SECTION 2:

Core Requirements
Core Requirements are basic, broad-based, foundational requirements that an institution must meet to be accredited with the Commission on Colleges. They establish a threshold of development required of an institution seeking initial or continued accreditation by the Commission and reflect the Commission’s basic expectations of candidate and member institutions. Compliance with the Core Requirements is not sufficient to warrant accreditation or reaffirmation of accreditation. Accredited institutions must also demonstrate compliance with the Comprehensive Standards and the Federal Requirements of the Principles, and with the policies of the Commission.

An applicant institution seeking candidacy is required to document compliance with Core Requirements 2.1 – 2.11; Comprehensive Standards 3.3.1, 3.5.1, and 3.7.1; and Federal Requirements 4.1 – 4.7 to be authorized a Candidacy Committee or to be awarded candidacy or candidacy renewal. An applicant/candidate institution is not required to document compliance with Core Requirement 2.12 until it undergoes its first review for reaffirmation following initial accreditation. (See Commission policy “Accreditation Procedures for Applicant Institutions.”)

An accredited institution is required to document compliance with all Core Requirements, including Core Requirement 2.12, before it can be reaffirmed. If an institution fails to document compliance, the Commission will place the institution on sanction or take adverse action. (See Commission policy “Sanctions, Denial of Reaffirmation, and Removal from Membership.”)

Core Requirement 2.12 requires an institution to develop an acceptable Quality Enhancement Plan (QEP). Engaging the wider academic community, the QEP is based upon a comprehensive and thorough analysis of the effectiveness of the learning environment for supporting student learning and accomplishing the mission of the institution.

Implicit in every Core Requirement mandating a policy or procedure is the expectation that the policy or procedure is in writing and has been approved through appropriate institutional processes, published in appropriate institutional documents accessible to those affected by the policy or procedure, and implemented and enforced by the institution.

2.1 The institution has degree-granting authority from the appropriate government agency or agencies. (Degree-granting Authority)

2.2 The institution has a governing board of at least five members that is the legal body with specific authority over the institution. The
board is an active policy-making body for the institution and is ultimately responsible for ensuring that the financial resources of the institution are adequate to provide a sound educational program. The board is not controlled by a minority of board members or by organizations or interests separate from it. Both the presiding officer of the board and a majority of other voting members of the board are free of any contractual, employment, or personal or familial financial interest in the institution.

A military institution authorized and operated by the federal government to award degrees has a public board on which both the presiding officer and a majority of the other members are neither civilian employees of the military nor active/retired military. The board has broad and significant influence upon the institution’s programs and operations, plays an active role in policy-making, and ensures that the financial resources of the institution are used to provide a sound educational program. The board is not controlled by a minority of board members or by organizations or interests separate from the board except as specified by the authorizing legislation. Both the presiding officer of the board and a majority of other voting board members are free of any contractual, employment, or personal or familial financial interest in the institution. *(Governing Board)*

2.3 The institution has a chief executive officer whose primary responsibility is to the institution and who is not the presiding officer of the board. *(Chief Executive Officer)* *(See Commission policy “Core Requirement 2.3: Documenting an Alternate Approach.”)*

2.4 The institution has a clearly defined, comprehensive, and published mission statement that is specific to the institution and appropriate for higher education. The mission addresses teaching and learning and, where applicable, research and public service. *(Institutional Mission)*

2.5 The institution engages in ongoing, integrated, and institution-wide research-based planning and evaluation processes that (1) incorporate a systematic review of institutional mission, goals, and outcomes; (2) result in continuing improvement in institutional quality; and (3) demonstrate the institution is effectively accomplishing its mission. *(Institutional Effectiveness)*

