

2008 - 2009 University of Kentucky Formulary

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription-drug benefit plan.

PLEASE NOTE: The symbol \* next to a drug signifies that it is subject to nonformulary status when a generic is available throughout the year. Not all the drugs listed are covered by all prescription-drug benefit programs; check your benefit materials for the specific drugs covered and the copayments for your prescription-drug benefit program.
