Clinical Faculty – Public Health Clinical Assistant Professor

Starting Date: September 1, 2016

Description: Carroll University is seeking a diligent and innovative full-time clinical faculty member to join our team. This individual will play an integral role in ongoing curriculum development and implementation and assessment toward the goal of full accreditation. Public Health faculty members work collaboratively with other health and medical faculty, health and medical sciences directors and department chairs, college dean, and external public health constituencies.

Responsibilities: Responsibilities of this 9 month appointment in the Public Health Program include teaching, professional activity/scholarship, and service. Primary teaching expertise in public health policy, health education, and statistics is desired. Teaching in the Graduate Health Education Program is also a potential opportunity. Additional expectations involve advising and mentoring students including clinical supervision/instruction and supervising student research. Duties also include maintaining a scholarly agenda that is consistent with University and program mission and philosophy. Participation in program, department, and university service is also required. Opportunities to participate in both local and international service learning initiatives are available.

Qualifications: Ph.D. in Public Health or related field. Preference will be given to candidates with teaching experience.

Rank and Salary: Clinical Faculty. Nine month appointment. Salary is competitive and commensurate with qualifications.

The Program: The Public Health Program is housed in the Department of Health and Medicine and College of Natural Sciences and Health Sciences. The program currently supports over 70 students and is affiliated with the Master of Physician Assistant Studies Program, and undergraduate programs in Nursing, Athletic Training, Exercise Science, Physical and Health Education, and Recreational Administration.

The Department: The Department of Health and Medicine includes the Master of Occupational Therapy and the Master of Science in Physician Assistant Studies graduate programs as well as the following majors: Public Health, Health Sciences, Health Sciences—Diagnostic Medical Sonography, Health Sciences—Radiologic Technology, Medical Laboratory Sciences, Physical and Health Education, Sport and Recreation Administration, Therapeutic Recreation Emphasis, and a minor in Health and the Human Experience. The Department also includes a robust inter-professional initiative with Nursing and Human Movement Sciences.

The College: The College of Natural and Health Sciences offers undergraduate and graduate programs through six departments—Life Sciences (animal behavior, biology, environmental science, psychology); Computational and Physical Sciences (actuarial science, applied physics/engineering, chemistry, computational science, computer science, information technology, mathematics, physics, software engineering); Health and Medical Sciences (health sciences—diagnostic medical sonography and radiologic technology, physical and health education, public health, sport and recreation administration, therapeutic recreation); Human Movement Sciences (athletic training, exercise science, exercise physiology); Physical Therapy (DPT); and Nursing (BSN, RN to BSN, MSN). The college has a strong staff of academic administrative and support personnel.

Carroll University: Founded in 1846, Carroll University is an independent, co-educational
comprehensive University. The Carroll mission is to “provide a superior education, rooted in its Presbyterian and liberal arts heritage, and draws upon the Christian tradition to prepare all students for vocational success, lifelong learning and service in a diverse and global society”. Carroll University is located in suburban Waukesha, 16 miles west of Milwaukee and 60 miles east of Madison. The University serves 3600 undergraduate and graduate students. The University though intentionally ecumenical and non-sectarian in approach, is related to the Presbyterian Church, USA. Candidates must be willing and able to support and advance the University mission.

For More Information: For more information about the university, please access www.carrollu.edu.

Application: Review of applications will begin immediately. For consideration, please submit the following documents in Word or PDF format to facapp@carrollu.edu as email attachments with the subject line “Public Health Clinical Faculty”:
1) Letter of application,
2) Curriculum Vitae, and
3) Statement of teaching philosophy

Final applicants will be asked to submit graduate transcripts and three letters of reference.
