

Student Financial Aid (Sigma ProSAM)

As part of the IRIS Project, UK's Office of Student Financial Aid implemented a new financial aid management system. The system is referred to as ProSAM; the vendor is Sigma Systems, Inc. Live since 2006, the ProSAM system is closely integrated with Campus Management. Through regular interface operations, the system accesses Student File and Master Data information necessary for processing and awarding grants, loans, and scholarships. ProSAM also integrates with Student Accounting for disbursement of awards and refunds.

Students access financial aid information via [myUK](#), **Student Services** tab-> **Financials**.

The **Academic Year** selection provides aid recipients with important announcements, reminders, and instructions related to a particular academic year. The **Documents** link provides information on missing items and **Budget** outlines an estimate of expenses for an award year.

Students may view their award package and accept their financial aid awards in the portal. They also can confirm what has been paid to the student account.

Additional information on financial aid can be found on the [Office of Student Financial Aid web site](#).
