Proposed

Same as to the left but with the following addition to the section that indicates "Select at least 9 hours from:"

ENT 574 Advanced Applied Entomology 4

Total Hours    No Change

Rationale for Proposal: The Entomology Department faculty felt that ENT 574 Advanced Applied Entomology was a very good options for a student seeking a minor in Pest Management. Here is the course description from the University Bulletin: ENT 574 ADVANCED APPLIED ENTOMOLOGY. The e objective of this course is to present the student with advanced concepts of applied entomology in a system-specific context. Each week, the insect problems associated with a different commodity/production system will be presented so as to illustrate a different broadly-based theme. Prereq: An introductory entomology course and consent of instructor.

Will this program be printed in the Bulletin?
