NCUR 2016 Rubric

Student Name: Reviewer:

DIRECTIONS: Provide a numerical assessment for each of the statements below using the following scale:

5=Strongly agree, 4=Agree, 3=Do not agree or disagree, 2=Disagree, 1= Strongly disagree

_____ 1) The abstract contains all the required components, e.g. statement of the issue being addressed, background, methods, results and interpretations) to evaluate the study.

_____ 2) The abstract is clear and concise, well-developed (e.g. no typos, excellent grammar, etc.)

_____ 3) The hypothesis or purpose of the study is clearly stated?

_____ 4) The student indicates how the results of the study may contribute to advancement in the field? (Note: it is not required that this be so, but rather that the student has a sense of the potential impact of their work and considers the relevance of their data.)

_____ 5) The conclusions follow logically from the results of the study?

Additional Comments (Optional):

TOTAL SCORE (of possible 25 points): ____________

Compared to the other applications you review, please provide your overall impression of this application:

_____ Excellent; must be funded

_____ Very Good; fund if at all possible

_____ Good; fund if possible

_____ Fair; fund only if money remains

_____ Poor; do not fund
