2.0 GENERAL OVERVIEW

2.1 Intent and Scope

The Lexington Center Corporation, owner and manager of Rupp Arena the venue of the University of Kentucky Men's Basketball program, conducted a feasibility study to explore private financing to replace the Rupp Arena. Additionally, it has been proposed to expand the study to determine the feasibility of the funding and construction for renovations to the University's Commonwealth Stadium and the construction of a new baseball stadium located on campus in proximity to Commonwealth Stadium.

As a result, the University of Kentucky issued a Request for Proposals (RFP) to solicit proposals from interested parties to undertake the private financing and construction of new and expanded athletic facilities for the University of Kentucky (UK). The responses to the RFP proposed unique and creative methods to structure the arrangement both from a financial and legal perspective.

This Request for Proposals (RFP) for Legal Services is issued to solicit proposals from qualified, experienced, financially sound, and responsible firms to provide legal services to provide all aspects of legal support in the design of financing and contracting for public/private effort of the University with respect to the construction and renovation of athletic facilities for football, basketball and baseball. Representation does not include the actual implementation of any implementation for the design although Contractor will be eligible to make subsequent proposals for such representation. Upon the University's request, the Contractor shall provide assistance and cooperate with other University consultants engaged for the project.

The work will be completed in two phases. Phase one will require the firm to review and analyze any legal constraints to the project. Specifically, review existing state budget authority legislation to determine the project's compliance. Additionally, the firm will examine the proposed relationships of all parties and their operational structure to ascertain the legality of the arrangement and the risk to the University.

Following completion of phase one, and should the University decide to proceed with the project, the firm will advise and direct the University including legal oversight of agreements, contracts and other activities associated with the project.

The University of Kentucky desires to obtain proposals from law firms with significant experience in projects involving public/private partnerships in the development of sports venues within the Commonwealth of Kentucky that have significant experience with colleges and universities and have sufficient resources to manage legal matters.

The selected law firm shall:

Preserve and make available to the University legal office all pertinent records. If the contract is completely or partially terminated, all records relating to the work shall be preserved and made available to the university for a period of at least five (5) years from the date of final statement.

Warrant that any representations made by them in the proposed agreement are true and accurate; that the Contractor is in all ways in compliance with state and federal laws which may govern the subject matter of this RFP; and that the party executing this offer on the Contractor's behalf is duly authorized to do so.

Shall not have any interest, direct or indirect, which would conflict in any manner or degree with the performance of its services hereunder.

2.2 University Information

Founded in 1865, the University of Kentucky (UK) is a public, research-extensive, land grant university dedicated to enriching people's lives through excellence in teaching, research, and service. UK's campus covers more than 716 acres and total enrollment is more than 27,000 students representing all Kentucky counties, every state in the nation, and 117 countries. There are more than 13,500 employees.

The University of Kentucky has long embraced its mission to provide excellent education to outstanding resident and non-resident students, recognizing that a knowledgeable populace is the best foundation for a prosperous Commonwealth. This mission has been further enhanced since 1997 when the Kentucky General Assembly mandated that UK become a Top 20 public research university by 2020. President Lee T. Todd Jr. focused the University on achieving this goal through the development of a Top 20 Business Plan in 2005 that gained national prominence for its vision and detail.

UK consists of some 200 major and degree programs in 17 academic and professional colleges. The colleges include: Agriculture, Arts and Sciences, Business and Economics, Communications and Information Studies, Dentistry, Design, Education, Engineering, Fine Arts, Health Sciences, Law, Libraries, Medicine, Nursing, Pharmacy, Public Health, and Social Work. UK boasts over 80 national rankings for academic excellence.

UK operates a nationally recognized research library system, with the capstone being the world-class William T. Young Library. UK's book endowment is the largest among public universities. Its library network and technology provide extraordinary service to students in the colleges of Medicine, Law, Engineering, Fine Arts and other programs. Meanwhile, students, faculty and Kentucky residents can use UK Libraries' advanced technology to access the most up-to-date information from online journals, government publications and private studies.

The UK Chandler Medical Center, which opened in 1960, is considered one of the nation's finest academic medical centers. As one of two Level 1 Trauma Centers in Kentucky, UK Hospital cares for the most critically injured and ill patients in the region. The 473-bed UK Hospital and UK Children's Hospital are supported by more than 500 faculty physicians and dentists, 400 resident physicians, and a staff of 3,200 health professionals committed to high-quality patient care.

In spring 2007, ground was broken for a new \$450 million UK Chandler Hospital. This more than 1-million square foot facility, to be completed in 2011, is the cornerstone of a 20-year, \$2.5 billion plan to construct the Commonwealth Medical Campus of the Future. Among the campus' components are a now-under-construction \$120 million pharmacy building, additional research buildings, a new shared Health Sciences Learning Center, and additional buildings to house programs for the colleges of Medicine, Nursing, Health Sciences, Dentistry and Public Health.

Research at UK is a dynamic enterprise encompassing both traditional scholarship and emerging technologies. For the last five years, the University has consistently exceeded \$200 million in sponsored projects awards. UK faculty recently attracted a record-breaking total of \$290 million in extramural funding for grants and contracts. A recent ranking placed UK at 26th among all public universities for federal expenditures. Meanwhile, the inventiveness of UK faculty continues to earn the University its standing as 17th among land-grant universities, 34th among public universities,

and 57th overall in licensing income and patents. Another national ranking recently put UK 19th among public institutions for the scholarly productivity of its faculty.

UK's agenda is to accelerate the movement toward academic excellence and to become known worldwide for the quality of its academic programs, its commitment to undergraduates, its success in building a diverse community, and its engagement with the larger society.
