Completion of the following curriculum will satisfy both the requirements for an Associate in Science degree at BCTC as well as the UK Core requirements for the University of Kentucky, the pre-major requirements, and a major requirement (GLY 230) for the Bachelor of Arts degree in Geology.

Geology is a major in the College of Arts and Sciences, and therefore the requirements for the College of Arts and Sciences must be fulfilled to complete the Bachelor’s degree. One of the A&S requirements is that students complete the fourth college semester of a single foreign language, or if the student had 2 years of a foreign language in high school, they could complete the third college semester of a second foreign language. The suggested curriculum below would satisfy the College of Arts & Sciences foreign language requirement.

BCTC students planning to transfer to the University of Kentucky should work closely with the UK Transfer Advisor each semester to ensure they are addressing both BCTC and UK requirements.

1st Semester | Credit Hours | 2nd Semester | Credit Hours
--- | --- | --- | ---
ENG 101 | 3 | ENG 102 | 3
MAT 150 | 3 | MA 123 | 3
GLY 220 | 4 | CHE 170 | 3
Social & Behavioral course | 3 | CHE 175 | 1
*Foreign Language 101 | 4 | **GLY 295 (at UK) | 1
Semester Hours: | 17 | *Foreign Language 102 | 4

Semester Hours: 15

Total Credit Hours: 64

*Foreign Language satisfied the Cultural Studies requirement.

** This course is offered in the spring semester of even numbered years (i.e., 2012, 2014, etc). If your sequence does not allow you to take it in the 2nd semester, we recommend you take it your 4th semester.

*** If the student had two years of the same foreign language in high school and chose to complete three semesters of a second foreign language for this curriculum, the student would not need to complete Foreign Language 202 and could instead take GLY 360 at UK as a visiting student.