2.6 The institution is in operation and has students enrolled in degree programs. *(Continuous Operation)*
2.7

2.7.1 The institution offers one or more degree programs based on at least 60 semester credit hours or the equivalent at the associate level; at least 120 semester credit hours or the equivalent at the baccalaureate level; or at least 30 semester credit hours or the equivalent at the post-baccalaureate, graduate, or professional level. If an institution uses a unit other than semester credit hours, it provides an explanation for the equivalency. The institution also provides a justification for all degrees that include fewer than the required number of semester credit hours or its equivalent unit. (Program Length)

2.7.2 The institution offers degree programs that embody a coherent course of study that is compatible with its stated mission and is based upon fields of study appropriate to higher education. (Program Content)

2.7.3 In each undergraduate degree program, the institution requires the successful completion of a general education component at the collegiate level that (1) is a substantial component of each undergraduate degree, (2) ensures breadth of knowledge, and (3) is based on a coherent rationale. For degree completion in associate programs, the component constitutes a minimum of 15 semester hours or the equivalent; for baccalaureate programs, a minimum of 30 semester hours or the equivalent. These credit hours are to be drawn from and include at least one course from each of the following areas: humanities/fine arts, social/behavioral sciences, and natural science/mathematics. The courses do not narrowly focus on those skills, techniques, and procedures specific to a particular occupation or profession. If an institution uses a unit other than semester credit hours, it provides an explanation for the equivalency. The institution also provides a justification if it allows for fewer than the required number of semester credit hours or its equivalent unit of general education courses. (General Education)

2.7.4 The institution provides instruction for all course work required for at least one degree program at each level at which it awards degrees. If the institution does not provide instruction for all such course work and (1) makes arrangements for some instruction to be provided by other accredited institutions or entities through contracts or consortia or (2) uses some other alternative approach to meeting this requirement, the alternative approach must be approved by the Commission on Colleges. In both cases, the institution demon-
strates that it controls all aspects of its educational program. *(See Commission policy “Core Requirement 2.7.4: Documenting an Alternate Approach.”)* *(Course work for Degrees)*

2.8 The number of full-time faculty members is adequate to support the mission of the institution and to ensure the quality and integrity of its academic programs.

Upon application for candidacy, an applicant institution demonstrates that it meets the comprehensive standard for faculty qualifications. *(Faculty)*

2.9 The institution, through ownership or formal arrangements or agreements, provides and supports student and faculty access and user privileges to adequate library collections and services and to other learning/information resources consistent with the degrees offered. Collections, resources, and services are sufficient to support all its educational, research, and public service programs. *(Learning Resources and Services)*

2.10 The institution provides student support programs, services, and activities consistent with its mission that promote student learning and enhance the development of its students. *(Student Support Services)*

2.11

2.11.1 The institution has a sound financial base and demonstrated financial stability to support the mission of the institution and the scope of its programs and services.

The member institution provides the following financial statements: (1) an institutional audit (or Standard Review Report issued in accordance with Statements on Standards for Accounting and Review Services issued by the AICPA for those institutions audited as part of a systemwide or statewide audit) and written institutional management letter for the most recent fiscal year prepared by an independent certified public accountant and/or an appropriate governmental auditing agency employing the appropriate audit (or Standard Review Report) guide; (2) a statement of financial position of unrestricted net assets, exclusive of plant assets and plant-related debt, which represents the change in unrestricted net assets attributable to operations for the most recent year; and (3) an annual budget that is preceded by sound planning, is subject to sound fiscal procedures, and is approved by the governing board.
Audit requirements for applicant institutions may be found in the Commission policy “Accreditation Procedures for Applicant Institutions.” (Financial Resources)

2.11.2 The institution has adequate physical resources to support the mission of the institution and the scope of its programs and services. (Physical Resources)

2.12 The institution has developed an acceptable Quality Enhancement Plan (QEP) that includes an institutional process for identifying key issues emerging from institutional assessment and focuses on learning outcomes and/or the environment supporting student learning and accomplishing the mission of the institution. (Quality Enhancement Plan)

(Note: This requirement is not addressed by the institution in its Compliance Certification.)
