University of Kentucky
Major Clusters

We’ve grouped all of our majors into similar curriculum areas— as you read through, consider your interests, skills and strengths. **Please note that this is not limiting your career options! You may major in one cluster, but your career may be focused in a different area (e.g. You may major in a Business field, but work as an Office Manager for a Healthcare Facility).**

If you see yourself as analytical, investigative and are good at mathematics and physical and natural sciences...
