**While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time. And these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment. Please note that depending on your plan and benefits, some specialists may be able to serve as your primary care physician. To verify your benefits or copay, please check your certificate or summary of benefits or call customer service.**

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time, and these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment. Please note that depending on your plan and benefits, some specialists may be able to serve as your primary care physician. To verify your benefits or copay, please check your certificate or summary of benefits or call customer service.

AFFILIATED PROVIDER LISTING

Thank you for choosing UK HealthCare. This provider listing has been compiled as of April 2013. It includes physicians, dentists, and other health care practitioners who are affiliated with UK HealthCare. If you have any questions or concerns about these providers, please contact your provider or UK HealthCare directly.

All covered services must be delivered by providers in your local county of residence or contiguous county or by UK HealthCare in Lexington, KY. Services will not be covered at any other provider unless it is an emergency.

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time. And these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment. Please note that depending on your plan and benefits, some specialists may be able to serve as your primary care physician. To verify your benefits or copay, please check your certificate or summary of benefits or call customer service.

While we make efforts to ensure that our list of doctors is up to date and accurate, doctors do leave our networks from time to time, and these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment. Please note that depending on your plan and benefits, some specialists may be able to serve as your primary care physician. To verify your benefits or copay, please check your certificate or summary of benefits or call customer service.

There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment. Please note that depending on your plan certain specialists may be able to serve as your primary care physician. To verify your benefits or copay, please check your certificate or summary of benefits or call customer service.

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time. And these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment. Please note that depending on your plan and benefits, some specialists may be able to serve as your primary care physician. To verify your benefits or copay, please check your certificate or summary of benefits or call customer service.

---

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time. And these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the covered service is covered when scheduling your appointment. Please note that depending on your plan and benefits, some specialists may be able to serve as your primary care physician. To verify your benefits or copay, please check your certificate or summary of benefits or call customer service.

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time, and these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment. Please note that depending on your plan and benefits, some specialists may be able to serve as your primary care physician. To verify your benefits or copay, please check your certificate or summary of benefits or call customer service.
