

# **Equine Science and Management**

College of Agriculture and School of Human Environmental Sciences

The horse industry is a dynamic industry that encompasses not only the breeding, raising and training of horses but also the development of activities for the use of the horse in sports and recreation. The industry has a significant economic impact across the U.S. and world-wide.

Equine science and management involves the study and application of science and business concepts to the horse industry. Additional course work supports learning in areas that aid in breeding and raising horses and marketing the industry. Students come from varied equine backgrounds but have a common interest in the horse. Regardless of which breed of horse or activity focus students have, equine science and management majors will have the opportunity to combine their interest in the horse with a desire to become active participants in the horse industry by selecting either the equine science option or the equine management option.

The equine science option is for students who have a primary interest in horse production. The equine management option is designed for students who are interested in the business aspect of the horse industry. Students in equine science and management considering a career in veterinary medicine or graduate research can meet those goals in the degree program as well. Interested students need to consult with an advisor to ensure all specific academic requirements are met.

#### **Career Opportunities**

The horse industry is continually changing. Equine science and management graduates are needed in all aspects of the industry including production, business management and other related support industries.

#### **Graduation Requirements**

To earn the Bachelor of Science in Equine Science and Management, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may **not** be counted toward the total hours required for the degree.

### Plan of Study

As an equine science and management major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of the Associate Dean for Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Students must complete the following:

#### College Required Hours

*GEN 10	00 Issu	es in A	Agriculture .	3
Subtota	ıl: Co	llege	Required	Hours 3

\*Except for students who enter the College after having already completed the U.S. Citizenship requirement of the UK Core.

#### **UK Core Requirements**

See the *UK Core* section of the *2012-2013 Undergraduate Bulletin* at: www.uky.edu/Registrar/bulletinCurrent/ukc.pdf for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements

I. Intellectual Inquiry in Arts and Creativity  Choose one course from approved list	. 3
II. Intellectual Inquiry in the Humanities  Choose one course from approved list	. 3
III. Intellectual Inquiry in the Social Sciences Choose one course from approved list	. 3
IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences  *CHE 105 General College Chemistry I  *CHE 111 Laboratory to Accompany General Chemistry I	
V. Composition and Communication I CIS/WRD 110 Composition and Communication I	. 3
VI. Composition and Communication II CIS/WRD 111 Composition and Communication II	. 3
VII. Quantitative Foundations  MA 123 Elementary Calculus and Its Applications  or	
WA 113 Calculus I	
IX. Community, Culture and Citizenship in the USA GEN 100 Issues in Agriculture	. 3
X. Global Dynamics Choose one course from approved list	. 3
UK Core Hours	

\*CHE 105/111 are part of the premajor requirement for Option A: Equine Science. Students pursuing Option B: Equine Management should choose from the approved list of courses to fulfill this area.
