

**UNIVERSITY OF KENTUCKY
COLLEGE OF EDUCATION**

**FACULTY ACTIVITIES REPORT
2006**

NAME: _____

RANK: -

PLEASE NOTE: **Faculty with tenure** preparing documentation for review during the first year of a biennium should document all activities for the prior two calendar year period (Spring 2005-Fall 2005, Spring 2006-Fall 2006).

All **faculty without tenure** should document activities for the prior calendar year (Spring 2006-Fall 2006).

Please include the products of collaboration and multi-disciplinary efforts in teaching, research, and service under the appropriate section.

No materials will be reviewed unless all relevant DOE forms are attached.

If a faculty member's DOE has changed during the review period, a composite DOE must be calculated. To calculate, use each percent to determine the average DOE in each category for the calendar year(s). If the DOE changed within a semester, use the final DOE figure for the semester to calculate the composite. It will be necessary to draw on multiple DOE forms from different academic years.
