Agricultural Economics

The Agricultural Economics program enables graduates to pursue careers in agribusiness and food industries, international marketing and trade, or farm management and production. Opportunities are also available in public policy for agriculture and rural America and environmental economics. These career opportunities may be found in both the private and public sectors. Economic theory is applied to problems concerning the production, marketing, and distribution of agricultural and food products and also to public policy and natural resource and environmental issues facing rural communities.

Agricultural Economics students choose one of two options – Option A: Agricultural Economics, and Option B: Agribusiness Management and Food Marketing.

Graduation Requirements
To earn the Bachelor of Science in Agricultural Economics, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average in one of the two program options. A student must earn a minimum grade of C in each of the four agricultural economics courses required in the major. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may not be counted toward the total hours required for the degree. In addition to University Studies requirements, students must complete college, departmental and support requirements.

Plan of Study
As an agricultural economics major you are required to develop an acceptable Plan of Study in your chosen area of emphasis for your junior and senior years. Submit the plan for approval to the department’s Undergraduate Program Committee and the Director of Undergraduate Studies during the second semester of your sophomore year.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan for approval during the first semester you are enrolled in the department.

Consult your academic advisor in developing your Plan of Study.

College Required Hours
GEN 100 Issues in Agriculture .......................................................... 3
Subtotal: College Required Hours .................................................. 3

University Studies Requirements
See “University Studies Program” on pages 75-79 of the 2006-2007 UK Bulletin for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Math
MA 109 College Algebra ................................................................. 3

Inference-Logic
MA 123 Elementary Calculus and Its Applications .......................... 3
or

MA 113 Calculus I ................................................................. 4

Social Sciences
ECO 201 Principles of Economics I ................................................. 3
One course other than economics from University Studies Program list .................................................. 3

OPTIONS
Option A: Agricultural Economics
This option provides a program of study for students interested in careers in rural public policy analysis, rural economic development, natural resource and environmental economics, cooperative extension, or a more individualized program.

Premajor Requirements
*ECO 201 Principles of Economics I ................................................. 3
ECO 202 Principles of Economics II .................................................. 3
*MA 113 Calculus I ................................................................. 4

OR
*MA 123 Elementary Calculus and Its Applications

MA 162 Finite Mathematics and Its Applications ............................ 6
STA 291 Statistical Method ............................................................ 3
ECO 391 Economic and Business Statistics ..................................... 3
ENG 203 Business Writing ............................................................. 3
Subtotal: Premajor Hours ............................................................ 19-21

Major Requirements
AEC 303 Microeconomic Concepts in Agricultural Economics .......................... 3
AEC 305 Food and Agricultural Marketing Principles .......................... 3
AEC 490 Quantitative Methods and Price Analysis ............................ 3
plus 12 additional hours in the major ............................................. 12
Subtotal: Major Hours ................................................................. 25

Specialty Support
ACC 201 Financial Accounting I .................................................... 3
ACC 202 Manager of Accounting Information ................................. 3
plus 15 additional hours of courses at the 200 level or higher to fulfill the student’s area of interest and selected with advisor’s approval from the following departments: ACC, AEN, ASC, BAE, COM, CS, CIS, DIS, ECO, ENT, FIN, FOR, MA, MGT, MKT, PLS, PS, PSY, SOC, VS ........................................... 15
Subtotal: Specialty Support Hours .................................................. 21

Electives
Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation.

Subtotal: Electives ................................................................. minimum of 16

TOTAL HOURS: ........................................................................ 120
Option B: Agribusiness Management and Food Marketing

A student in this option should be qualified for careers in marketing, sales, and management of farms or firms involved in production, financing, processing, marketing and distribution of food and agricultural products, depending on the electives chosen.
