MEMORANDUM

TO: Phil Kraemer
Vice Provost for Undergraduate Studies

FROM: Joe T. Davis 
Associate Dean for Instruction

Attached is a Program Change Form requesting PHY 211 replace PHY 201 in the Food Science degree program. I would like to explain the situation and request this change be expedited in time for the publication of the 2003-04 bulletin.

In 1999 the UK Physics Department decided to discontinue offering PHY 201. This course was required for the B.S. in Food Science because the Institute of Food Technologists, who accredit our program, require students to complete a physics course and it is a prerequisite for AEN 340, a required course. When we received notification that PHY 201 was being dropped, the Food Science faculty determined that PHY 211 was the best replacement. Unfortunately, the appropriate paper work was not filed at the time.

In the meantime, the Registrar's Office decided to delete PHY 201 from the program requirements listed in the bulletin since it was no longer offered. There has been no physics requirement listed since 2000 which has caused confusion to our students. We do have the physics requirement listed in our in house program guides.

I would appreciate your expediting this request so it can be included in the 2003-04 bulletin to eliminate confusion about the degree requirements and keep us in compliance with our accreditation requirements. Thank you for your assistance in this matter.

REQUEST FOR CHANGE IN UNDERGRADUATE PROGRAM

Program Food Science
 Formal Option _____ Or Specialty Field _____
 Department (if applicable) Animal Sciences (if applicable) _____
 College (if applicable) Agriculture
 Degree title B.S. in Food Science Bulletin PP Page 72
 CIP Code _____ UK ID No. _____ HEGIS Code _____
 Accrediting Agency (if applicable) _____

I. PROPOSED CHANGE(S) IN PROGRAM REQUIREMENTS

1. Particular University Studies Requirements or Recommendations for this program

	<u>Current</u>	<u>Proposed</u>
English Writing		
Communication		
Mathematics		
Area I (Natural Science)		
Area II (Social Science)		
Area III (Humanities)		
Area IV (Cross-disciplinary component)		
Area V (Non-western cultural component)		

College Depth and Breadth of Study Requirements (if applicable) (including particular courses required or recommended for this program) NOTE: To the extent that proposed changes in 2 through 6 involve additional courses offered in another program, please submit correspondence with the program(s) pertaining to the availability of such courses to your students.

<u>Current</u>	<u>Proposed</u>

3. Premajor or Preprofessional Course Requirements (if applicable)

<u>Current</u>	<u>Proposed</u>
PHY 201	PHY 211:General Physics

Total Hours _____

REQUEST FOR CHANGE IN UNDERGRADUATE PROGRAM

4. Credit Hours Required
- | | <u>Current</u> | <u>Proposed</u> |
|--|--|---|
| a. Total Required for Graduation | _____ | _____ |
| b. Required by level | 100 200 300 400-500 | |
| c. Premajor or Preprofessional (if applicable) | | f. Hours Needed for a Particular Option Or Specialization (if applicable) |
| d. Field of Concentration (if applicable) | | g. Technical or Professional Support Electives (if applicable) |
| e. Division of Hours Between Major Subject and Related Field (if applicable) | | h. Minimum Hours of Free or Supportive Electives (Required) |

5. Major or Professional Course Requirements

<u>Current</u>	<u>Proposed</u>

6. Minor Requirements (if applicable)

<u>Current</u>	<u>Proposed</u>

Total Hours _____

7. Rationale for change(s): (If rationale involves accreditation requirements, please include specific references to those requirements.)

The Food Science B.S. program in the College of Agriculture is accredited by the national Institute of Food Technologists, a professional society consisting of 28,000 members. The IFT requires a general physics course for program accreditation. PHY 201 was dropped in the fall of 2000 and PHY 211 is the logical replacement.
