Disabled Parking Locations
All disabled parking spaces on campus are controlled for permits 24 hours a day, seven days a week. If you find that disabled parking near your place of business is consistently full, or if there is none convenient, please contact us to alert us of this situation.

Restrictions  (Violation of these restrictions may result in a citation, impoundment and/or termination of the permit privileges.)
- A disabled parking permit does not entitle the permit holder to park in violation of the UK Motor Vehicle Parking and Traffic Regulations
- A disabled permit may not be used by someone other than the person listed on the Parking Services permit application.
- If a student or employee with disabilities rides to campus with another person, the disabled permit may be used in a disabled space only when the person with the disability is present.
