

University of Kentucky Style Guide

The University of Kentucky Style Guide notes specific rules and usages to be followed by authors and editors of University of Kentucky publications, especially those targeting media or the general public.

The University of Kentucky Style Guide conforms largely to the *Associated Press Stylebook and Libel Manual*, but it contains exceptions to both AP style manual and The Chicago Manual of Style. Where conflicts exist between this and other guides, this style guide takes preference.

For other general rules, use a primary style guide that pertains to the publication you are writing or editing. Acceptable reference guides also are listed in the bibliography of the AP Stylebook. The Chicago Manual of Style and this guidebook should be used for correspondence, books, magazines, proceedings, papers, articles for professional journals, brochures, and most documents for a general audience.

The *Associated Press Stylebook and Libel Manual* should be used for news releases and news publications.

A

Abbreviations and acronyms

Avoid abbreviations in running text, except when part of names, street addresses, courtesy titles, or academic degrees.

- Women Writers Conference, not Women Writers Conf.
- The Department of Family Studies, not the Dept. of Family Studies

Avoid acronyms on first reference unless they are so well known that most readers will recognize the reference at first glance, such as NAACP, IOU and IQ. In general, acronyms may be used beginning with the second reference, providing it would not be difficult for the reader to understand for what the acronym stands. If the acronym would not be easily understood, do not use it or use the following rule.

If an acronym must be used and is not well-known, it may be placed in parentheses following the reference. However, do not use an acronym in parentheses in the first paragraph (lead) of a text, especially news releases. This makes the lead too cumbersome.

- Advanced Science and Technology Commercialization Center (ASTeCC).
- the center (ASTeCC)

Do not use periods in acronyms, except for academic degrees.

Acronyms should be set off with parentheses after a first reference if they are not well known, as in Advanced Science and Technology Commercialization Center (ASTeCC).

To create the plural form of an abbreviation, add s. To create the possessive form of an abbreviation, add an apostrophe before the s.

- ASTeCC facilities impressed industry representatives.
- UK's basketball program is wildly popular.

See also academic degrees; academic and administrative titles; addresses; grades; Jr., Sr., III; Dr.; Ky., KY; and UK.

Academic degrees

Avoid abbreviating academic degrees in text that is meant for general audience readers. Rather spell out the degree name. If an abbreviation is used, it should be on second reference. Use periods and no spaces in the abbreviation. Use commas to set off degree designations in running copy.

- Wrong: The student earned her M.A. from UK in 2001.
- Correct: The student earned her master's degree from UK in 2001.

When writing official Commencement information, spell out the name of the degree. If the degree has been or will be conferred by the University of Kentucky, check with the Office of the Registrar for an official degree name. All words, except prepositions, that are part of the official degree name, should be capitalized.
