Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is imbedded in the departmental philosophy that students learn best through experiencing. The kinesiology program is guided by the standards of the National Association for Sport and Physical Education (NASPE), and the Kentucky New Teacher Standards.

The kinesiology program ensures an understanding of and knowledge about the structure of the physical education and dance disciplines through the content courses of anatomy, physiology, kinesiology, exercise physiology, and nutrition. Application of this knowledge is demonstrated in physical education and dance activities to ensure discipline knowledge for teaching.

The B.A. in Kinesiology requires completion of: (a) the University Studies Program; (b) specified course work in Program Related Studies and Professional Education; (c) one of the kinesiology plans; and (d) a minimum of 128 semester hours. All kinesiology students are encouraged to complete Plan 1, which includes majors in kinesiology and health promotion, so that on graduating they will be qualified to pursue state teaching certification in physical education and health, grades P-12.

Continuous Assessment

1. All students in the kinesiology program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on page 161 of the 2006-2007 UK Bulletin.

2. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.

3. After admittance to the program, students not only must maintain a 2.50 GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

Statement on Student Teaching

Students who are majoring in kinesiology will enroll in:

KHP 369 Student Teaching in Physical Education ........................ 12

Students who are completing a major in both kinesiology and health promotion will enroll in:

KHP 369 Student Teaching in Physical Education ........................ 6

and

KHP 371 Student Teaching in Health Education ........................... 6
# Kinesiology – Teacher Certification Program

## Content Area Courses (23 hours)
- KHP 200 The History and Philosophy of Physical Education and Sport .......................................................... 3
- KHP 300 Psychology and Sociology of Physical Education and Sport .......................................................... 3
- KHP 390 Dance Activities in the Elementary School .......................................................... 2
- KHP 420G Physiology of Exercise ....................................................... 3
- KHP 445 Introduction to Tests and Measurements ......................... 3
- KHP 515 Anatomical and Mechanical Kinesiology ............................................. 3
- KHP 560 Motor Development in Infants and Young Children .......... 3
- KHP 579 Adapted Physical Education ............................................. 3

## Major in Health Promotion (33 hours)
