DIRECTIONS: Provide a numerical assessment for each of the statements below using the following scale:

5=Strongly agree, 4=Agree, 3=Do not agree or disagree, 2=Disagree, 1= Strongly disagree

1) The abstract contains enough information to adequately evaluate the study (e.g. clear statement of the issue(s), background, methods, results, and conclusions).

2) The hypothesis or purpose of the study is clearly stated.

3) The abstract is clear and concise, well-developed, and scholarly written (e.g. no typos, excellent grammar, etc.)

4) The conclusions follow logically from the results of the study.

5) The study is relevant to Kentucky issues (state or local; issues with which legislators might have a connection, such as health care, agriculture/farming, domestic violence. etc.)

Additional Comments (Optional):

TOTAL SCORE (of possible 25 points)

Compared to the other applications you review, please provide your overall impression of the application:

Excellent; must be funded
Very Good; fund if at all possible
Good; fund if possible
Fair; fund only if money remains
Poor; do not fund
