FCR 8, 2008-2009 Operating and Capital Budget

Angie Martin presented the details of the 2008-09 operating and capital budget. The budget totals $2.2 billion, a net increase of $113.7 million, or a 5.4% increase; the increase is primarily from hospital revenues and transfers from KMSF, Inc. for physician salaries. Undesignated General Fund expenses are expected to increase $11 million creating a $20.2 million funding gap. Undesignated General Fund expenses are expected to increase $11 million creating a $20.2 million funding gap. As a result, a $14 million budget cut has been allocated to the colleges and support units; $4.3 million of excess budget funds for faculty and staff benefits have been eliminated; and $1.9 million of nonrecurring fund balances have been used to balance the budget. Even with these challenges, however, the Provost has created a $3.5 million strategic investment pool to focus on student success, provide critical services to the Commonwealth, and to leverage synergies across academic disciplines. Mrs. Martin quoted Dr. Todd’s eloquent budget address. “We cannot use current conditions as license to shrink from the responsibility that has been placed upon our shoulders. We cannot give in to the temptation to sit idly by, waiting for better days. If this University is not working, every day, to build sustained economic prosperity in Kentucky, that prosperity will never arrive. Every budget represents a choice. We can choose to go forward or we can choose to retreat. Today we choose to go forward.” Frank Shoop approved the budget report. Dermontti Dawson seconded, and the motion for approval unanimously carried.

Dermontti Dawson seconded, and the motion for approval unanimously carried.

The previous limit, established in 1994, was $10,000. The surplus personal property may include minor equipment, vehicles, livestock and other materials no longer needed by the University.
