BCTC – UK Pathway to Transfer Guide  
Associate in Science for Dietetics  

Suggested Course Sequence  

Completion of the following curriculum will satisfy both the requirements for an Associate in Science degree at BCTC as well as the UK Core requirements for the University of Kentucky and all of the pre-major requirements for the Bachelor of Science degree in Dietetics in the College of Agriculture’s School of Human Environmental Sciences. *The Dietetics program requires a cumulative GPA of 2.4 or higher for entry.*

BCTC students planning to transfer to the University of Kentucky should work closely with the UK Transfer Advisor each semester to ensure they are addressing both BCTC and UK requirements.

**Total Credit Hours: 63**

*This course needs to satisfy the Cultural Studies requirement.

**Students interested in timely completion of the Human Nutrition program at UK will need to take NFS 212 before the fall semester of their junior year. Having it completed by this time will keep students on track with the major course sequence, as NFS 212 is a prerequisite for many other courses. NFS 212 is often offered in Summer, Fall, and Spring terms as an on-line class.

(Note- CHE 105 and BIO 152 are PREREQUISITES for NFS 212. BCTC students will need to provide a transcript to verify prerequisite completion for NFS 212.)
