

Quick Reference - How to Purchase Furniture from University Contracts

Overview:

- > Furniture contracts for the University are based on the manufacturer brands, or "lines", of furniture. "Service dealers" are the local representatives for a given contract line and the listed sales reps are designated to the University's needs.
- > Email addresses and product websites within this document link directly to the web and activate by clicking on the links.
- > Virtually all furniture contracts include discounts from list pricing (most are 40% to 60% off list). They include freight and meet flammability guidelines as required by the UK Fire Marshal's office.

Step 1: Determine furniture needs based on end-user requirements. This could include issues related to quality, design, aesthetic requirements, ergonomics, and/or economics. Visiting some of the product websites may help with determining needs.

Step 2: Once requirements are determined contact the applicable sales rep to obtain a quote. The dealers provide additional services including design, on-site visits if needed, and installation if required.

Step 3: For main campus areas, if the quote is less than \$5,000 for the order and no single item is greater than \$2,000 per component, the order can be purchased using the departmental procurement card.
If the order is greater than \$5,000, or any single item is greater than \$2,000 per component, enter the order into SRM as a "free text" Shopping Cart. Scan the quote if needed and attach to the Shopping Cart. A purchase order will be processed and placed with the vendor.

Special Notes:

- * Furniture purchases for public areas (e.g., lobbies) within main campus must be approved by Facilities Management-Interior Design. Call 257-5911 x253 for questions.
- * Due to potential code or HVAC issues, purchase of any cubicles or wall dividers greater than 6 feet in height requires approval by Physical Plant Division. Call 257-3965 for questions.
- * UK Environment Health and Safety offers occupational assessments and recommendations to departments upon request. For information call 257-2924.
- * Furniture for Hospital and clinic areas must comply with standards established by HealthCare Facilities Management. Click [here](#) for more information.
- * For business/accounting questions regarding furniture purchases within HealthCare areas, contact UK HealthCare Finance at 323-3756.
