

EDC730

Designing Project-based Environments in Science and Math

We will emphasize the contents, technologies, instructional strategies, and assessments necessary in designing and developing a research-based, interdisciplinary, project-enhanced environment.

Graduate student participants will experience, evaluate, and design interdisciplinary, project-enhanced environments within mathematics and/or science classrooms.

COMING SPRING 2010!

Class Time: Mondays 5:30 - 8:00 pm

Offered by:

Dr. Jennifer Wilhelm, Associate Professor of Science/Math Education
