

Forestry

College of Agriculture
and School of Human
Environmental Sciences

Kentucky boasts many forested areas with famous reputations, such as Natural Bridge, Red River Gorge, Daniel Boone National Forest, and Robinson Forest. Robinson Forest is one of the largest research and educational forests in the eastern United States. It is managed by the Department of Forestry, and as a forestry student at the University of Kentucky all of its resources will be available to you as a unique outdoor laboratory.

The missions of the Department of Forestry are to identify and address the challenges and opportunities facing sustained management of our renewable natural resources, including forests, soils, water, and wildlife. These missions involve three interrelated functions: research, extension, and education. The research goal of the department is to obtain basic and applied information leading to wise and effective management of our natural resources. Forestry extension seeks to inform land owners and the general public about forest stewardship. Forestry education prepares students for careers as forestry and natural resource professionals. The objectives of the required courses in the forestry curriculum are to educate and train students in the communication, managerial, scientific, processing, and administrative skills and principles related to the stewardship and utilization of renewable natural resources. Accomplishment of these objectives will ensure a continuing supply of entry-level professionals for Kentucky and the nation.

The undergraduate (B.S.) program leading to the professional degree in forestry is accredited by the Society of American Foresters (SAF). SAF is the specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation as the accrediting agency for forestry in the United States. Additionally, you may become certified by The Wildlife Society if you choose appropriate elective courses.

Career Opportunities

Forestry graduates are employed as professional foresters in private forest industries and organizations, consulting companies, and public agencies, including the U.S. Forest Service, Soil Conservation Service, and state, county, or urban forestry programs. Graduates are also qualified to be research technicians in government, university, and private laboratories, or may continue their studies in specialized graduate programs.

The inclusion in the curriculum of management and processing principles makes UK forestry graduates attractive to the forest products industry; graduates are often employed as technical specialists, managers, and marketing and wood procurement personnel.

Graduation Requirements

The four-year Bachelor of Science program in Forestry consists of 133 semester hours. Eight of these hours are earned while attending a Summer Camp between the third and fourth academic years. This eight-week Summer Camp at Robinson Forest provides practical, in-the-field training and is required of all forestry students. The camp involves overnight travel and takes place at a number of field locations including but not necessarily limited to Robinson Forest.

The curriculum consists of University Studies program, preprofessional, professional, and specialty support components. FOR 100, Introduction to Forestry, is required of all undergraduates during their first semester. This course provides a broad overview of forestry. Preprofessional, professional, and specialty support courses provide the skills and understanding to manage forest resources. Electives, chosen with the assistance of your advisor, strengthen your knowledge of basic principles in areas of special interest to you.

University Studies Requirements

Hours

See "University Studies Program" on pages 75-79 of the 2006-2007 UK Bulletin for the complete University Studies requirements.

The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Inference-Logic

MA 123 Elementary Calculus and Its Applications 3

Natural Sciences

CHE 105 General College Chemistry I 3

CHE 107 General College Chemistry II 3

CHE 115 General Chemistry Laboratory 3

Social Sciences

AEC 101 The Economics of Food and Agriculture or

ECO 201 Principles of Economics I 3

One other course other than economics from USP list 3

USP Electives

BIO 150 Principles of Biology I 3

BIO 152 Principles of Biology II 3

Premajor Requirements

Hours

High school trigonometry or

MA 112 Trigonometry or equivalent 0-2

*MA 123 Elementary Calculus and Its Applications 3

MA 162 Finite Mathematics and Its Applications 3

*BIO 150 Principles of Biology I 3

*BIO 151 Principles of Biology Laboratory I 2

*BIO 152 Principles of Biology II 3

*BIO 153 Principles of Biology Laboratory II 2

*CHE 105 General College Chemistry I 3

*CHE 107 General College Chemistry II 3

*CHE 115 General Chemistry Laboratory 3

PHY 151 Introduction to Physics or any higher
numbered physics course of 3 or more credit hours 3

*AEC 101 The Economics of Food and Agriculture or

*ECO 201 Principles of Economics I 3

*GEO 210 Pollution, Hazards, and Environmental Management or

one other departmentally-approved course of 3 or more
credit hours 3

STA 291 Statistical Method 3

Subtotal: Premajor Hours 37-39

Major Requirements

Hours

FOR 100 Introduction to Forestry 3

FOR 200 Map Reading and Photogrammetry 2

FOR 205 Forest and Wildland Soils and Landscapes 4

FOR 219 Silvics and Tree Identification 3

FOR 300 Forest Measurements 4

FOR 340 Forest Ecology 3

Forestry • 2

FOR 350 Silviculture	4
FOR 360 Wood Technology and Utilization	4
FOR 402 Forest Entomology	3
FOR 410 Forest Pathology	3
FOR 425 Timber Management	4
FOR 430 Forest Wildlife Management	3
FOR 440 Forest Resources for Recreation	3
FOR 460G Forest Watershed Management	3
FOR 480 Integrated Forest Resource Management	5

Forestry Field Camp[†]

FOR 375 Taxonomy of Forest Vegetation	1
FOR 376 Silvicultural Practices	2
FOR 377 Forest Surveying	1
FOR 378 Forest Mensuration	2
FOR 379 Harvest and Utilization of Wood	2

†Attendance at Forestry Field Camp requires completion of the following courses: FOR 200, FOR 205, FOR 219, FOR 300, FOR 340, FOR 350, FOR 360 (grade of C or better required in FOR 200, FOR 205, and FOR 219).

Subtotal: Major Hours 59

Specialty Support Requirement

AEC 201 Introduction to Farm and Natural Resource Finance	3
Subtotal: Specialty Support	3

Electives

Elective courses should be selected by the student to lead to the minimum total of 133 hours required for graduation.

Subtotal: Electives	minimum of 16
TOTAL HOURS:	133
