

# Cane Creek (Breathitt County) Watershed

## Watershed Number: 05100201160

### Location Map

### Watershed Features

**Geography.** The Cane Creek (Breathitt County) watershed is in the central part of Breathitt County. The land is in the Eastern Kentucky Coal Field physiographic region, characterized by mountainous terrain, rapid surface runoff, and moderate rates of groundwater drainage. The watershed is underlain by coals, sandstones, and shales: this geology is generally conducive to productive wells, although water quality may be low for wells that draw from coal layers.

**Waterways.** Cane Creek empties into the North Fork Kentucky River west of Jackson. Among the creeks that feed it are Haddix Fork, Belcher Fork, Miller Branch, and Town Branch.

**Land and water use.** Land in the watershed is rural and wooded. One organization holds a permit for discharge into the creek. See tables for details.

**Agency data assessment.** The assessed creek segment in this watershed fully supports its designated uses, based on biological and/or water-quality data. See tables for details.

**Watershed rankings.** The ranking formula provides a preliminary ranking by synthesizing a broad spectrum of watershed characteristics, current conditions, and threats. This watershed ranks in the group with a moderate need for protection and/or restoration. This rating is for the watershed on average: particular sites and particular waters within the watershed may vary widely. See tables for details.

**Volunteer data.** No volunteer data were collected in this watershed in 1999.

This report was prepared by the Kentucky Water Research Institute as a product of the statewide Kentucky Watershed Management process. Information presented in this report was collected from many sources. Reasonable attempts were made to ensure that information and figures are as accurate as possible, but no representation or guarantee is made as to either the correctness or suitability of information for particular purposes. All critical information should be independently verified. Please address questions or corrections to Basin Coordinator, KWRI, Rm. 233 Mining and Minerals Resources Building, University of Kentucky, Lexington, Kentucky 40506-0107.
