________________________________________

Typed or Printed Name
The Contractor shall conform to the following revisions as same become binding upon the Contract.

1. Refer to Note J on all Site Lighting Plans and revise the following. Asphalt/Concrete pavement repairs resulting from electrical conduit trenches shall be full depth/thickness to match adjacent pavement. All lawns disturbed by electrical work shall be sodded, not seeded.

2. Refer to drawings EX2.0 & E3.0. An existing building is to be removed by others outside of this contract, however, the foundations/slab are to remain beneath the expanded parking lot in this contract. This contract shall remove concrete slab/foundation as necessary to accommodate the light pole bases and conduits where indicated. Backfill trench or void with flowable fill.

3. Refer to drawings EX2.0, C2.0, C2.1, C2.2 & E3.0. All work at the Scott Street parking lot is either Bid Alternate #1 or Bid Alternate #2; none of it is in the Base Bid. Work is delineated on the plans with a heavy dashed line between Bid Alternate #1(east side of line) and Bid Alternate #2 (west side of line). Site lighting at the Scott Street lot is part of Bid Alternate #1.

4. Refer to drawing E1.0 – All fixtures and poles shall be black. All poles shall be breakaway type.

5. Refer to all electrical drawings – all existing fixtures and poles to be demolished become the property of the contractor.

6. Refer to attached drawing University of Kentucky Design and Construction Standards Drawing No. 260543D01 for construction of duct banks for all new lighting circuits.

7. Refer to revisions on attached drawing E3.0. The work no longer included in this contract will be performed by a separate building demolition contract.

End of Addendum #1
