Eligibility
All UK students are eligible to use the University Health Service (UHS) for their health care. Full-time students pay a mandatory fee as part of tuition entitling them to UHS services. Part-time students may elect to pre-pay the health fee so they can receive the same covered benefits as full-time students; or they can use the Health Service on a fee-for-service basis.

About Us
UHS has physicians that are board certified/eligible in Family Practice, Internal Medicine, Women’s Health, Psychiatry, and Occupational Medicine. Additionally our nurse practitioners have certification in family medicine, gynecology and psychiatry.

UHS General Services (covered by the health fee)
- Unlimited visits with medical staff for injury or illness
- Well patient and travel-related physical exams
- Urgent care
- Women’s care (Gynecology)
- Behavioral health
- Allergy injections
- Limited medications (some over the counter, basic antibiotics)
- Health and Wellness: Nutrition, Tobacco Cessation, and Sexual Health

Travel Abroad Information
You can arrange a travel appointment with our primary care clinicians to obtain travel counseling, travel physicals, and vaccinations required for travel. We offer:
- Travel vaccines
  - Tetanus, diphtheria, pertussis (Td/Tdap)
  - Hepatitis A and Hepatitis B
  - Typhoid
  - Yellow Fever
  - Japanese Encephalitis
  - Polio Booster
  - Rabavert
  - Influenza
  - MMR
- Travel physicals
- Country specific travel counseling and advice
- Prescriptions for illness prevention for malaria or traveler’s diarrhea
- Insurance Information

Consider making an appointment at University Health Service 4-6 weeks before your trip. Clinicians can answer all your questions and provide any necessary vaccinations. (Note: the cost of travel vaccinations is not covered by the Health Fee.) Call 323-APPT (2778) to schedule an appointment.
