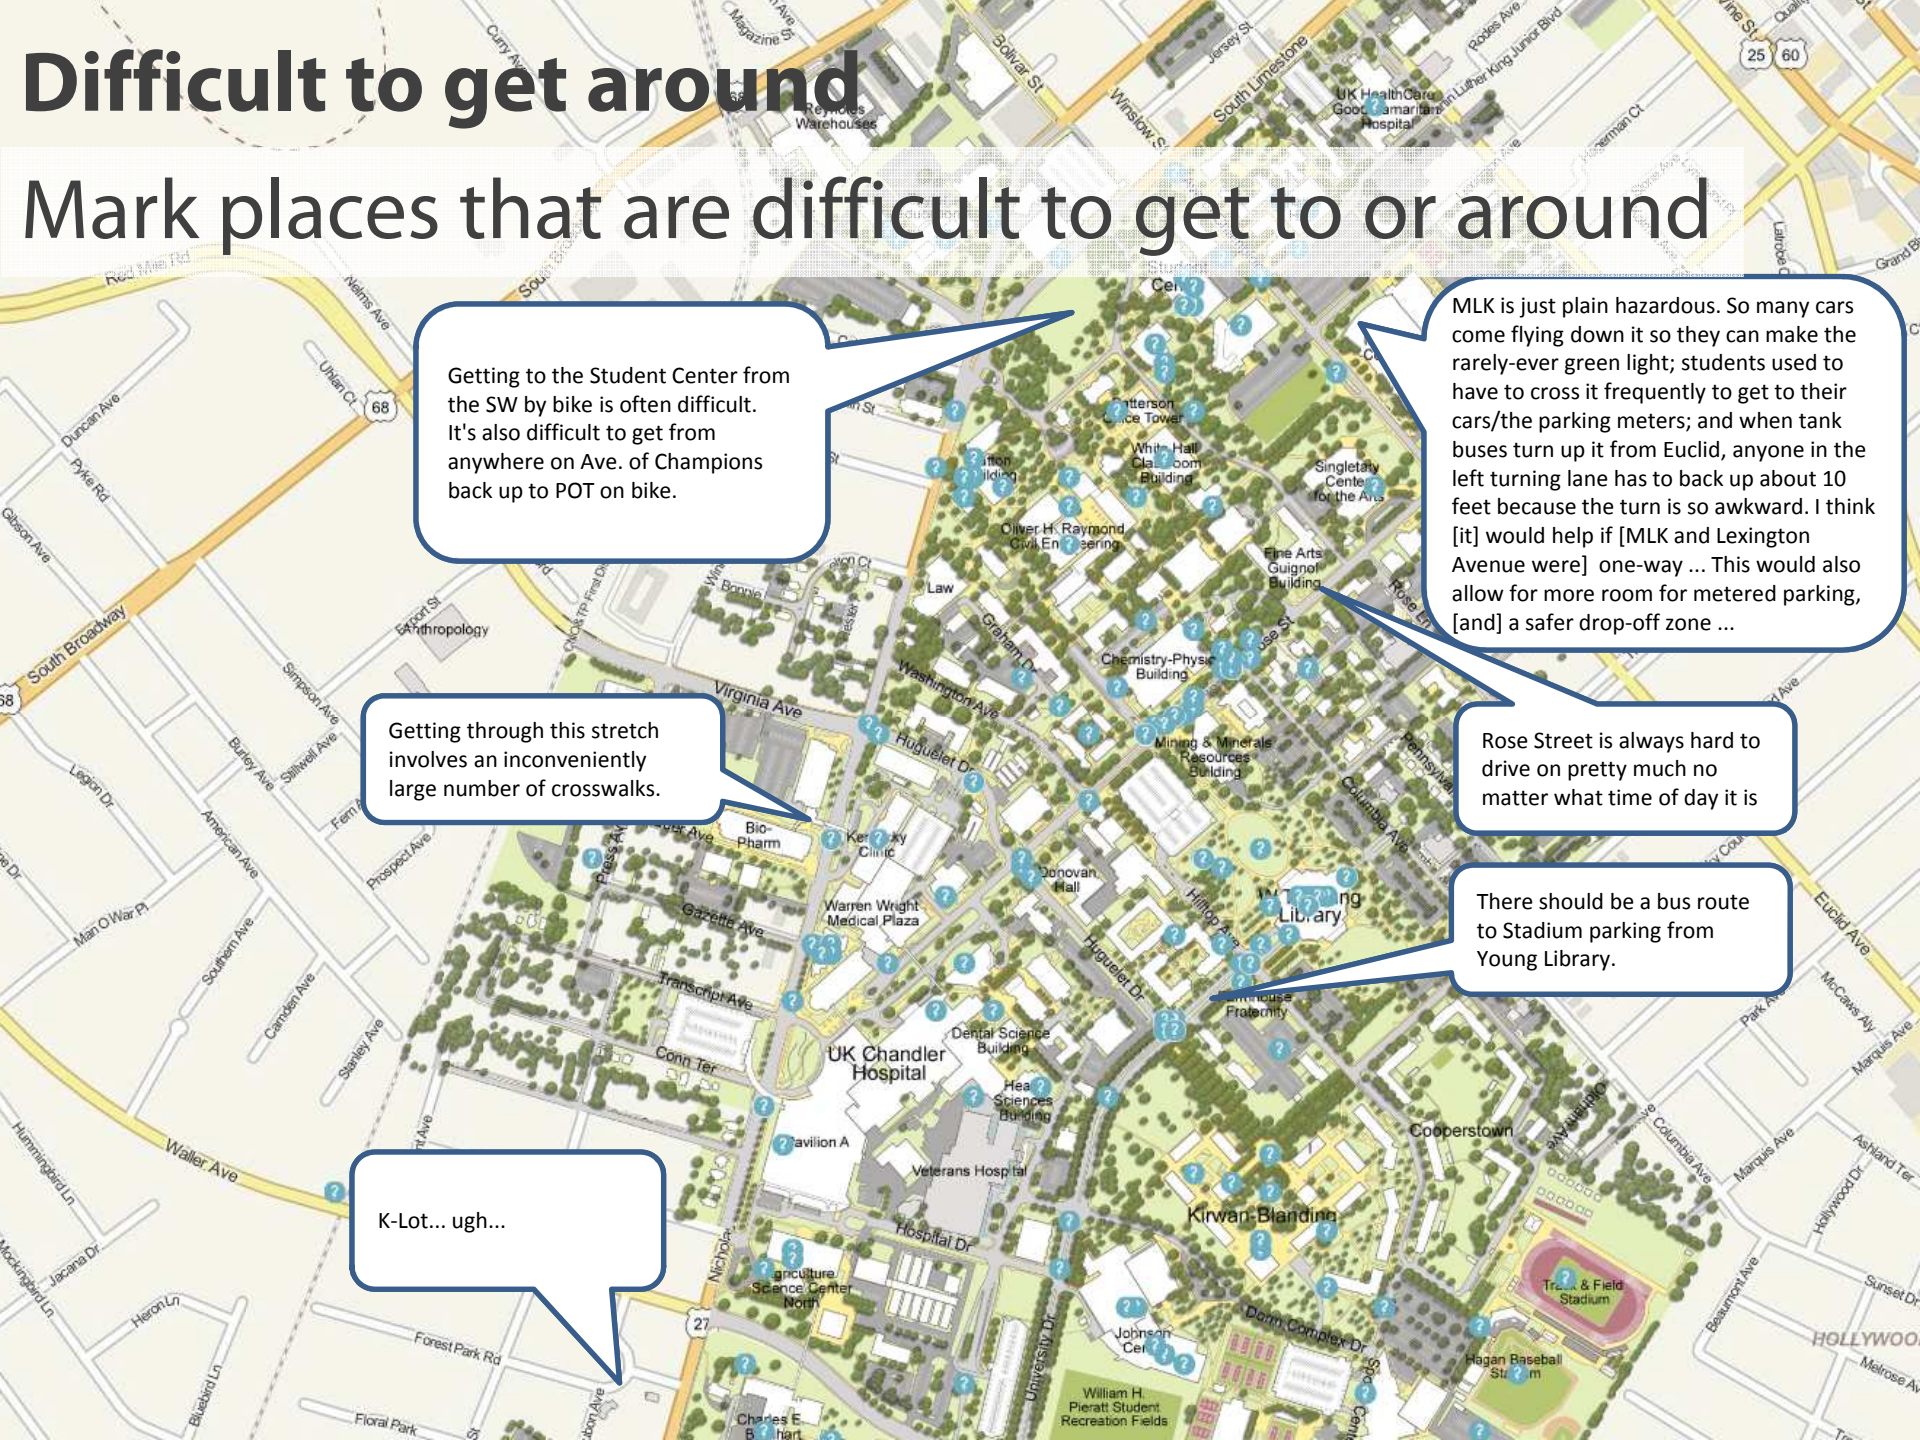

Gameday parking for me

When I have to move my car for games, I park here.

K-Lot: This sucks. I have a hard time finding my truck sometimes. Birds poop on my car- which is bad for the paint. It's a long walk and there are NO buses that run from the dorms to K-Lot kinda ever and no busses run to K-Lot during the day or on Sundays except at night. I was sick yesterday and I had to walk from K-Lot to Smithy myself, in 40-degree weather with wind and rain, throwing up, and it really sucked.

Difficult to get around

Mark places that are difficult to get to or around

Getting to the Student Center from the SW by bike is often difficult. It's also difficult to get from anywhere on Ave. of Champions back up to POT on bike.

MLK is just plain hazardous. So many cars come flying down it so they can make the rarely-ever green light; students used to have to cross it frequently to get to their cars/the parking meters; and when tank buses turn up it from Euclid, anyone in the left turning lane has to back up about 10 feet because the turn is so awkward. I think [it] would help if [MLK and Lexington Avenue were] one-way ... This would also allow for more room for metered parking, [and] a safer drop-off zone ...

Getting through this stretch involves an inconveniently large number of crosswalks.

Rose Street is always hard to drive on pretty much no matter what time of day it is

There should be a bus route to Stadium parking from Young Library.

K-Lot... ough...
