

How do I take a placement test?

You must take your math placement test BEFORE you arrive for your advising conference.

The math placement tests can be found on BlackBoard.

- 1. Go to elearning.uky.edu.**
- 2. Login using your LinkBlue userID and password. (These are listed in your admissions letter.)**
- 3. Click on the algebra or calculus placement test link to begin the test.**

You can find more extensive instructions and watch a tutorial video on our website: www.uky.edu/UGS/study

Do YOU need to take a placement test?

IF:

- your SAT math score is 610 or lower....
- OR your ACT math score is 26 or lower....
- OR you are in the College of Engineering....

....then YES! You do need to take a placement test!

If your SAT math score is 620 or higher, or your ACT math score is 27 or higher, AND you are NOT enrolled in the College of Engineering, you do NOT need to take a placement test.
