**7. Rationale for Change(s): (If rationale involves accreditation requirements, please include specific references to those requirements.)**

Focus area requirements approved May 2003 have not yet been printed in the catalog since they will not go into effect until Fall 2004. Some area coordinators have requested minor changes in their focus requirements which would clarify the focus for advisers and students, and two coordinators have requested new focus areas. Also, one additional focus has been proposed as interdisciplinary in nature, originating from a group of faculty members rather than through one particular area.
