Exception to UK Cellular Device Form

Request for Departmental Contracts for Cellular Devices

As stated in UK Business Procedures http://www.uky.edu/EVPFA/Controller/files/BPM/Q-1-2.pdf - Cellular Device Policy: Departmental Contracts, certain units may have special needs that justify departmental ownership of shared cellular devices. If the need meets the criteria as specified in Q.1.2 section 13, the department head, with the approval of the appropriate higher authorization level may be authorized to have CNS obtain direct billing from the cellular carrier. It is responsibility of approving official to review the contract plan on regular basis to ensure appropriate plan for the business use of the device. Cellular device purchases and contracts where the University is the official billing entity should be approved only for those situations where the phone will be used primarily for business purposes. In these cases, employees do not receive a cell allowance or expense reimbursement, and the equipment is the property of the department, used for business purposes, and returned to the department daily after the employee’s work shift. Examples of eligible employees include police officers, parking cashiers, delivery drivers, maintenance personnel, security personnel, and other employees who need to be accessible by phone during their work shift. This contracting method will not be an option for administrators or faculty members.

The department head or designee in the unit must acquire cellular phone services through Communications and Network Systems (CNS) - the University’s official billing entity. Cellular phone service plans should be selected to reflect the estimated business use (i.e. service minutes) and must be reviewed on an annual basis and adjusted as necessary, to reflect average business use. The form is available at http://www.uky.edu/eForms/alphaindex.php?dept=OT

Department Number: __________ Department Name: ____________________________

Justification:

Type of Device: ___________________________________________ Qty of Devices: ______

Cellular Device Phone numbers ____________________________

Cost Center/Cost Object to be charged: ____________________________
