South Fork Kentucky River (upper)	South Fork Kentucky River in Boone Forest	222

Names for Kentucky's 11-digit HUC watersheds were revised statewide during 2001 to provide uniform, unique, and recognizable descriptors. The new names are used throughout this document. Watersheds listed above were renamed or repunctuated for consistency with the new system of naming. Watersheds not listed above retain the same names that were used in the 2000 Kentucky River Basin Assessment Report.
