

014100S02 - American Disability Act Accessibility Guidelines (ADAAG)

All designs shall comply with the most current Americans with Disability Act Accessibility Guidelines (ADAAG). For additional information and technical assistance, contact the Access Board, the Department of Justice (DOJ), and other government agencies. Also consult state and local building and life safety codes, ordinances, and laws that affect the design, construction, and alterations of buildings.

The University of Kentucky ADA Committee recommends the review of "Access for Everyone A Guide to the Accessibility of Buildings and Sites" as prepared by Iowa State University Facilities, Planning & Management and Department of Architecture, College of Design authored by Dr. Arvid E. Osterberg. This publication is in its 3rd Edition and represents the 2010 ADAAG requirements. Further, the University of Kentucky ADA Committee endorses the preferred installations as presented in A Guide to the Accessibility of Buildings and Sites.
