

UKHRS_RPT Element Names

The UKHRS_RPT element names have been standardized in accordance with the Element Naming Standards:

<http://www.uky.edu/IS/DataAdmin/DOCS/ware/IUUN0020-QRVE/QRVE-NamingStds/DataElementNamingStds.pdf>. These elements reflect the elements currently available in the UKHRS_SYB views. The new UKHRS_RPT views containing these elements will have value-based security applied. These names should reflect the element definition and subject area, and will not match the element 'labels' on the IDMS screens.

Please review the HRS elements which have been completed: http://www.uky.edu/IS/DataAdmin/DOCS/ware/IUUN0020-QRVE/QRVE-NamingStds/UKHRS_RPT.pdf, and send any comments or questions concerning these names to Debra.Claunch@uky.edu by **Friday September 12, 2003**.

To search the document: select the binoculars and enter the text you want to search on.

A list of UK Prime Words, UK Class Words and UK Abbreviations has been started and will be added to as each set of elements is standardized. These can be viewed at: <http://www.uky.edu/IS/DataAdmin/DOCS/ware/IUUN0020-QRVE/QRVE-NamingStds/NamingStdsIndx.htm>. In addition, a list of Prime Words, Class Words, Qualifier/Modifiers, and Abbreviations, compiled from other institutions can also be viewed at this site for comparison.
