WHAT IS A MAJOR ADVISING PAGE?

Major Advising Pages (MAP) feature education abroad programs that your department has highlighted as most appropriate for students in your discipline. Participating in a program featured on this MAP will allow you to complete coursework for your major/minor without delaying your graduation date.

READY TO GET STARTED?

As you evaluate the programs on this MAP, consider these important questions:

• Do you want to complete courses abroad, or would you prefer to complete a research project or an internship?
• Do you want to learn a language or improve your foreign language skills?
• Would you like to study abroad for a semester? An academic year? Or a shorter amount of time, such as summer or winter?
• Do you want to study abroad with other UK students, or would you prefer to study alongside local students and other international students?

WHY SHOULD I BE INTERESTED IN EDUCATION ABROAD?

Education Abroad can help you...

• Globalize your world view
• Expand your problem-solving skills and intercultural understanding
• Prepare to work in an increasingly diverse and international workplace
• Enhance your sense of independence and adaptability
• Gain new insight into the world and yourself

One of the best ways to increase your knowledge in your field is to study in various cultural contexts.

HOW DO I USE THIS MAP?

Inside this MAP, you will find keys and descriptions of the various types of programs and experiences available through UK Education Abroad. Use this MAP to identify programs of interest to you that offer coursework that might fulfill some of your degree requirements or complement your studies at UK.

Dr. Mark Williams
Director of Undergraduate Studies

What are my next steps?

If you have general questions about education abroad or want more information about the different types of programs available, speak with a Peer Ambassador in our Advising Center in 315 Bradley Hall.

Also, take this MAP to a meeting with your academic advisor. Use your degree plan to discuss which programs offer courses you might be able to use to fulfill the remaining requirements in your degree. Ask the following questions:

- Do any of the course titles available abroad appear similar to courses in my degree plan?
- Are there major elective requirements in my degree plan that could be met by some of the courses abroad?
- Are there courses outside my major in my degree plan? If so, take a look at the MAP for that major to see other program opportunities.

Once you have narrowed down your choices to a few programs, contact your education abroad advisor to speak about program specifics and the application process.

---

**HIGHLIGHTED PROGRAMS**

**Mountains to Coast: Field Studies in Costa Rica**
*Multiple cities, Costa Rica*

Costa Rica is a world leader in conservation, having established a network of national parks and bio-reserves in response to past deforestation. Undergraduates will enroll in NRE 320 (3 credits). If you already taken this course, please talk to the program director.

**Term:** Summer 2  
**Language:** English

**Universidad de los Andes (ISEP)**
*San Antonio de los Cobres, Argentina*

Undergraduates will enroll in GEN 306: Field Studies in the Argentine Pampas, or in a comparable course. If you plan to take GEN 306, you must first enroll in GEN 201 - 202: Introduction to Environmental Studies. If you have already taken GEN 306, please talk to the program director.

**Term:** Summer 1  
**Language:** Spanish

---

**Federal University of Viçosa**
*Viçosa, Brazil*

Learn and live alongside students from Brazil and many other countries around the world! Available courses include Plant Pathology, Population Biology of Plant Pathogens, Soil Genesis, Advanced Soil Fertility, Ultra-high Dilutions in Agronomy & Biology, Supply Chain Management, Agribusiness Chains, and more.

**Term:** Spring, Summer  
**Language:** English

**University of Ghana (ISEP)**
*Legon, Ghana*

This direct enrollment program allows students to complete coursework in UG’s departments of Soil Science and Crop Science. It also offers the opportunity to participate in the work and research going on at their agricultural extension.

**Term:** Fall, Spring  
**Language:** English

**University of Exeter Int’l Summer School**
*Exeter, England*

This program contains a module titled Global Climate Change: Environment, Technology & Society that explores the societal and environmental impacts and implications of climate change as well as the policy and technology solutions available.

**Term:** Summer 2  
**Language:** English

**Environmental Studies & Sustainability (IES)**
*Freiburg, Germany*

The environmental movement took root in Freiburg long ago — and now it’s a way of life. Available courses include Ecosystem Management, Climate & Vegetation in the Black Forest & Swiss Alps, Sustainable Energy, Ethics & Sustainability, Freiburg: Green City, and many more.

**Term:** Fall, Spring  
**Language:** English, German

**Massey University (ISEP Exchange)**
*Palmerston North, New Zealand*

This program offers courses such as Soil Fertility & the Environment, Soil Resources & Sustainable Land Use, Soil & Water Pollution, Plant Ecology, Natural Resource Policy & Planning, Soil Properties & Processes, and a course highlighted the environmental management in the local Maori regions, among many others.

**Term:** Fall, Spring  
**Language:** English

**University of Ghana (ISEP)**
*Legon, Ghana*

This program offers courses such as Comparative Tropical Ecology, Human Ecology & Conservation in the Tropics, and Spanish Language for the Natural Sciences. Students will also complete a research methodologies course and an independent research project in the form of an academic paper for credit.

**Term:** Fall, Spring  
**Language:** Spanish
