Position Summary: A postdoctoral position is open for an energetic and motivated PhD or DrPH scholar interested in studying health communication and aging with Dr. Daniela Friedman in the Department of Health Promotion, Education, and Behavior at the University of South Carolina. Dr. Friedman’s research focuses on understanding effective strategies for the communication and dissemination of evidence-based messages and programs focused on chronic disease (specifically focused on cancer and Alzheimer’s disease). The successful candidate will be actively involved with writing scientific papers and grant proposals and have opportunities to conduct independent research projects that would further their careers. The postdoctoral position will begin in August 2016 and be annually renewable. Salary is competitive and dependent on experience and qualifications.

Educational Requirements: Position requires a Doctoral Degree in Public Health or a closely related field and some background in health communication and/or dissemination and implementation science.

Qualifications and Experience: Experience with both quantitative and qualitative research methods; Strong analytical skills; Strong publication record; Grant and report writing experience; Creative thinking; Effective oral and written communication skills.

Application Documents: Cover letter clearly describing experience and interest in the position; Current CV, 2 samples of scientific writing (e.g., peer reviewed journal articles), list of references

How to Apply: Apply online through the University of South Carolina Division of Human Resources website: https://uscjobs.sc.edu/applicants/jsp/shared/frameset/Frameset.jsp?time=145730207267. Requisition Number for the position: 010158.
