

Visa has notified UKFCU of a network intrusion of a large retail merchant that has put some of our members' debit and credit card numbers at potential risk. Members with these cards will be contacted via telephone notifying them of the intrusion. A letter will also be sent out to members with affected cards.

UKFCU is lowering the daily withdrawal limit on the affected debit cards to \$500, and lowering the Credit Limit on the affected credit cards to a maximum of \$1,500. We are in the process of re-issuing the compromised debit and credit cards with different card numbers and different PIN numbers. Expect the new cards in 7 to 10 business days.

We apologize for any inconvenience to our members.
