

Call for Abstracts

Kentucky Water Resources Research Institute Annual Symposium

March 2, 2009

Griffin Gate Marriott Resort - Lexington, Kentucky

The Kentucky Water Resources Research Institute's Annual Symposium encourages information transfer by providing opportunities for individuals conducting water-related work (e.g., research, management, education) to discuss their activities, preliminary or final, with others interested in the waters of the Commonwealth. The 2009 Symposium will take place on Monday, March 2, 2009, at the Griffin Gate Marriott Resort (1800 Newtown Pike, Lexington, 40511).

KWRRI invites abstract submissions for presentations describing recent or ongoing water projects or other related environmental activities. Authors should limit abstracts to two (2) pages, including illustrations, utilizing the following format:

ABSTRACT TITLE CENTERED AND IN CAPS

Principal Investigator(s)

Mailing Address

Phone Number

Email Address

The abstract's text should be single-spaced, 12-point Times New Roman (similar to this typeface), with double-spacing between paragraphs. One-inch margin at the top and 1.25-inch margins on the right, left, and bottom are required in order to facilitate binding and page numbering needs. Illustrations, including figures, maps, diagrams, and graphs, should be clear, legible, and suitable for black and white duplication. Do not include photographs in your abstract.

The following methods of submission are acceptable:

1. email attachments (Word or Word Perfect format) sent to Jim.Kipp@uky.edu;
2. text as email body sent to Jim.Kipp@uky.edu;
3. Word or WordPerfect file on diskette or CD submitted to the KWRRI address below; or
4. original paper copies if electronic transmission is not possible. *Paper copies must be camera ready.*

The deadline for receipt of abstracts is January 12, 2009. Authors should clearly indicate the preferred format for their presentation (platform or poster) and the anticipated presenting author at the time of abstract submission. Space for poster presentations has been arranged and a separate poster session is planned this year.

Authors will be notified of acceptance in early February and will be expected to present on March 2. A single presenter for each abstract will be allowed a discounted registration rate. Abstracts will appear in the printed proceedings, which will be distributed at the Symposium and posted on the Institute web site following the symposium. It is anticipated that the platform presentations will be 20 minutes in length.

Proposals for theme sessions may also be submitted. Volunteers for organizing/moderating such sessions should indicate their interest(s). If you are interested in organizing a theme session or placing an exhibit at the Symposium, or if you have any questions about the program or abstracts, please contact Jim Kipp.
