

Interdisciplinary Early Childhood Education

College of Human Environmental Sciences

NOTE: At the time of publication, the College of Human Environmental Sciences was being restructured. The degree programs listed here will remain the same but the College structure will change.

Requirements for Program

Early Childhood Education is an interdisciplinary program which will prepare educators to work with children, birth through age five, in public pre-primary classes and non-public institutions including day care, private preschool, and private kindergarten.

The faculty of the Interdisciplinary Early Childhood Education program are associated with the Department of Family Studies and the Department of Special Education and Rehabilitation Counseling. The faculty believe that teaching young children involves viewing children holistically, using structured behavioral approaches.

To be state-certified, candidates must also successfully complete all state-mandated testing requirements.

Continuous Assessment

1. All students in the interdisciplinary early childhood education program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section "Admission, Retention and Exit from Teacher Education Programs" on page 145 of the 2003-2004 UK Bulletin.

2. Assessment at the Point of Entry to the IECE Program. The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program.

3. On-going Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program.

4. Exit Assessment. At the exit assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in an appropriate school placement for young children with and without disabilities.

Statement on Student Teaching

Student teaching in the Interdisciplinary Early Childhood Education program is 16 weeks and should consist of eight weeks in an infant/toddler program, and eight weeks in a preschool program, including children with and without disabilities.

Interdisciplinary Early Childhood Education • 2

All students in Interdisciplinary Early Childhood Education must apply, and be admitted to, and be retained in a Teacher Education Program (TEP), and complete a state approved university teacher training program in Early Childhood Education to be able to apply for certification. Students who are interested in certification in Early Childhood Education need to meet with a certification officer in the College of Education **prior** to completing 60 semester hours to discuss state certification and TEP requirements. A minimum 2.5 cumulative GPA is required to be eligible to apply for admission to TEP. TEP applications will be reviewed for students who have completed, or will complete during the semester in which they apply, 60 semester hours, including EDP 202, EDS 375, FAM 255, and FAM 256 with a grade of **C** or better. (See the *College of Education* section of the UK Bulletin for additional information regarding state requirements and TEP.)
