

GEOSPATIAL APPROACHES TO EPIDEMIOLOGY

SHORT COURSE

January 10*, 11, 12

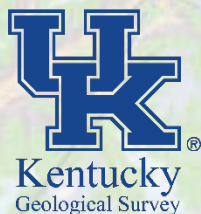

*January 10 is an optional day focusing on refreshing GIS basics

William T. Young Library, Room B-35
8:30 a.m. – 4:30 p.m.

Graduate students, faculty, and researchers are invited to attend this free short course focusing on:

- Identifying available and accessible data sources
- Exploring data challenges
- Understanding, accessing, and manipulating data sets
- Basic GIS operations that support epidemiology research
- Basic terrain applications
- Correlating epidemiological points with geologic/geomorphologic attributes in ArcMap
- Discussing ongoing projects focusing on geospatial applications in epidemiology
